PICTURE # 1

This picture shows the submersible pump inside an old water heater tank which has many small holes drilled through it. The tank acts as a sand filter. The picture is looking south southwest.

PICTURE # 2

This picture was taken from the south edge of the P/U and shows the mainline coming up from the pump. Note the large island in the river for P/D location on the ortho photo.

PICTURE # 3

This picture set was taken from the southwest corner of the P/U and covers the majority of the P/U. The left section is looking north and the right side is looking east. The foreground has been farmed and irrigated but has not been planted into trees yet. This area has been included as a part of the P/U. The P/D location is just outside the picture area to the left (south).

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of
Idaho No 65-12847 , and said application is hereby APPROVED

1 Approval of said application is subject to the following limitations and conditions

- a. SUBJECT TO ALL PRIOR WATER RIGHTS
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before
September 1 , 19 89
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit
- e. Other: The issuance of this permit in no way grants any right-of-way or easement across the land of another.
Use of water under this permit is subject to control by the watermaster of State Water District No. 65, Payette River.

MEMO TO FILE:

From: Carolyn Andregg

During the spring and summer of 1992, drought conditions caused record low flows in the Snake River. Twice, the flow of the Snake River fell below 4,750 cfs, the minimum stream flow at the Weiser gauge. Notices were mailed to the water user listed under this right because the priority is later than July 1, 1976, in order to protect the Snake River minimum stream flow. The following is a chronological history of the mailings.

May 19, 1992: Letter sent to water right holder informing holder of possible temporary cessation of diversion rights and notice of public meetings.

June 8, 1992: Letter sent informing water right holder directing immediate cessation of diversion of water until further notice.

June 12, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

June 26, 1992: Letter sent to water right holder directing immediate cessation of diversion of water until further notice.

June 29, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

 JUL 30 1992

PICTURE # 1

This picture shows the submersible pump inside an old water heater tank which has many small holes drilled through it. The tank acts as a sand filter. The picture is looking south southwest.

PICTURE # 2

This picture was taken from the south edge of the P/U and shows the mainline coming up from the pump. Note the large island in the river for P/D location on the ortho photo.

