3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

Her Mr. Gordeners records a 1/2 hp. submersible pump was located in a 6" dia. well, located in the north east corner of the property. The domestic use was for a church with 2 bathrooms and a kitchen. Approx 60 people use the church twice a week. The outside use is for irrigation of approx 3 acres. About 1/3 acre of lawn is around the church and the remainder is pasture. From the well log, the dynamic water level is 60'. Total storage: $(250' \times 400') - (20' \times 180') - (20' \times 30') - (20' \times 30') / 43560 = 2.0$ acres.

RE: PERMIT NO. P65-13056

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

SEP 24 1989

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.
