CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
6. Domestic use is for 1 RV located within Lot 4A-19, CR-4 Subdivision Cascade Reservoir.

Consists of a divert diversion from an unnamed stream into a 1" plastic pipe that lays on the ground surface for approx. 1200' to a joint that changes direction and converts to a 3/4" pipe. From the conversion joint the 3/4" pipe runs downhill approx 350' to the place of use. The 3/4" pipe is buried for about 50' to a hydrant which supplies water to a travel trailer with no yard or garden irrigation.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

There are numerous other rights in the same QQ and subdivision that don't affect this permit.

The only method of measurement available was a 5 gallon bucket flow measurement which produced 2 gallons in 13 seconds or 9.2 gpm and .02 cfs. Based on the flow measurement and the use of one domestic with no irrigation, recommendation is to license the right at .02 cfs

Re: Application for Permit #65-13093 in the Name of Lloyd &/or Karen Shields

Dear Protestant:

On November 15, 1989, Mrs. Shields visited our state office to modify the above-referenced application for permit. Based on a field visit by a U.S. Forest Service representative, Mrs. Shields indicated that the actual point of diversion of her proposed water right is not located on national forest property. Therefore, she deleted from the application the point of diversion in the NW1/4 NW1/4, section 19, T15N, R03E, and she identified the owner of the property at the point of diversion as West Valley Development instead of U.S. Forest Service.

Enclosed please find a copy of the application as modified by Mrs. Shields. If these modifications satisfy your reasons for protest, we ask that you please notify this office in writing that the protest has been withdrawn.

Sincerely,

DAVID R. TUTHILL, JR., P.E.

RE: APPLICATION FOR PERMIT 65-13093

DATE: 15-NOV-1989

=====

Dave: Mrs. Shields came into the office today to amend her point of diversion so that the U.S. Forest Service would withdraw their protest to this application. A U.S.F.S. agent went out and walked up the pipeline to the Shield's point of diversion and told Mrs. Shields that their point of diversion was not located on U.S. Forest Service lands. The agent also advised her that the point of diversion was in the SENW of Section 19, however, on our maps the stream does not even run through the SENW. Mrs. Shields and I looked at the maps again and she believes that the point of diversion is in the NENW so instead of filing an amendment to the application we just deleted the point of diversion that the U.S.F.S. had a problem with and changed the owner of the point of diversion to West Valley Development.

Since the applicant was not really changing anything on the application, just deleting a point of diversion, I just made a copy of the application that Mrs. Shields brought in and made the corrections needed. Hopefully these changes will satisfy the Forest Service and they will withdraw their protest. Please note that Mrs. Shields did not initial each correction, I just had her sign the corrected form.

I hope this is acceptable to you. Kay

Dear Applicant:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to the above-referenced application. The Department suggests that you contact the protestant(s) and attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for a conference. At such a conference, the following are the principle items the Department will review (per Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

Please contact this office if you have questions regarding this procedure.

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-1203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
