MEMO TO FILE:

From: Carolyn Andregg

During the spring and summer of 1992, drought conditions caused record low flows in the Snake River. Twice, the flow of the Snake River fell below 4,750 cfs, the minimum stream flow at the Weiser gauge. Notices were mailed to the water user listed under this right because the priority is later than July 1, 1976, in order to protect the Snake River minimum stream flow. The following is a chronological history of the mailings.

May 19, 1992: Letter sent to water right holder informing holder of possible temporary cessation of diversion rights and notice of public meetings.

June 8, 1992: Letter sent informing water right holder directing immediate cessation of diversion of water until further notice.

June 12, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

June 26, 1992: Letter sent to water right holder directing immediate cessation of diversion of water until further notice.

June 29, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

A 2hp pump was located on the north bank of the middle fork of the Payette River. A 10' long line with a pump. 50' of 1" LF diverted the water to the place of use. A 2" line across the southern end of the property was attached to the 2" discharge line. Six pieces for hose attachments were on the southern line. A sprinkler ran off of each hose. A 1 1/2" buried line cut north across the property, and had a hand pump attached. A 1 1/2" buried line ran across the north end of the property and had 3 underground sprinklers. 2 hoses attached.

PROOF DUE NOTICE

RE: PERMIT NO. 65-12940

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager
