WATER RIGHT LICENSE

WATER RIGHT NO. 65-13085

Priority: June 26, 1989

Maximum Diversion Rate:

0.05 CFS

Maximum Diversion Volume:

5.3 AF

This is to certify, that FRANK H WHITMAN

PO BOX 14

GARDEN VALLEY ID 83622

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 26, 1989; and has submitted Proof of Beneficial Use on November 9, 1992. An examination indicates that the works have a diversion capacity of 0.070 cfs of water from:

PAYETTE RIVER, SOUTH FORK

tributary to PAYETTE RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.05 CFS	5.3 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 2(NENW), Sec. 30, Township 09N, Range 04E
BOISE County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
09N	04E	30	NWNE	1.5		1.5

Total number of acres irrigated: 1.5

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
6. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 3.5 afa per acre for the lands above.

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

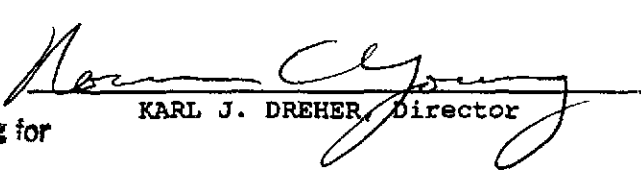

WATER RIGHT NO. 69-13085

CONDITIONS OF APPROVAL AND REMARKS

7. When water is not available to fill this right, the right holder shall cease diversion or shall rent water from the Payette River Rental Pool.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 3rd day of November, 1975.

Acting for

KARL J. DREHER, Director

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, Karl J. Dreher, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 65-13085 with the following;

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
6. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 3.5 afa per acre for the lands above.
7. When water is not available to fill this right, the right holder shall cease diversion or shall rent water from the Payette River Rental Pool.

Witness my hand this 3rd day of NOVEMBER, 1995.

RE: WATER RIGHT NO. 65-13085

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

D. FLOW MEASUREMENTS

N/A

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements:

None - Two different types of sprinkler operating. Pump has pressure gauge and air to length of pipe, theoretical would be more accurate, due to friction loss.

NOV 08 1995

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/O - Same QR, different sources (groundwater)
P/N - Same QR, different areas of use.

Water is diverted from the South Fork Fayette River through a 2" PVC by a 1 h.p. Jacuzzi pump. The PVC service line to the ~~home~~ Lawn and Landscaping areas reduces to 1 1/4", and finally to 1" PVC. Only 1.5 acres is irrigated by this system, not 4 acres as stated on the permit.

Hoses are attached to 'Y' at end of PVC, and are used to irrigate the 1.5 acres surrounding the home. Due to type of sprinklers used, no measurement was taken.

The allocation of 0.03 cfs per acre would allow 0.06 cfs for licensing allocation. The theoretical calculation indicates that this system is capable of irrigating the present 1.5 acres. Therefore, recommend licensing for 0.06 cfs, not the 0.12 cfs for 4 acres as requested on permit.

$$Q = \frac{(8.8)(1)(0.2)}{(2.31 \times 37) + 5} = 0.07 \text{ cfs (Theoretical)}$$

Note: The 3.7 psi is gage pressure at pump.

Have conditions of permit approval been met? ☒ yes ☐ no

NOV 08 1995

F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method: NO MEASUREMENT taken due to type of sprinklers.**G. VOLUME CALCULATIONS**

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 1.5 \times 3.5 = 5.3 \text{ AFA}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.06 \times 215 \times 1.9835 = 25.6 \text{ AFA}$$

MEMORANDUM

TO: File 65-13085 / Frank H. Whitman
FROM: Brenda Chapman
DATE: October 25, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 65-13085 are based on the information below:

H. RECOMMENDATIONS

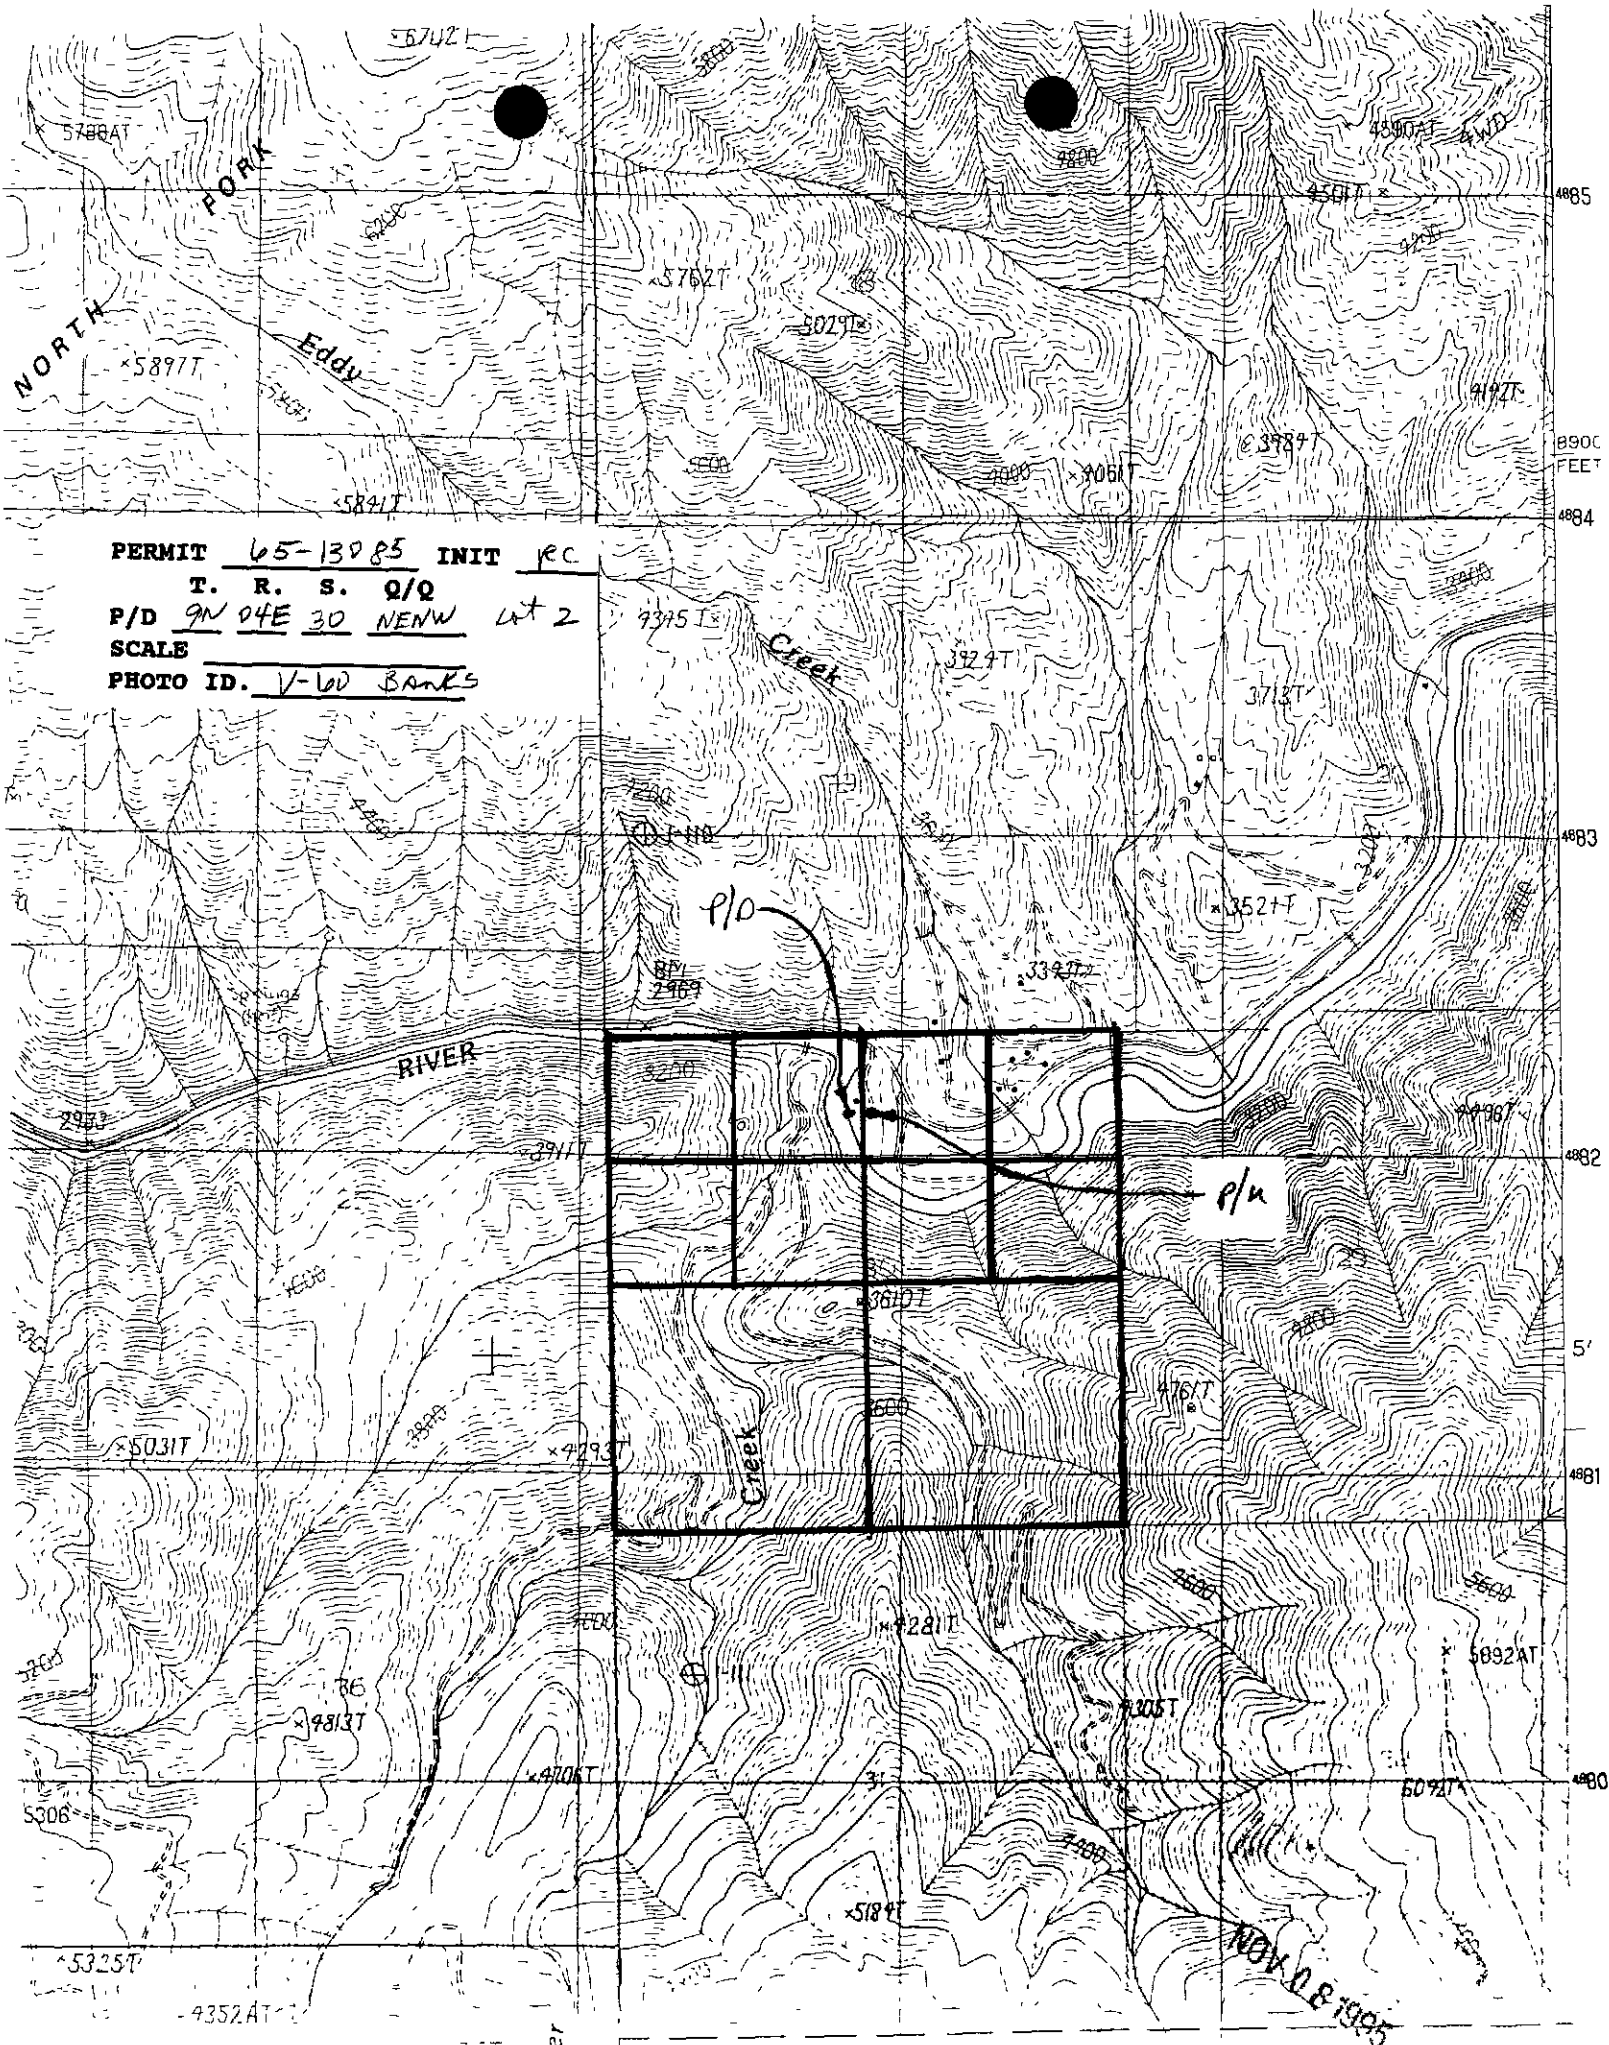

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	4-15 to 10-15	.05	5.3

The irrigation season dates have been changed to the current standards.

The recommended rate of flow has been reduced.

$$1.5 \text{ acres} \times .03 \text{ cfs/acre} = .05 \text{ cfs}$$

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13085

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 65-13085

Dear Permit Holder:

Returned is the proof of beneficial use filed in connection with the above referenced permit. I have also enclosed a copy of your permit to appropriate water. As you can see, there seems to be some confusion in reference to the extent of use. Your permit was issued for irrigation of 4 acres. However, you have filed for domestic use of one home. Since you cannot change the extent of use of a permit without filing an amendment first, the proof is unacceptable as filed.

Also, you have indicated that you do not know the total rate of diversion, but estimate it to be between 0.10 and 0.20 cfs. The Department cannot accept the proof with and "estimated" rate of diversion. You will need to determine the amount of water you are diverting.

In order to meet all of the required dates, the corrected original proof of beneficial use will need to be returned on or before December 1, 1992.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 65-13085

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

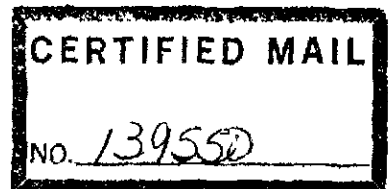

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: Water Right No. 65-13085

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

RE: Water Right No. 65-13085

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

RE: Water Right No. 65-13085

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

RECEIVED
NOV 19 1992

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

Re: Permit No. 65-13085

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time.
The time within which to submit proof of beneficial use is
extended to December 1, 1992.

Please note that the department has granted this extension based
on due diligence. It is important that you work diligently toward
the completion of this project during the construction period
allowed. The department may not be able to grant additional
requests.

If you have any questions or if I can be of any further
assistance, please feel free to contact this office.

Sincerely,

Karen Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13085

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Natural flow of the Payette River is fully appropriated except during periods of flood flow. Your permit is conditioned to require you to obtain storage water to compensate for your diversion of natural flow from the river. The amount of storage which you will be required to obtain is approximately 3 acre-feet per acre of irrigated ground. You will be notified in the future of the necessity to obtain storage water.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section
