WATER RIGHT LICENSE

WATER RIGHT NO. 65-12920

Priority: November 21, 1988

Maximum Diversion Rate:

0.03 CFS

Maximum Diversion Volume:

3.9 AF

This is to certify, that FIRST INTERSTATE BANK OF IDAHO

PO BOX 57

BOISE ID 837570550

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated November 21, 1988; and has submitted Proof of Beneficial Use on April 10, 1990. An examination indicates that the works have a diversion capacity of .030 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/15 to 10/15	0.03 CFS	3.9 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 2(NWNE), Sec. 1, Township 17N, Range 03E

Total number of acres irrigated: 1.3

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 3.0 afa per acre for the lands above.

PROOF DUE NOTICE

RE: PERMIT NO. 65-12920

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: Permit to appropriate water no. 65-12920 in the name of Joch Eberle

Dear Mr. Horras:

Thank you for your letter dated May 10, 1989.

I can understand that the water right process seems like a maze to one not well versed in the process. I am sure the same would be true for me in many banking transactions.

The law requires that proof of beneficial use be submitted to the department following approval of a permit. The permit grants until May 1, 1990 for submittal of the proof of beneficial use. If the beneficial use is complete, you may submit the proof of beneficial use form immediately. Please also check to insure that a fee is not required. Based on the permit, a diversion rate of 0.06 cfs would require a \$50.00 field examination fee. This fee must be paid at the time proof of beneficial use is submitted, or alternatively you can hire a certified field examiner to conduct the examination. I question whether hiring a certified field examiner would be financially advisable, however.

Sincerely,

Gary Spackman, Manager

Re: Permit to Appropriate Water #65-12920

Dear Mr. Spackman:

First Interstate Bank of Idaho, N.A., is trustee for Joch Eberle of McCall, Idaho, and as such is holder of Permit #65-12920.

On November 21, 1988, I spent several hours with Steve Lester at the Idaho Department of Water Resources completing what I believed to be the necessary paperwork to satisfy the water rights process. At that time, the Bank, as trustee, also paid the necessary fees for a well drilling permit and the water right application. The well had been placed into service in 1987 with my customer unaware of your department's various requirements.

At this time, I would appreciate a waiver of any other requirements mentioned in your letter of May 5, 1989 that have not already been fulfilled. I believe the time, effort, and money have already been extended in this case to adhere to the spirit of the water rights process.

Thank you for your consideration.

Sincerely,

PERMIT APPROVAL NOTICE

RE: PERMIT NO. ~~2~~65-12920

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also

ACTION OF IDWR

☒ Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

8. This does not constitute a right to use the groundwater for irrigation. That right will be contained in and when water right appl. 65-12920 is approved.

Dated this 21st day of November, 1988.
