WATER RIGHT LICENSE

WATER RIGHT NO. 65-12962

Priority: November 9, 1988

Maximum Diversion Rate:

0.04 CFS

Maximum Diversion Volume:

1.2 AF

This is to certify, that SHILOH BIBLE CONFERENCE INC

C/O DALE B CARDWELL

416 E PARK

WEISER ID 83672

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated November 9, 1988; and has submitted Proof of Beneficial Use on April 4, 1990. An examination indicates that the works have a diversion capacity of .100 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
RECREATION	01/01 to 12/31	0.04 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION:

NWSW , Sec. 9, Township 16N, Range 03E
VALLEY County

PLACE OF USE: RECREATION

TWN RGE SEC

16N 03E 9 NWSW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Recreation use is for a campground and related facilities.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 24TH day of SEPTEMBER, 1993.

Acting for

R. Keith Higginson, Director

E. NARRATIVE/REMARKS/COMMENTS

Water from well, is pumped by 2 h.p. pump to Two main structures and Two Trailers. One building is the Kitchen/Dining building. This building consists of ^{Three} ~~Two~~ sinks, outdoor spigot (hot & cold), for washing dishes, ^{(2) washing machines,} and ice making machine. The second building consists of restrooms and laundry facilities: 10 showers, 8 stools, 8 sinks. NO outdoor watering takes place.

Service lines to the Kitchen/Dining Building and (2) Trailers are 1" PVC. Service line to Bath House is 1 1/4".

The camp is only in operation for 2-3 months, July-Sep. The flow determination of 0.02 cfs per fixtures is less than the request, but the capacity of the system is much greater than the request. Since (4) structures are serviced by this well, and since the capacity of the system is more than adequate, recommend Licensing for 0.04 cfs for recreation use as requested

Average of 90 people per day for 60 days of the year

Showers (10) - 90 x 50 gpd = 4500 gpd	} ≈ 5.91 gpm = 0.02 cfs
Drinking Fountain (1) - 50 gpd = 50 gpd	
Toilet (8) - 90 x 20 gpd = 1800 gpd	
Sinks (11) - 90 x 4 gpd = 360 gpd	
Washing Machine - 90 x 20 gpd = 1800 gpd	

$$Q(\text{Theoretical}) = \frac{(8.8)(0.7)(2)}{(2.31 \times 50) + 15} = 0.10 \text{ cfs}$$

PROOF DUE NOTICE

RE: PERMIT NO. 65-12962

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 65-12962

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

JUN 14 1989

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
