Water Right License

WATER RIGHT NO. 65-13030

Priority: March 3, 1989

Maximum Diversion Rate: 0.11 CFS
Maximum Diversion Volume: 64.8 AF

It is hereby certified that MOUNTAIN VIEW WATER & ROAD ASSN INC
PO BOX 644
GARDEN VALLEY ID 83622 has complied with the terms and
conditions of the permit, issued pursuant to Application for Permit dated March 3, 1989; and has
submitted Proof of Beneficial Use on July 23, 1998. An examination indicates that the works have a
diversion capacity of 0.13 cfs of water from:

SOURCE

GROUND WATER

and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL DIVERSION VOLUME</u>
FIRE PROTECTION	01/01 to 12/31	0.11 CFS	
DOMESTIC	01/01 to 12/31	0.11 CFS	64.8 AF

LOCATION OF POINTS OF DIVERSION:

GROUND WATER SW¼NW¼ Sec. 15, Twp 09N, Rge 04E, B.M., BOISE County
GROUND WATER SW¼NW¼ Sec. 15, Twp 09N, Rge 04E, B.M., BOISE County

PLACE OF USE: DOMESTIC

Twp Rge Sec	NE				NW				SW				SE				Totals
	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
09N 04E 15							X				X						

CONDITIONS OF APPROVAL

1. Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire.
2. Points of diversion are located within Lot 38, Mountain View Subdivision.
3. Place of use is located within Lots 1-57, Mountain View Subdivision
4. Domestic use is for 53 homes, a senior citizen center, backhoe service, fire station and restaurant/bar.
5. The issuance of this right does not grant any right-of-way or easement across the land of another

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 22nd day of May, 2003.

RECORDED

OCT 24 1989

A detailed topographic map of the Garden Valley area in Idaho. The map features contour lines indicating elevation, with major peaks reaching over 4000 feet. Key landmarks include Hot Springs, Garden Valley, and the Garden Valley Ranger Station. The map also shows various roads, trails, and water features like creeks and springs. A grid system is overlaid on the map, with coordinates marked along the edges. The map is oriented with North at the top.

RE: License No. 65-13030 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

CERTIFICATE OF SERVICE

I hereby certify that on May 23, 2003 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved License) to the person(s) listed below:

RE: WATER RIGHT NO. 65-13030

**MOUNTAIN VIEW WATER & ROAD ASSN INC
PO BOX 644
GARDEN VALLEY ID 83622**

**Kari Lynn Townsend
Secretary**

MICROFILMED

JUN 05 2003

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Comment Report

65-13030

1. kwalker 5/20/2003 Place of Use

Comment: I contacted Mr. Loren Brazell today to find out which lots were using water from the wells under this system. Mr. Brazell stated that all 57 lots are stubbed into the wells and at this time there are 24 existing homes out there. Since all 57 lots are stubbed in, I recommend we license the permit for all the lots in the subdivision as applied for and as permitted. Note: Application for permit stated all 57 lots were stubbed into system when it was submitted. To determine volume I recommend 53 lots @1.2 af/lot plus 1.2 af for the 4 lots with commercial uses. Total = 64.8 af which is less than the 68.4 af that could have been developed. Also, the place of use is located within the SWNW and NWSW per GIS shape of subdivision.

RE: Permit No. 65-13030

Gentlemen:

We are preparing a water right license for the above referenced permit and find that we need more information. Could you please indicate on the enclosed copy of the subdivision map which lots are receiving water from your system for domestic use? Our examiner was told that there would be 40 homes using domestic water, 14 existing homes and 26 future homes (where the lots have been stubbed in). I need to know which lots are stubbed into your system so I can include that information on the water right license.

Please mark the lots that should be included under this water right license on the enclosed subdivision plat, and return it to me within the next 30 days so I can finalize the licensing of this permit.

If you have any questions in regard to this matter, please do not hesitate to contact me at 327-7944.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. **Measurements:** Pump curve supplied by Valley Pump, who installed the system

E. NARRATIVE/REMARKS/COMMENTS

Two 6" wells, one equipped with 5 hp submersible pumps, and the other in the process of getting a duplicate 5 hp submersible pump installed, supply water to Mountain View Water Association. The wells are located 70' apart and are drilled to the same depth. The system is designed where only one well can operate at a time, limiting the capacity to one 5 hp pump. The water is lifted ~35 vertical feet to a 21,000 gallon storage tank. From there the water is gravity fed to the delivery system via mainline ranging from 6" to 2" diameter. 14 existing homes and 26 future homes are stubbed into the system. The system also provides water to a Senior Citizen's Center on Lot 40, Lynn's Backhoe Service on Lot 26, a Community Volunteer Fire Station on Lot 6 and Dirty Shame Bar and Restaurant on Lot 25. A few of the home lots and none of the commercial lots use the water externally. No other rights are used.

