Water for the permit is stored in Upper Guy Creek Reservoir. However, the water owned by the permit owner is a right from Boulder Lake. The Boulder Lake water is exchanged for Upper Guy Creek water under an agreement with Roseburg Irrigation District. Water flows into Upper Guy Creek Reservoir and is released first into Guy Creek which then flows through Lower Guy Creek Reservoir. Guy Creek empties into Julie Creek and flows back into Boulder Creek. Water is diverted from Boulder Creek into Boulder Creek. ☒ See Remarks on page 4 for continuation

Creek by a small diversion dam approx. 4 miles from the P/U into Boulder Ditch. Boulder Ditch splits into an East ditch which delivers water to the Willey interest and West ditch that delivers water to the other three interests. at the diversion from Boulder Creek, KK water assoc. water is commingled with Boulder Irrigation District water. Irrigation to the four places of use is provided by ditch and flood irrigating. Ownership of shares per George Duncan are as follows:

Rantola - 88 AF

Duncan - 44 AF

Willey - 44 AF

RE: Assignment of Permit #65-13058

Dear Mr. Kitchens:

Enclosed you will find the Assignment of Permit that was recently submitted to the Department. There are some questions regarding the assignment that need to be clarified.

The water right identified is in the name of KK Water Association and you are listed as a member of the association. Were you attempting to assign the entire water right to the Arnolds for the Association? If that was your intent, you need to fill out the enclosed blank assignment form in the name of KK Water Association to the Arnolds, and have either J. Kantola or H. Willey sign it since they are listed as Directors of the Association. If someone else from the Association signs the form, please show evidence that they are authorized to represent KK Water Association.

Did you simply want to have the Arnolds replace you in our records as members of the KK Water Association? If this was your intent, a copy of the assignment has been placed in our records for future reference, but the water right remains the same.

I will assume that this matter is closed unless I receive further correspondence or a completed, signed and notarized assignment from KK Water Association. I hope I have answered any questions you might have concerning this matter, but if you require further assistance please feel free to contact me directly.

Sincerely,

PAMELA SKAGGS

PROOF DUE NOTICE

RE: PERMIT NO. 65-13058

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P65-13058

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety requirements must be met. Please contact the regional office nearest you for details.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Re: Application for Permit 65-13058

Dear Sirs:

This letter is to update the information discussed in my 6/7/89 letter. Attached is a modified copy of the application. Please note that the point of diversion and remarks information were revised to conform to standard water right methods of recording information. The application states the same things but in a slightly different way. I wanted to let you know about the revision to avoid alarming you when the advertisement appears in the local newspaper.

Also, the refunds for the three applications replaced by the association application will be for \$50 each instead of \$45 each. Overpayment occurred in each of the three earlier applications. Copies of this letter were sent to the other parties in the association.

Please let me know if I may provide additional help in this matter.

Re: Application for Permit 65-13058

Dear Applicants:

Application 65-13058 was filed on 5/31/89 by Jim Kantola on behalf of the KK Water Association, which was identified as the Duncans, Kantolas, Kitchens Trust, and Willeys. The application replaced three prior applications filed individually by all of the members except for the Kantolas.

The previous applications are shown below. The three earlier applications are superceded by 65-13058 and will be withdrawn and voided. Refunds will be issued to the involved parties. I sent a request for refunds to our State Office today.

To be voided:

65-12976, Duncans, 3/1/89
65-12977, Kitchens Trust, 3/1/89
65-12978, Willeys, 3/2/89.

The remaining application for the association will be advertised and processed but cannot be approved until this office receives a written approval of the water exchange outlined in the application. Please contact the Roseberry and Boulder Irrigation Districts and obtain their consent to your application.

A related issue involves the Kantola adjudication claim A65-02943D. Mr. Kantola expressed an interest in obtaining a refund for the claim. The best way to proceed involves contacting Dave Shaw, Adjudication Bureau Chief at the State Office (327-7929). By briefly explaining the situation in which an application was needed to provide water right coverage outlined in the claim, Mr. Kantola will be advised of the likelihood of a refund. The complete file regarding A65-02943D is found at the Western Regional office (contact Sr. Agent Eldon Roush). Eldon informed me that a copy of the 2/23/89 "Findings of Record - Summary Conclusion" was mailed to J. Kantola at an earlier date.

Please provide the response from the irrigation districts to me within 30 days. Additional help is available from this office.

Sincerely,

Steve Lester

SUBJ: REFUND FOR APPLICATIONS

As you pointed out to me the other day, each of the receipts listed below relate to \$50 payments. It appears that incorrect fees were collected during the application process. This memo replaces the one of 6/6/89.

On 5/31/89 the KK Water Association filed Application 65-13058. The application replaces three individual applications previously filed by parties that now belong to the association.

