System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

Two separate systems; Domestic ^(Internal) - A $\frac{1}{2}$ h.p. pump diverts water through a 1" copper line to home. This system is for domestic internal only. The second system is for domestic external. A 1 h.p. pump diverts water through a $\frac{1}{2}$ " PVC line to underground sprinkling system and water amenity. The irrigation is for flowers, ~~and shrubs~~, and trees only, no lawn ~~area~~ exists. The water for the amenity is pumped to the top, and then returns to the lake via the amenity. Approximately 30' of lift for both systems.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

OVERLAPS - P/L & H/L - Same QG, different area and P/L's.

Water is diverted through (2) H/L's. One for domestic internal, the other for domestic external. Since no flow was measurable, a theoretical flow was calculated. The total theoretical flow for both systems was 0.12 cfs. Since use is for (1) home with less than $\frac{1}{2}$ acre of ~~exterior~~ irrigation, recommend Licensing as for 0.04 cfs as requested on permit.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13137

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager
