CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right will be regulated by the watermaster of State Water District No. 65.
6. The total combined rate of diversion under this right and Right 65-08016 shall not exceed 0.04 cfs nor a combined volume of 1.2 afa.

A 5 hp diesel pump is located on the bank of the Big Creek. A 2 1/2" plastic pipe extends into the creek and has 1 1/2" hoses discharging. One hose is a fire hose. The other discharge is a buried PVC pipe that delivers water to four faucets. A lawn and garden are watered from hoses that are attached to the faucets. A 6" well, which is the P/D for #65-8016, also supplies water to this system. Water from the well is used in two faucets, and it can also be connected to the faucets on this permit. (from the site)

RE: PERMIT NO. 65-12994

Dear Sirs:

I have obtained a mobile 5HP gas powered, 2" trash pump unit and built a platform close to our garden area and lawn. I have also made it possible to use the pump in several different locations along the Creek for fire protection.

Our needs do not exceed the 13,000 gal for domestic use per day that we have requested.

Our understanding is that the attached Proof of Beneficial Use form is all we need to do for you at this point. If that is not correct, please let us know.

Sincerely,

Thomas J. Plehal

RE: PERMIT NO. 65-12994

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

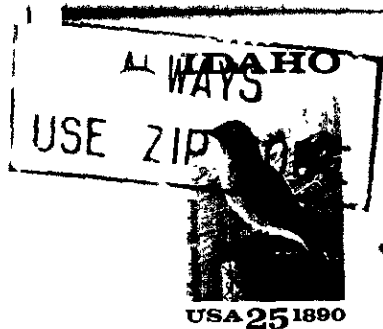

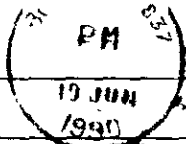

SINCERELY,

Rita Fleck

RE: PERMIT NO. 65-12994

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
