State of Idaho
Department of Water Resources

WATER RIGHT LICENSE
WATER RIGHT NO. 65-12856

Priority: July 29, 1988

Maximum Diversion Rate: 0.07 CFS
Maximum Diversion Volume: 50.6 AF

This is to certify, that A W EFFINGER JR
PO BOX 1457

MC CALL ID 83638 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 29, 1988; and has submitted Proof of Beneficial Use on January 9, 1990. An examination indicates that the works have a diversion capacity of .070 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF
RECREATION	01/01 to 12/31	0.07 CFS	50.6 AF
RECREATION STORAGE	01/01 to 12/31		2.2 AF
	Totals	0.07 CFS	50.6 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 7(NWSWSW), Sec. 6, Township 18N, Range 03E
VALLEY County

PLACE OF USE: DOMESTIC
TWN RGE SEC

18N 03E 6 Lot 7(SWSW)

PLACE OF USE: RECREATION, same as DOMESTIC use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.

APPLICATION FOR PERMIT

Ident No. 65-12856

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant A. W. EFFINGER, JR Phone 208/634-8216
Post office address Box 1457 McCall, ID 83638
2. Source of water supply WELL (Groundwater) which is a tributary of _____
3. Location of point of diversion is NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of SW $\frac{1}{4}$, Govt. Lot 7
Sec 6 Township 18N Range 3E B.M. VALLEY County; additional
points of diversion if any: _____
4. Water will be used for the following purposes:
Amount 0.04 cfs for Domestic purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount 2.2 AF for Recreation Storage purposes from 1/1 to 12/31 (both dates inclusive)
(acre-feet per annum)
Amount 0.22 cfs for Recreation purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
- 5 Total quantity to be appropriated is (a) 0.26 cubic feet per second and/or (b) 2.2 acre feet per annum
6. Proposed diverting works:
 - a Description of ditches, flumes, pumps, headgates, etc. Well, pump, flow into pond
and into household.
 - b. Height of storage dam 3 feet; active reservoir capacity 2.2 acre-feet; total
reservoir capacity 2.2 acre-feet, period of year when water will be diverted to storage
1/1 to 12/31 inclusive.
 - c. Proposed well diameter is 6 inches; proposed depth of well is 160 feet
 - d. Is ground water with a temperature of greater than 90°F being sought? No
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
1 years (minimum 1 year).

DEC 09 1988

Total number of acres to be irrigated.

[illegible]

ponding place of use below. See instructions for standard symbols.

Publication approved by YR Date 8/29/88

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 65-12856 and said application is hereby APPROVED.
1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 19 89.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
e. Other. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

Witness my hand this 29th day of November, 1988.

A. Allen Saylor

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
5 gallon bucket						

2. Measurements:

5 gal / 10 sec = 30 gpm ≈ 0.07 cfs

OCT 22 1993

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/D Same QQ, Different Source.

P/U Same QQ, Same use in regards to ponds.

Middle and Lower Ponds are filled from unnamed stream or runoff. When the stream flow is non-existent, or too low to fill ponds, well water is used. According to Duke Effinger, it takes (4) hours of pumping a day to keep the ponds full. This usually occurs in late July and ~~on through~~ or August under normal water year.

The flow from spigot was 0.07 cfs, which is greater than the requested flow of 0.04 cfs. Recommend Licensing for 0.04 cfs as requested on permit.

The TOTAL volume of storage is ~~is~~ ^{approx} for the middle and main ponds is approximately 2.5 AFA. Requested storage was 2.2 AFA. Recommend Licensing for 2.2 AFA as requested on permit.

Theoretical flow from well to pond was 0.2 cfs. Since no actual measurement was attainable, recommend Licensing for 0.22 cfs as requested per permit.

$$\text{Middle Pond} - SA = \frac{40' \times 30'}{43,560 \text{ FT}^2/\text{AC}} = 0.03 \text{ AC}$$

$$\text{Capacity} = 0.03 \text{ ac} \times 9 \text{ FT} \times 0.4 = 0.11 \text{ AFA}$$

$$\text{Main Pond} - SA = \frac{300' \times 60'}{43,560 \text{ FT}^2} = 0.41 \text{ AC}$$

$$\text{Capacity} = 0.41 \text{ ac} \times 15 \text{ FT} \times 0.4 = 2.46 \text{ AFA}$$

Have conditions of permit approval been met? ☒ yes ☐ no

Theoretical Flow from well into pond:

$$Q = \frac{(8.8)(3)(0.7)}{(100+60) \times 2.31} \approx \frac{0.05}{0.22} \text{ cfs} ?$$

main Pond only used to raise rainbow trout (Recreation & Education Storage)

OCT 22 1993

NOTE: Dynamic level estimated from static level (90')

F. FLOW CALCULATIONS

Measured Method:

5 gal bucket

30 gpm $\approx$ 0.07 cfs (measured)

$$Q = (8.8)(3)(0.7) \approx \frac{180 \times 2.31}{0.05} \approx 0.05 \text{ cfs (Theoretical)?}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{ir} = (\text{Acres Irrigated} \times (\text{Irrigation Requirement})) = \frac{V_{dr} = (\text{Diversion Rate (cfs)} \times (\text{Days in Irrigation Season})) \times 1.9835 = V = \text{Smaller of } V_{ir} \text{ and } V_{dr} =$$

2. Volume Calculations for Other Uses:

$$V_{(intake)} = 0.6 \text{ AFA}$$

$$V_{(exterior)} = 2.5 \text{ AFA}$$

(pounds) $\approx$ 2.5 AFA (Calculation in narrative)

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	From	To	Period of Use	Rate of Diversion Q (cfs)	Annual Volume V (ata)
Domestic	1/1	12/31		0.04	0.6
Recreation Storage	1/1	12/31		0.22	2.2
Recreation	1/1	12/31		0.22	
Totals:				0.26	2.8

2. Recommended Amendments

ACTION OF IDWR

() Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

Dated this _____ day of _____, 19 _____

Re: Permit No. 65-12856

Dear Mr. Menasco:

As per our telephone conversation on December 20, 1991, I mailed some drilling permits and instructions to you. You indicated at that time that you would complete a permit for Mr. Effinger, attach the necessary fee and mail to me as soon as possible.

As of this date, I have not received the above mentioned paperwork. I am requesting once again that you submit the drilling permit and applicable fee of \$100. Until this is done, I cannot proceed with the licensing process on Mr. Effinger's water right permit. Please respond within 15 days of the date of this mailing.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

Re: Permit No. 65-12856

Dear Permit Holder:

The department reviewed the proof of beneficial use which you submitted in connection with the above referenced permit. A review of the file shows that you did not apply for a drilling permit. The drilling permit is a separate requirement from the water right permit.

A drilling permit is required for all wells drilled, deepened or enlarged after July 1, 1987 (Section 42-235, Idaho Code). Please submit a completed drilling permit form together with a drilling permit fee in the amount of \$100 made payable to the Idaho Department of Water Resources. I have enclosed a form and instruction sheet for your use.

In order to protect your water right, you should provide the appropriate information within 30 days of the date of this mailing.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen Gustafson
Karen L. Gustafson

Dear Mr. Effinger:

Re: Permit Nos. 65-12856 and 65-12857

The department received the proof of beneficial use form for Permit No. 65-12856, which is the permit using groundwater (well) as the source. Can you tell me when the well was drilled and who the well driller was?

You also have a permit for the diversion of water from an unnamed stream to be used storage for recreation. This permit is identified as Permit No. 65-12857.

On October 23, 1990, you sent a letter in answer to a letter notifying of an approval of an extension of time. With the letter you sent, a copy of a proof of beneficial use form and a cancelled check (see enclosed copies). Note that the enclosed documents refer to Permit No. 65-12856 not 65-12857.

Approximately September 1, you will again receive a certified notice advising you that proof of beneficial use is due for Permit No. 65-12857 (unnamed stream) since you were granted an extension of time for one year.

Please advise me of the date and the name of the well driller and if you have questions concerning these permit, contact me.

Sincerely,

Rita I. Fleck

RE: Permit No. 65-12857

Dear Ms. Fleck:

Re your letter of Oct., 16, there seems to be an ongoing problem of my forms not reaching your desk.

On May 31, 1990, a "Proof of Beneficial Use" together with my check in the amount of \$100.00 was forwarded to the Department of Water Resources. Copies of the form and the canceled check are enclosed.

It's my understanding that this was advice to you that all work on the project (Lake) had been completed and additional paperwork not required.

Please let me know if I've erred and should you require anything additional, please advise, or call me at 634-8216 in McCall.

Cordially,

A. W. Effinger, Jr.

Dear Mr. Effinger:

Re: Permit No. 65-12856

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to December 1, 1990.

Note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions concerning these permits, please feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 65-12856

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 65-12856

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also
