RECORDS OF THE PUBLIC SURVEY OFFICE, BOISE, IDA

STATE OF IDAHO }

County of Boise

Peter A. Wierenga, being duly sworn, deposes and says: that he is the manager and principal clerk of THE IDAHO WORLD, a weekly newspaper published at Idaho City, in the County of Boise and State of Idaho; the said paper has been and is in general circulation in the county aforesaid, and in the vicinity of Idaho City; that the advertisement, a copy of which is hereto attached, was published in said newspaper once a week for two (2) consecutive weeks in the entire and regular issue of every number of said paper during the period and time of publication and was published in the newspaper and not a supplement; that said paper has been established and regularly and continuously published for more than seventy-eight weeks past previous to the first publication of this notice. Such notice was published in the issue beginning with 2/8, 1990 and ending with the issue of 2/15, 1990.

Peter Wierenga

STATE OF IDAHO }

County of Boise

On this 19th day of February in the year of 1990, before me, a Notary Public, personally appeared Peter A. Wierenga

known or identified to me to be the person whose name subscribed to the within instrument, and being by me first duly sworn, declared that the statements therein are true, and acknowledged to me that he executed the same.

WATER RIGHT LICENSE

WATER RIGHT NO. 65-13139

Priority: January 17, 1990

Maximum Diversion Rate:

0.12 CFS

Maximum Diversion Volume:

7.0 AF

This is to certify, that STATE OF IDAHO

DEPT OF LANDS

STATEHOUSE

BOISE ID 83720

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated January 17, 1990; and has submitted Proof of Beneficial Use on August 9, 1990. An examination indicates that the works have a diversion capacity of .330 cfs of water from:

PAYETTE RIVER, SOUTH FORK

tributary to PAYETTE RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.06 CFS	7.0 AF
FIRE PROTECTION	04/15 to 10/15	0.12 CFS	
	Totals	0.12 CFS	7.0 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 2(SWSW), Sec. 36, Township 09N, Range 04E
BOISE County

<u>PLACE OF USE:</u>	<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
IRRIGATION	09N	04E	36	Lot 2(SWSW)	2		2
Total number of acres irrigated:							2

PLACE OF USE: FIRE PROTECTION, same as IRRIGATION use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

APR 28 1993

State of Idaho
Department of Water Resources**WATER RIGHT LICENSE**

WATER RIGHT NO. 65-13139

CONDITIONS/REMARKS:

5. The Director retains jurisdiction of this right to require purchase or lease of storage water to compensate for diversion of the streamflow authorized by this right.
6. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
7. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 3.5 afa per acre for the lands above.
8. Two points of diversion are located within Lot 2, SWSW, S36, T09N, R04E.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 5TH day of MARCH, 1998.

RE: Permit to Appropriate Water #65-13139

Dear Water Right Holder:

I have reviewed the above referenced permit for licensing and found that the License Examination Fee required when you filed the Proof of Beneficial Use form on 08-09-1990 was never paid.

The Proof form claims beneficial use of 0.12 cfs of water from the Payette River, South Fork for irrigation of 4 acres at the Hi-De-Ho Trailer Park. The rate of diversion claimed for irrigation requires an examination fee of \$50.00. Since this fee was not paid as a result of an oversight, I am contacting you to notify you of the licensing considerations.

The field examination of the system by one of our examiners found 2 acres of irrigation at 0.06 cfs and a system capacity to support 0.12 cfs for fire protection. These amounts will be recommended for licensing providing the exam fee is paid. If you choose not to pay the exam fee, the licensed rate will be limited to a total of 0.04 cfs.

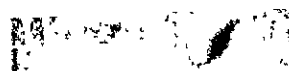

Please submit the \$50.00 License Examination Fee within 30 days of the date of this letter. If I have not received the fee or a response from your office within that time, I will assume you are not interested in the higher rate of flow that could be recommended on this right and will recommend the lower rate of 0.04 cfs.

Thank you for your prompt response in this matter. I have enclosed a copy of the permit and proof form for your convenience. If you have any questions please feel free to call me directly at 327-7943.