The three withdrawn applications are as follows:

65-12976, Duncan, \$50, receipt W002332, 3/1/89.

65-12977, M. L. Kitchens Trust, \$50, receipt W002334, 3/1/89.

SUMMARY CONCLUSION

ON 09/09/1976, OSBORN RANCH INC. SELLS PROPERTY LISTED IN LICENSE # R850, TOGETHER WITH 300 ACRE FEET OF STORAGE WATER, TO FRANK AND DIANE THOMAS.

ON OR ABOUT 09/10/1976, FRANK AND DIANE THOMAS COMPLETES DEVELOPMENT OF ALTA VISTA SUBDIVISION AND BEGINS SALE OF INDIVIDUAL LOTS WITHIN THE SUBDIVISION. NO RECORDS ARE FOUND INDICATING THAT WATER RIGHTS WERE RETAINED BY THE THOMASES' FOR LANDS WITHIN THE ALTA VISTA SUBDIVISION (PORTION OF THE SW1/4 OF SECTION 36, TWP 18N., RGE 3E.)

ON 05/10/1977, FRANK AND DIANE THOMAS CONVEYS E1/2SE1/4 OF SECTION 35, TWP 18N., RGE 3E. TO PHYLLIS HUFFMAN. NO RECORDS ARE FOUND TO INDICATE THAT FRANK AND DIANE THOMAS RETAINED WATER RIGHTS APPUREN-

ANT TO THIS PROPERTY.

ON 02/25/1981, THE ESTATE OF FRANK THOMAS QUITCLAIM DEEDS 220 ACRE FEET OF STORAGE WATER OF LICENSE #R850 AND RETAINS 80 ACRE FEET.

SINCE IT APPEARS THAT FRANK AND DIANE THOMAS DID NOT RETAIN STORAGE WATER RIGHTS FOR LANDS SOLD, CONVEYED, OR QUITCLAIM DEEDED ON OR ABOUT 09/10/1976 (ALTA VISTA SUBDIVISION) AND ON 05/10/1977 (PHYLLIS HUFFMAN), IT IS PROBABLE THAT THE WATER RIGHT OF LICENSE #R850 REMAINED APPURTENANT TO PROPERTIES LISTED IN THE LICENSE AND COULD NOT BE TRANSFERRED, SOLD, CONVEYED OR QUITCLAIM DEEDED BY OTHER THAN THE PROPERTY OWNERS OF ALTA VISTA SUBDIVISION AND PROPERTY OWNER PHYLISS HUFFMAN. THEREFORE, THE QUITCLAIM DEED DATED 02/25/1981 BETWEEN THE THOMASES' AND HOLLENBEAKS' AND SUBSEQUENTLY THE QUITCLAIM DEED DATED 09/21/1984 BETWEEN THE HOLLENBEAKS' AND THE PURCHASERS ARE QUESTIONABLE IN RESPECT TO LEGALITY.

FURTHERMORE, A QUESTION ARISES AS TO FORFEITURE OF LICENSE #R850 FOR NON-USE IN LANDS WITHIN THE ALTA VISTA SUBDIVISION. IT APPEARS THAT IRRIGATION OF THESE LANDS WITH STORAGE WATER FROM LICENSE #R850 HAS NOT OCCURED SINCE THE COMPLETION OF THE SUBDIVISION ON OR ABOUT 09/10/1976.

POSSIBLE CONTACTS WITH PROPERTY WITHIN ALTA VISTA SUBDIVISION FOR VERIFICATION:

Re: Application for Permit

Dear Mr. Kantola:

As you know, three water right applications were recently filed that outline the use of irrigation water similar to your use from Jug Creek Reservoir via a water exchange through Boulder Creek in conjunction with the Roseberry Irrigation District. None of these uses are currently protected by valid water rights. Instead of establishing four individual water rights that operate under the same arrangement, and therefore generating water right application and licensing fees for each right, the Department recommends that the applicants form a water users association and file one application. The association could specify the appropriate amounts of water per share holder and all other related details in the organizational by-laws.

In this manner, your private organization will have one water right which will be fairly distributed among the members. Money and time will be saved with one right instead of several. Also, the Boulder Creek Water District Water Master, who is responsible for deliveries from the creek, can regulate one larger right more efficiently than several smaller ones. Additionally, since applications advertised in the local legal notices may be protested, all of you may benefit by the lower profile offered by one application instead of several being advertised.

If the above course is pursued, the applications filed by the Duncans, Willeys, and Kitchens Trust can be cancelled and refunds issued to them. Also, the separate water exchange application will be incorporated into the association's water right permit application, saving additional money.

Copies of this letter were sent to the involved parties. Please consult with them and decide on the best course to pursue. This office will gladly provide additional help and information.

Steve Lester