Have conditions of permit approval been met? yes no

MICRO MED
11/15/2003

F. FLOW CALCULATIONS

___ X ___ Additional Computation Sheets Attached
(Pump Curve)

Measured Method:

Pump Curve: 60 gpm or .13 cfs (**Allow .11 cfs per permit**)

TDH: Lift from well to surface ~190' (pump set at 198')

Lift from Surface to storage tank ~35' vertical per topo

Allow 10 psi for open discharge into tank

Total TDH = ~240', which correlates with the pump curve.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$

$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$

$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} =$

2. Volume Calculations for Other Uses:

40 homes, internal/external domestic uses: $40 \times 1.2 = 48 \text{ afa}$

1 bathroom for Volunteer Community Fire Station: $5 \text{ gpd} \times 365 \text{ dys}/325,850 = .006 \text{ afa}$

Senior Citizen's Center: $60 \text{ patrons} \times 5 \text{ gpd/person} \times 2 \text{ meetings/wk} \times 52 \text{ weeks}/325,850 = .10 \text{ afa}$

Lynn's Backhoe Business: $1 \text{ worker} \times 15 \text{ gpd} \times 365 \text{ dys}/325,850 = .02 \text{ afa}$

Dirty Shame Bar and Restaurant: $100 \text{ patrons/dy} \times 10 \text{ gpd/person} \times 365 \text{ dys}/325,850 = 1.1 \text{ afa}$

Total Required Volume: 49.2 afa

Potential Volume: .11 cfs x 365 x 1.9835 = 79.6 afa

Allow 49.2 afa

NOTE: Applicants were permitted for internal/external domestic use for 57 homes, which allowed them to develop and appropriate up to 68.4 afa of ground water ($57 \times 1.2 = 68.4 \text{ afa}$). Although commercial uses rather than homes were developed on four of the lots, the total ground water provided by the system is still within the original permit limits.

APPROVED

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13030

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 65-13030

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1998. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit No. 65-13030

Dear Permit Holder:

Enclosed is a copy of your approved Request for Extension of Time submitted in connection with the above referenced permit. The time within which to submit proof of beneficial use is extended **September 1, 1998**.

Please note that the department has granted the extension based on government agency delay. It is important that you work diligently to develop the water right. The department **will not** be able to grant additional extensions associated with this permit.

Please be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

If you have any questions regarding this matter, please contact me at (208)327-7900.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

AUG 28 1996

Department of Water Resources

Mr. Bill Freeman
Division of Environmental Quality
1445 North Hilton
Boise, ID 83706-1206

RE: PROPOSED ADDITIONAL WELL FOR MOUNTAIN VIEW SUBDIVISION

Dear Mr. Freeman:

Les Severance would like to construct an additional well in order to provide another source of water for the central water system at Mountain View Subdivision in Garden Valley, Idaho. (Section 15, T9N, R4E, BM, Boise County)

The existing well is located generally near the Northeast Corner of Lot 38. The new well is also proposed on Lot 38, approximately 75 feet west of the existing well. Although there may be some well interference between the two wells, Mr. Severance chose this location because the 30 gallon per minute yield from the existing well is a good production rate for the Garden Valley area and the water quality is good. Drilling in other areas would be an unknown factor.

Enclosed is a copy of the Well Drillers report for the existing well. The existing well apparently was drilled to a depth of 162 feet and produces 30 gallons per minute with a static water level of 144 feet. Based on the well log, I would expect the proposed well to have a surface seal somewhere between 35 and 50 feet and to seal off in the clay layer shown on the well log at 35 feet deep.

We propose using an 8" casing and providing welding torch perforations in the water bearing areas. I don't know that well screens and gravel packing are necessary or cost effective on the low yielding wells of the Garden Valley area.

I have instructed Mr. Severance to contact John Carlson at the Department of Water Resources regarding any requirements that they might have and to also complete and file an application for drilling the new well with the Department of Water Resources. After the Division of Environmental Quality has reviewed and approved the well site location and after we have the proper permits from the Department of Water Resources, Mr. Severance will contract with a well driller to construct the well under my supervision. When the well is completed, we will provide

RECEIVED
OCT 10 1996

the drillers well log, pump test results, take water samples for bacteriological testing and other tests as required and submit all of that information to DEQ. If the water quality proves acceptable, we will prepare plans and specifications for the pump house, the pump and related equipment and other information needed to connect the new well to the distribution system.

Enclosed are some photographs of the proposed site along with the Well Siting checklist.

Please call me if you need any additional information.

Sincerely,

ROYLANCE AND ASSOCIATES, P.A.

MEMORANDUM

TO: FILE 65-13030

FROM: JIM JOHNSON *J*

RE: ERROR ON PERMIT

DATE: September 12, 1989

Mr. and Mrs. Serverance came in today concerned about Condition No. 7 listed on the permit which limited the domestic use to six (6) units. They explained that they had intended to apply for the entire 57 lots listed in the Mountain View Subdivision. Upon inspection of the application for permit which Kay Walker had assisted in filling out I found that at the time of data entry of this application an misinterpretation of the information listed under item 8.d. resulted in the listing of only six domestic units. The permit should be amended to include the entire 57 lots.
