G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation

$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 1 \times \frac{3.0}{3.5} = 3.5 \text{ AFA}$

$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .02 \times 184 \times 1.9835 = 7.3 \text{ AFF}$

$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 3.0 \text{ 3.5 AFA}$

2. Volume Calculations for Other Uses:

MAY 08 1991

Commercial use For Spray tanks on crop dusting plane.
 There are 2 tanks 1ea 1000gal and 1ea 300gal For
 a total capacity of 1300gal. Tanks are Filled a
 maximum of 5 times / year. $1300 \times 5 = 6500 \text{ gal/yr.}$
 $6500 \div 325,850 = .02 \text{ AFA}$

H. REMARKS AND OVERLAP REVIEW ANALYSIS

No overlap @ P/D

P/u overlap w/ domestic well (A65-17434) not generally used to irrigate but can be used to supplement irrigation from springs.

Note that the name Kayh on the permit should be spelled Kay

SL
1/29/91 - Estimated pond volume = 5000 gallons = .015 A.F.
 $.02 \times 1.9835 = .04 \text{ A.F.} / 24 \text{ hr.}$ so don't need storage component in this water right.
 No evidence of watermaster control method; not a problem unless district raises this issue?

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-12909

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 65-12909

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
