NOTES

- 1.) This Recorders plat and the Bureau of Land Management Section 13 are contingent upon acceptance of the Bureau of Land Management survey by the "Office of the Surveyor General, Washington D.C.."
- 2.) Property lines are to the centerline of adjacent private roads with rights of use to the public. No roadway may be closed or gated to prevent access to any lands, this is to allow emergency vehicles unrestricted passage.
- 3.) Due to dead conflicts, possession and apparent acceptance of property lines by contiguous property owners were held as paramount, where possession limits are found to be undefined by monumentation or to appear greatly in conflict with dead calls or apparent intent; said calls and apparent intent of past surveys, etc. were used to establish property lines.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 65-12973, and said application is hereby APPROVED.

1 Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before August 1, 19 90.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e Other: Use of water under this permit is subject to control by the watermaster of State Water District No. 65, Payette River.

A small diversion pond has been placed in the Sand Road Creek with a 2" line following the creek for approx. 100'. The 2" line reduces to a 1 1/2" line and extends another 150' to a valve. From the valve, a 1 1/2" line directs water to #65-12972 and two 3/4" lines direct water to the pits listed in this permit. A measurement was made on one of the 3/4" lines with a 5 gallon bucket.

The water is used in a lawn by means of hoses and

RE: PERMIT NO. 65-12973

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

INTER-DEPARTMENT MEMO — 1

DATE 6/21/1989

TO Kay Walker

Department of Water Resources

SUBJECT 65-12973 - Rate of flow for irrigation

As a general rule, there is a certain minimum practicable flow for any water use. For example, for the irrigation of a plot of land the irrigator needs enough water to operate a sprinkler system. At a rate of 0.03 cfs/acre, only 0.006 cfs would be needed to irrigate 0.2 acres of ground. However, 0.006 cfs would be only 2.7 gpm, too little to operate even 1 sprinkler. Based on the support of Admin Memo for new apps No. 17, I am inclined to allow 0.03 cfs for 1 acre or a portion of an acre, to allow for the installation of a workable system.

RE: APPLICATION FOR PERMIT NO. 65-12973

DATE: 24-MAY-1989

In reviewing this application, I can't figure out why this applicant needs 0.03 cfs for 2 tenths of an acre of irrigation. In order to approve this, we will have to have a justification sheet for the excessive amount. If the applicant does not provide justification we should probably reduce the amount filed on to 0.01 cfs. Thanks!!! Kay
