Please print or type Attach pages with additional information Instructions are included at the end of this form
 Incomplete forms will be returned.

- 1 Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, **THEN SKIP THIS ITEM AND GO TO ITEM 7.** If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights, and, if a required claim for the water right has not been filed, to file the needed claim.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures, or if you have questions about completing this form, please contact your nearest IDWR office or call 1-800-451-4129.

If you need additional space to describe or explain any of the items on the form, please attach additional sheets to the form as you may require.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at Item 1. If you or the seller believe there are water rights for the property but the numbers are unknown, you may wish to call IDWR or come into an office of IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at Item 2 is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at Item 3.
4. The name, mailing address, and telephone number of the new owner(s) is entered at Item 4. Please indicate the relationship between multiple owners by using the connector "and", "or" or "and/or". If an "and" is used, all parties must sign this form. If an "and/or" or "or" is used, all parties may sign, however only one of the named parties is required to sign.
5. At Item 5, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. If the property you have purchased is only a portion of the property owned by the former owner/seller, you may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at Item 6.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at Item 7. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you.

Dear Mr. & Mrs. Evans:

The Department is in receipt of the correspondence changing ownership of the above referenced water right to you. We have modified our records to reflect this change in ownership and a computer-generated report is enclosed.

Just a reminder, because of a law that went into effect July 1, 1996, all water right owners are required to report change of address or ownership to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee to the water right owner. If you have other water rights that haven't had the ownership updated please contact the department as soon as possible.

If you have any questions regarding this matter, please feel free to contact me at (208) 327-7947.

MEMO TO FILE:

From: Carolyn Andregg

During the spring and summer of 1992, drought conditions caused record low flows in the Snake River. Twice, the flow of the Snake River fell below 4,750 cfs, the minimum stream flow at the Weiser gauge. Notices were mailed to the water user listed under this right because the priority is later than July 1, 1976, in order to protect the Snake River minimum stream flow. The following is a chronological history of the mailings.

May 19, 1992: Letter sent to water right holder informing holder of possible temporary cessation of diversion rights and notice of public meetings.

June 8, 1992: Letter sent informing water right holder directing immediate cessation of diversion of water until further notice.

June 12, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

June 26, 1992: Letter sent to water right holder directing immediate cessation of diversion of water until further notice.

June 29, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

A 1/2 hp pump was located on the middle fork of the Payette River. It was a submersible pump with screen around it and a 1 1/2" discharge line. The discharge line extended uphill approx 60' high. The line went underground upon reaching the lawn area. The lawn was watered by underground sprinklers, and a head pump was located in front of the house. Measurements were taken from this pump while the sprinklers were shut off. From the intersection of the road, the area is 225' x 125'; however, only the lawn area on top of the hill could be

PROOF DUE NOTICE

RE: PERMIT NO. 65-13073

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-13073

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Natural flow of the Payette River is fully appropriated except during periods of flood flow. Your permit is conditioned to require you to obtain storage water to compensate for your diversion of natural flow from the river. The amount of storage which you will be required to obtain is approximately 3 acre-feet per acre of irrigated ground. You will be notified in the future of the necessity to obtain storage water.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

Sirs:

Since July 1986 I have been attempting to obtain water rights from the Middle Fork of the Payette River for our property in the Rivers Point Subdivision. Following are the procedures which have transpired since that time:

Applied for Permit July 30, 1986 Check #144 \$30.00

Permit Approved October 30, 1986

Received Lapse Notice November 3, 1987 (This lapse for not getting the pump and pipeline installed was due to illness and other unavoidable circumstances.)

Applied for Extension November 25, 1987. Check #539 \$15.00

Received Receipt dated December 2, 1987.

Pump ($\frac{1}{2}$ hp. Submersible), pipeline and sprinklers were installed July 29, 1988.

Re-applied for Permit May 2, 1989 Check #606 \$30.00
(Filing deadline was May 19, 1989). I was assured by the office secretary that there should be no problem.

Saw advertisement regarding my water rights in Idaho World July 5, 1989.

To date I have not received any further correspondence from your department. I would appreciate verification that the request for water rights has been approved. Or, is the original permit (Ident. No. 65-12778 stamped "Approved") all that I need?

Your prompt attention will be appreciated.

Very truly yours,

Wade M. Gustin