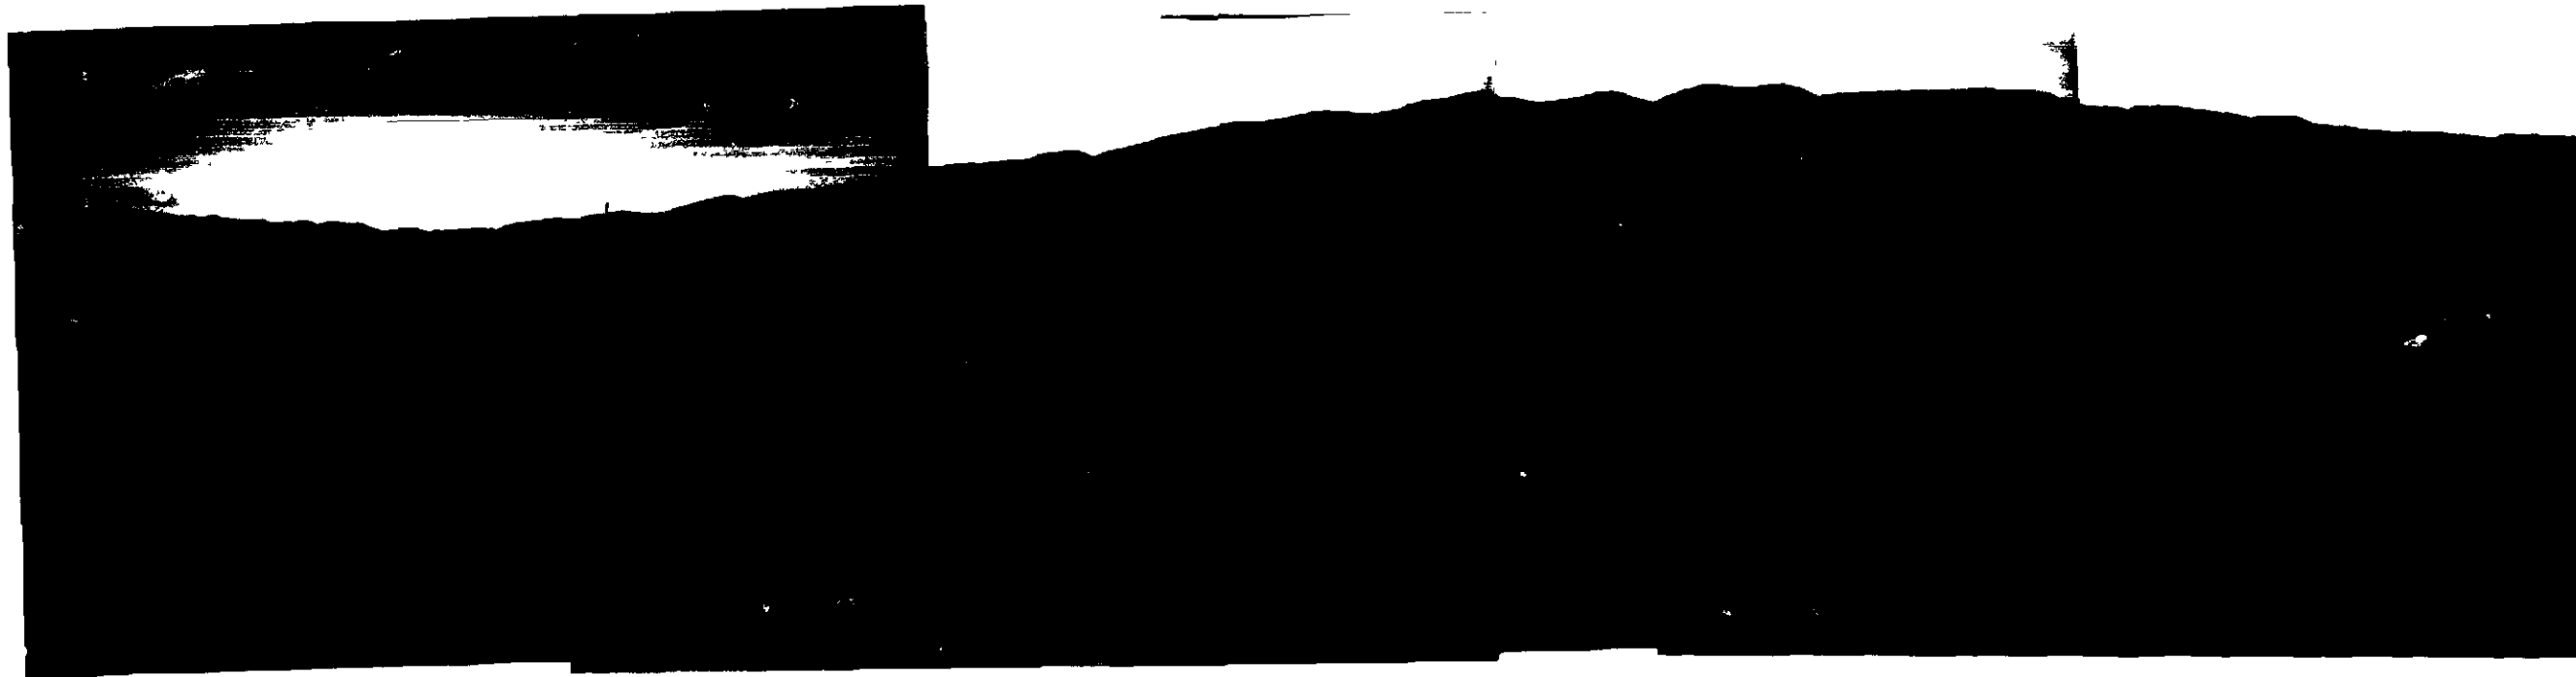

JUL 30 1992

PICTURE #3

This picture set was taken from the southwest corner of the P/U and covers the majority of the P/U. The left section is looking north and the right side is looking east. The foreground has been farmed and irrigated but has not been planted into trees yet. This area has been included as a part of the P/U. The P/D location is just outside the picture area to the left (south).

PROOF DUE NOTICE

RE: PERMIT NO. 65-12847

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager
