RE: LICENSE REVIEW

DATE: 16-JUN-1992

During review of this permit for licensing, I found that the field examiner had included a second point of diversion and source not found on the permit or original application. Research of the databases reveals that the Porters have filed an adjudication claim for irrigation purposes from the Payette River, Middle Fork on the same 2.2 acres, identified as Lot 34, Block 2, Middle Fork Meadows Subdivision, as this right. (A-65-29618)

For licensing recommendations of this right, only the single point of diversion and pump information from the identified source of Pyle Creek will be considered. The entire place of use can be reached from this p/d, so all irrigated acres found by the field examiner will be included.

A 3/4" line led away from the pump and split into two 3/4" lines. One line had a sprinkler head & the other had an open discharge. Pump #2 was located in Logg Creek. The pump had a 3 hp gas motor on it. A 1 1/2" line ran into Logg Creek, and a 3/4" discharge line led from the pump. Three 1/4" sprinkler heads were on the line. Each head had a

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

$$Q = 30 \times (1/4 \text{ in})^2 \times (30 \text{ psi})^5 \times 3 \text{ heads} = 3096 \text{ GPM} / 144.8 = .07 \text{ cfs}$$

2. Alternate Method for Checking Purposes:

$$\frac{1 \text{ hp} \times 8.8 \times .70}{(60 \text{ psi} \times 2.31) + 5'} = .04 \text{ cfs} + \frac{3 \text{ hp} \times 8.8 \times 60\%}{(60 \text{ psi} \times 2.31) + 5'} = .11 \text{ cfs} = .15 \text{ cfs}$$

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-13002

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 65-13002 PROOF DUE NOTICE

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.