Sincerely,

Pamela Skaggs

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

2. Alternate Method for Checking Purposes:

F. PUMP EFFICIENCY DATA (Optional) (THEORETICAL)

Discharge Pressure: 26 psi x 2.31 = 60.06 ft (1); Dynamic pumping level: 10 ft (2)

Total Head: (1) + (2) = 70.06 (3) $Q = \frac{(5.8)(.7)(2)}{70.06} = 0.18 \text{ CFS}$: Flow rate: $\frac{0.18}{0.15}$ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = 1.5 (5) $Q = \frac{(5.8)(.7)(1.5)}{63.06} = 0.15 \text{ CFS}$

Meter Input KW: 3.6 x KH x CTR or MULT x PTR x N/ T = (6)

Meter Input HP: (6) x 1.34 = (7)

Panel Input KW: Ave PF x Ave Volts x Ave Amps x .001732 = (6)

Panel Input HP: (6) x 1.34 = (7) Efficiency: (5)/(7) x 100 = %

G. VOLUME CALCULATIONS

1 Volume Calculations for Irrigation

$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 2.0 \times 3.5 = 7.0 \text{ AFA}$

$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \frac{4.15}{18/15} \times 184 \times 1.9835 = 43.8 \text{ AFA}$

$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 7.0 \text{ AFA}$

2 Volume Calculations for Other Uses:

Since acreage less than 5 acres, use flow of 0.03 cfs/acre

APR 28 1993

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Overlaps - 65-7215 - Same P/U but different use
and different P/D.
65-10629 - ~~different P/D but different P/U.~~
Same area with different P/D.

Maximum flow requirements in less than 5 acres is 0.03 cfs/acre
Therefore recommend Licensing for 0.06 cfs for irrigation and
fire protection instead of 0.12 cfs requested on permit.
Permit indicates irrigation is for 4 acres, but only 2 acres
are being irrigated at this time. License should show
irrigation for 2 acres instead of 4 acres.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	4/15	10/15	0.12 0.06	7.0
Fire Protection	4/15	10/15	0.12 0.06 0.12*	7.0
Totals:			0.12 0.06 0.12 -	14.0 7

2. Recommended Amendments

- ☐ Change P.D. as reflected above ☐ Add P.D. as reflected above
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above

RE: Water Right No. 65-13139

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

June 8, 1992

STATE OF IDAHO
DEPT OF LANDS
STATEHOUSE
BOISE ID 83720

RE: Water Right No. 65-13139

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

APR 26 1993

STATE OF IDAHO
DEPT OF LANDS
STATEHOUSE
BOISE ID 83720

RE: Water Right No. 65-13139

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement

APR 28 1993

purposes. This type of coordination could minimize the impact on existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13139

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P65-13139

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Natural flow of the Payette River is fully appropriated except during periods of flood flow. Your permit is conditioned to require you to obtain storage water to compensate for your diversion of natural flow from the river. The amount of storage which you will be required to obtain is approximately 3 acre-feet per acre of irrigated ground. You will be notified in the future of the necessity to obtain storage water.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

RE: Application for Permit 65-13139

Dear Mr. Lester:

I have discussed this application with Department of Lands staff and with Phil Rassier of our legal staff. Phil and I agree that the Water Resource Board has prohibited the construction of diversion works on those portions of the Payette River having interim protected status.

Since the two diversion structures were in place before the interim protected designation was made, they are not impacted by the designation. You may proceed with processing the above referenced permit.

Sincerely,

Frank B. Sherman

RE: Application for Permit 65-13139

Dear Sir:

The above application to appropriate 0.12 cfs from the South Fork of the Payette River for irrigation and fire protection at the site leased by the Hi-De-Ho Travel Trailer Club (IDL lease #127-91) in T9N, R4E, Sec. 36, SWSW, faces a major obstacle. On 7/1/88, the Idaho Water Resource Board (IWRB) adopted the Interim Protected Rivers Resolution that included the South Fork of the Payette River. The resolution prohibits construction of water diversion works from an interim protected river.

I understand that the two diversions described in application 65-13139 have existed and been used for some time, but a new water right cannot be approved without addressing the IWRB concerns. Before this office can act on the application, you must request an exemption to the prohibition by asking for a hearing before the board. Please write to the IWRB, Gene Gray, Chairman, c/o Statehouse Mail, Boise, 83720.

The interim protected status may become permanent by 7/1/90 depending on the IWRB decisions. Acting promptly to request a hearing is recommended before such a possibility occurs.

Please contact me at 334-2190 if more information is needed.

Sincerely,

Steve Lester
Sr. Water Resource Agent
