Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 65-12984

Priority: February 23, 1989 Maximum Diversion Rate: 0.20 CFS
Maximum Diversion Volume: 30.0 AF

This is to certify, that TERRACE LAKES RECREATION RANCH INC
HC 76 BOX 4201

GARDEN VALLEY ID 83622 has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated February 23, 1989; and
has submitted Proof of Beneficial Use on January 5, 1990. An examination indicates
that the works have a diversion capacity of 0.220 cfs of water from a GROUNDWATER
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
COMMERCIAL	01/01 to 12/31	0.20 CFS	30.0 AF

LOCATION OF POINT(S) OF DIVERSION: SENW , Sec. 34, Township 10N, Range 04E
BOISE County

PLACE OF USE: COMMERCIAL
TWN RGE SEC
10N 04E 34 SENW

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Commercial use is for 50 RV campsites.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 8TH
day of NOVEMBER, 1995.

Acting for  KARL J. DREHER, Director

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
5 gallon bucket						

2. Measurements:

5 gallon bucket at spigot in RV Park

5 gal / 27 sec = 11 gpm = 0.03 cfs

NOV 14 1995

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/u - Same QR, different area and use.

Well furnishes water to RV Park located on top of hill approximately 400' north of pump house. As per Bruce and Carl, 50 RV ^{sites} ~~units~~ or hookups are serviced by well. Well is approximately 50'-60' below level of RV Park.

Considerable leaking was ~~take~~ of pipes was visible during examination.

Water is pumped to a 15,000 gallon storage tank next to managers office

Since system is capable of producing the 0.20 cfs as requested on permit, and since the flow at an individual spigot of 0.03 cfs is as measured and allocated per Table 7, recommend licensing for 0.20 cfs for commercial use as requested on permit.

50 gpd/camper - $Q = 0.03$ cfs per hookup, same as measured flow.

$$Q = \frac{(8.8)(5)(7)}{(2.31 \times 40) + 50} \approx 0.22 \text{ cfs}$$

Note: Assumed 40 psi due to size of ~~pipe~~

Have conditions of permit approval been met? ☒ yes ☐ no

NOV 14 1995

Measured Method:

Additional Computation Sheets Attached

5 gallon bucket at spigot for RV site
 $Q = 5 \text{ gal} / 27 \text{ sec} = 11 \text{ gpm} = 0.03 \text{ cfs}$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9635 =$$

$$V_{DR} = \text{Smaller of } V_{IR} \text{ and } V_{DR} =$$

2. Volume Calculations for Other Uses:

$$V_{\text{Internal}} = 50 \times 0.6 = 30 \text{ AFA}$$

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-12984

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

Re: Permit No. 65-12984

Dear Sirs:

Returned is your copy of your proof of beneficial use form submitted to this office October 11, 1989, indicating the total rate of water use for which proof is submitted as .20 cfs. You indicate the extent of use is for commercial purposes.

When the total maximum rate of diversion is greater than 0.04 cfs, a license examination fee is required to be submitted with the proof. A license examination fee based on a rate of flow of .20 cfs. is \$50. Note the enclosed instruction sheet/fee schedule.

Upon receipt of the proof form and fee we will continue processing your proof by notifying the region that a field exam is needed.

If you have any questions concerning this matter, feel free to contact this office.

Sincerely,

NINA K. SHIELDS
CLERICAL ASSISTANT

RE: PERMIT NO. 65-12984

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue

MICROFILMED

JUN 14 1989

card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
