Application for Water Right (Deuel)
TITLE OF PUBLICATION

SPONSOR OR PLAINTIFF

Dept. of Water Resources
PLAINTIFF OR LEGAL AGENT

I, Dorothy Mason, being
duly sworn, deposes and says:

That she is the principal clerk of
THE INDEPENDENT-ENTERPRISE, a weekly newspaper published at
Payette, in the County of Payette and State of Idaho; that said paper
has been and is in general circulation in the county aforesaid, and in
the vicinity of Payette; that the advertisement, a copy of which is
attached hereto, was published in said newspaper once a week for
two consecutive weeks in the regular and entire issue of said
paper during the period and time of publication, and was published
in the newspaper proper and not a supplement; that said paper has
been established and regularly published for more than seventy-eight
consecutive weeks prior to the date of first publication of said adver-
tisement.

Such notice was published in the issue beginning with
Feb. 15, 19 89, and ending with the issue
of Feb. 22, 19 89.

Subscribed and sworn to before me this 23 day
of Feb., 19 89.

Marilyn J. Rhinehart
Notary Public, Residing at Payette, Idaho.

My Commission Expires 11-28, 19 92

WATER RIGHT LICENSE

WATER RIGHT NO. 65-12954

Priority: January 4, 1989

Maximum Diversion Rate: 0.04 CFS
Maximum Diversion Volume:¹ 1.2 AF

This is to certify, that FRANCES DEUEL
1415 1/2 7TH AVE.

PAYETTE, ID 83661 has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated January 4, 1989; and
has submitted Proof of Beneficial Use on June 15, 1989. An examination indicates
that the works have a diversion capacity of .040 cfs of water from a GROUNDWATER
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION: SESW , Sec. 27, Township 09N, Range 05W
PAYETTE County

PLACE OF USE: DOMESTIC
TWN RGE SEC

09N 05W 27 SESW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 27TH
day of FEBRUARY, 1991.

Acting for R. Keith Higginson, Director

RE: Water Right Permit 65-12954

Dear Water User:

Enclosed is a copy of approved water right permit 65-12954. You should have received a copy of this after it was approved on 5/30/89. Our records indicate that you filed the proof of beneficial use on 6/14/89. After receiving the proof of beneficial use, this office can conduct a field exam to verify the water use and issue a license. In this manner, your application evolves into an approved water right permit and then a water right license as dictated by Idaho statutes.

Due to the ongoing and massive Snake River Basin Adjudication, the number of new applications increased dramatically in the past few years. Unavoidable delays related to such increases occurred. However, water rights are not jeopardized by such delays. For example, your water right permit 65-12954 retains the original date of priority or seniority of 1/4/89 despite any delays that may have occurred. A proper application and fee was not received before that date; the date of priority is determined by the date on which the application and fee are received by this department.

An approved water right permit was issued to you on 5/30/89. The proof of beneficial use was filed by you and received at this office on 6/15/89. Recently, an examiner from this office visited the site and conducted the necessary field work to allow the permit to become a license. For single-family domestic wells such as yours, it is not necessary or efficient to schedule an appointment with the owner. The examiner only needs to verify the existence of the well and home. No problems were found during the exam. A license report will be forwarded to our State Office and a license will be issued. This process takes considerable time but does not jeopardize your right. The water right is still a valid permit until it is upgraded into a valid license. Do not be concerned by delays in the process.

If new wells are drilled in your area and adversely affect your well, the date of priority for your right is the key to protecting your well. Newer rights are not entitled to injure older rights. However, if injury or problems occur, the situation is a civil matter to be resolved between private parties. The department cannot enforce and protect your water right. We can act to inform and investigate but not to enforce such rights. To stay abreast of new water right applications in your area, consult the legal notices on Wednesday or Thursday in the local paper. According to Idaho statutes, public notice of water right applications occurs through the notices.

MAR 3

Frances C. Deuel, 7/27/90, pg. 2

In summary, permit 65-12954 is in process of becoming a license and is a valid right dating to 1/4/89. The protection of the right is a civil matter for the user as defined by Idaho law.

Please contact this office if additional information is needed.

Sincerely,

A handwritten signature in cursive script, appearing to read "Steve Lester".

Steve Lester
Sr. Water Resource Agent

Enclosure: Permit 65-12954

July 11, 1990

Dear Mr. Lester:

I am very frustrated primarily because of lack of communication from your office and my inability to understand this whole process of obtaining a water right. It will be two years in October when my well was installed by John Hoff (Dallas Drilling). His office offered to send in the necessary papers which were sent in immediately along with my check for \$35 (\$5 returned to me as overpayment). My first letter from you came 3 months later Jan 20th, 1989 stating you received the application Jan. 4th. and another letter from you stating my signed application was received in your office Jan. 26th. I know you had received my original application because you contacted John Hoff in Oct 1988 and his office immediately contacted me about a mistake that had been made by the county assessor on the legal description. The next letter from you was April 11th, 1989 stating I would be notified by mail as soon as a final decision was made. My last letter was Aug. 14th, 1989, almost a year ago, stating a field examiner would contact me to arrange for an examination of my well. No one has ever contacted

me. Recently the swimmer, Kelly Christensen, came when I was home. My daughter, who does not live here and knows nothing about the well, was here. He evidently inspected the well but I have no idea whether everything is o.k. I wanted to talk with someone about the possible proximity of neighboring wells that might be drilled in the very near future. I certainly am not able to keep up weekly with all the legal notices in the Enterprise & even if a neighbor did advertise an application I would not want to contest it if I couldn't be sure the new well would affect my water flow. The irrigation water in this particular spot is a big problem and all of my neighbors (who have recently bought adjoining property to mine) are updating their property and talking seriously about new wells as I stated before. A well has been drilled by hand (dry most of the year) very close to mine, and my neighbor speaks quite often about continuing the drilling in the same spot which is just across the fence from mine.

I feel I should receive some kind of legal document stating I have a water right. Next time my neighbor is on my area could he contact me before & arrange to talk with me about the problem of future wells.

Sincerely,
Franklin D. Smith

ACTION OF IDWR

(✓) Approved

() Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

Dated this 25 day of October, 1988.

RE: PERMIT NO. ~~P~~65-12954

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

JUN 14 1989

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Re: Application for Permit 65-12954

Dear Applicant:

In response to your letter of 4/8/89 concerning the above application for the well for domestic use, the application remains in the review process but is close to approval. As you mentioned, the application was advertised. No protests of the application were received. The Western Regional Manager will complete his review shortly and forward the application to the Department Director for a final decision. These remaining steps usually take several weeks.

You will be notified by mail as soon as the final decision is made on your application. The outcome appears favorable based on the current information in the file.

If you are concerned about future water development in your area, please be advised that all water right applications are advertised as yours was. This allows one to protest an application that one perceives as harmful. Application advertisements in your area occur in the Independence Enterprise on the first and third Thursdays of each month in the legal notices.

Sincerely,

Steve Lester
Sr. Water Resource Agent

65-12954

Dear Mr. Lester Department of Water Resources April 8, 1989
Western Regional Office

I applied for a water right in November but in January you wrote to say my application was received 1/4/89.

This really does not make any difference to me although I have wondered where my application and check were for two months. I did receive the \$5.00 refund promptly, and the notice was published at least twice in the Independent-Enterprise. Since then I have had no word from your office. Do you send me an official notice I can keep along with my deed? I can see such a document might be needed in the future. Also my two closest neighbors have their places for sale and the new owners may decide to put in wells as our local system is inadequate for the last few of us on the line. My nearest neighbor has a hand-drilled well that has been inoperable the last few years and

ORIGINAL

MICROFILMED

APR 11 1989

JUN 14 1989

is quite close to my well. She now has a buyer and is close to closing the sale. I'm sure the buyer will probably want to activate the well if possible. For this reason in particular I will feel much more secure if I know I have a water right although probably it would not affect the amount of water I will have.

Thank you so much for your past letters. I really appreciated them. I'm rather a positive and aggressive person, and I get upset when I don't know what's cooking. Water rights and resources are areas I know very little about, and I really know very little about office procedure so please bear with me.

Dear Mr. Lester,

I am sorry about the
mistake on my application.
Both Dallas Drilling and I
made many trips to the
assessor's office, and we had
great difficulty finding anyone
who could help us. Recently
I went in again & finally
found Mr. Art in (the
county assessor). The description
he gave me is the same as
the application you have sent
me. I did apply originally
November 4, 1988 to Dallas
Drilling. (My check is dated
then) so I have been really
upset because I hadn't heard
from you. I can't understand
why I have not heard from you
on the application. I received
with app. 1-4-89. I don't
believe Dallas would
hold it for 2 months. Please
~~either~~ change this notation
or at least check up on
the date. It might make some
difference in the future.

Re: Application for Permit 65-12954

Dear Francis:

Your application for the well and home with yard and garden was received on 1/4/89. The application showed domestic use and irrigation of one-half acre for a total water use of 0.06 cfs. Under Idaho statutes, single-family domestic use includes up to 0.04 cfs (18 gallons per minute) and up to one-half acre of irrigation.

The county Assessor's office informed me that your property falls in the SESW, S.27 instead of the NESW that was described on your original application. I was also told that the lot is 125' by 103', which is 0.3 acre. From this information I prepared a revised application for 0.04 cfs, domestic use, 1/1-12/31. This provides up to 13,000 gallons per day for one home and up to one-half acre of irrigation. A typical home and yard use about 1,000 gallons/day.

Please review the enclosed application. The \$30 fee was already paid; actually \$35 was submitted and a refund of \$5 is being prepared for you. If the application looks satisfactory, sign it at the bottom of the second page and return it to me as soon as possible. Please do not write on the application except for the signature. I will gladly provide additional help at your request.

Sincerely,

Steve Lester
