The system consists of a 10' deep sump fed by a spring. Water is pumped approx 600' over a hill to one domestic use in a 1" buried line. There also exists two small ponds fed by two springs. Pond #1 receives water through a 1 1/4" PVC pipe approx. 750' long and is 50' x 60' x 8' deep. Pond #2 is 30' x 80' x 6' deep and is feed by runoff water. Pond #1 also receives water from a spring by a buried 1 1/4" line but the spring was dry at the time of exam. Pond #1 contained

about 1' of water at the time of exam and was heavily weeded. Pond #2 contained only a small amount of water and not yet filled for the first time according to the owner.

Per Gary Spackman change "Wildlife from Storage" to "Diversion to Storage". Flow from spring to Pond #1 measured .003 cfs. Owner does not intend to fill either pond but desires only to provide some water for wildlife.

Recommendation is to license domestic as requested at .02 cfs and Wildlife and diversion at flow rate of .003 cfs with limit set at .1 afa per permit amount.

Could go 2 ways on flow recommendation —

1. .03 Based on measured flow along (.02 one source, .01 another)
 with limitations →
2. .04 Based on measured flow, combined sources. (Domestic source measured .03, other measured .01, third dry)

I tend to think .04 due to:

1. Late in season & low flows
2. Third source with flow during wet years, adding to total

PROOF DUE NOTICE

RE: PERMIT NO. 65-12917

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
