TWN RGE SEC

08N 03E	5	Lot 6(SWSW)	
	8	Lot 1(NWNW)	Lot 2(SWNW)

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, Karl J. Dreher, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 65-13074 with the following;

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.

Witness my hand this 31st day of July, 1996.

KARL J. DREHER, Director

STATE OF IDAHO

RECEIVED

PROOF OF BENEFICIAL USE

JAN 30 1995

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 65-13074 Telephone No. work 396-2731

2. Name(s) of Permit Holder(s): Erik Meinikheim

3. Mailing Address: Dry Buck Ranch, P.O. Box 32, Banks, Id.

4. Source of Water: Springs If GROUNDWATER (well), Date Drilled: mo. 8 / yr. 3602

a. Well Driller: _____ Drilling Permit Number: _____

b. **OPTIONAL:**

Pump Horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft): _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): 80 CATTLE

Irrigation (No. of acres): 20 IN Other: the future

6. Total rate of diversion and/or volume for which proof is submitted: 0-0.20 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes _____ or No X

Has the measuring device been installed?

Yes _____ or No X

Flow Measurement Port: Is a flow measurement port required?

Yes _____ or No X

Has the measurement port been installed?

Yes _____ or No X

8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Erik Meinikheim Telephone Number: work 396-2731

Address: Dry Buck Ranch, P.O. Box 32, Banks, Id. 83602

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 65-13074Name(s) of Permit Holder: Eric Ramsdon MeinikheimMailing Address: Dry Buck Ranch P.O. Box 32 Banks, ID 83601Date Proof is Due Feb 1, 1993 Telephone No. 323-2731 (work)

Describe what work has been completed toward the development of this water right:

(This must be filled out! If no work has been completed, show "none".)

Surveyed and Laid out a Route for Pipe Line. Cleared Brush to
Create a Path for Road/Pipe Line. Access Road to Water Source IS
3/4 Complete. Expenses so far are for Gas & Diesel

Costing \$ 40.55

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The opportunity to Be an Executor for a Estate was unexpectedly
Bestowed on me. Distraught Heirs with Contesting Law Suits Has Consumed
My Free Time and Then Some.

Permit holder(s) request an extension to Nov. 30, 19 94.

FEE: \$15.00

S. P. Meinel
(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED
and the time within which to submit proof of beneficial use is
extended to February 1, 1995.

RE: WATER RIGHT NO. 65-13074

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the point(s) of diversion. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of Conditions of Approval and Remarks proposed for the license when it is issued. These conditions of approval and remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

E. NARRATIVE/REMARKS/COMMENTS

Three springs are diverted + gravity flow to 3 troughs via 1" + 2" PVC pipe. The troughs are each equipped with float valves. This permit represents 3 separate systems developed together for a common use which is stockwater only. The irrigation and domestic uses were not developed at the time of the exam. No other water rts are used.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 65-13074

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since proof of beneficial use was received after the proof due date. Please note that the priority date has been advanced to May 31, 1989.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

LAPSE NOTICE

RE: Permit No. 65-13074

Dear Permit Holder:

On February 6, 1995, the Department of Water Resources (Department) sent you a letter informing you of the need to submit a \$50.00 license examination fee before the Department could accept your proof of beneficial use form which was received January 30, 1995, for the above referenced permit. You were given thirty (30) days to provide the Department with the fee. To this date the Department has not received the requested license examination fee.

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has **lapsed**. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit the \$50.00 license examination fee. The fee must be received by this department within **sixty (60) days** of the date of mailing of this lapse notice or the permit will be void and of no force or effect.

If you have any questions or concerns, please do not hesitate to contact the Department.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

RE: Permit No. 65-13074

Dear Permit Holder:

Returned is a copy of the proof of beneficial use you submitted in connection with the above referenced permit. Unfortunately, the proof can not be accepted as filed.

The Department has determined, from pertinent sections of the Idaho Code, that the permit holder must meet two requirements in order to be exempt from the license exam fee. They are:

1. The water right must use a **groundwater** (well) source, **and**;
2. The rate of diversion must be .04 cfs or 4.0 AF or less.

As you can see, you do not meet requirement #1 since you use springs (surface) for your source. Therefore, a license examination fee of \$50.00 applies to the permit.

Please return the copy of the proof form and the license examination fee within thirty (30) days of receipt of this letter.

If you have any questions or if I can be of any assistance, please feel to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Julie L. Yarbrough".

PROOF DUE NOTICE

RE: PERMIT NO. 65-13074

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Water Right No. 65-13074

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON

RE: Water Right No. 65-13074

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

BANKS ID 83602

RE: Water Right No. 65-13074

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement

FEB 18

purposes. This type of coordination could minimize the impact on existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P65-13074

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the condition of approval which requires you to obtain supplemental water for your irrigation use, since there is not enough unappropriated water for your use during the entire irrigation season. A supplemental source of water supply likely can be obtained by the purchase or lease of stored water from Cascade Reservoir. To inquire, you should check with the U.S. Bureau of Reclamation in Boise.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

MICROFILMED

MAR 23 1990

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) 0.12 and/or (b) 35.6 EM
cubic feet per second acre feet per annum
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc None presently. Plans for a
diversion dam, 3' high X 12' long of earth and rock, and a pipeline of 2"
plastic pipe, approximately 600 feet long. Refers to stream #2 on the map.
b. Height of storage dam 3' feet, active reservoir capacity 0 acre-feet, total
reservoir capacity 0 - too steep acre-feet, period of year when water will be diverted to storage.
No storage to _____ inclusive
c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet
d. Is ground water with a temperature of greater than 90°F being sought? No
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
5 years (minimum 1 year)

MICROFILMED
MAR 23 1990

8 Description of proposed uses (if irrigation only, go to item 9):

- a Hydropower, show total feet of head and proposed capacity in KW _____
- b Stockwatering; list number and kind of livestock. 40 cows and calves
- c Municipal, show name of municipality. _____
- d Domestic; show number of households _____
- e Other; describe fully. Irrigation by sprinklers, gravity feed

9 Description of place of use:

- a If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b If water is used for other purposes, place a symbol of the use (example. D for Domestic) in the corresponding place of use below See instructions for standard symbols
