3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

The owner has placed approx 1000' of 4" perforated pipe, and gravel, into his field to collect seepage from springs. Although he wasn't positively sure of the pipes' locations, it appears that he is diverting mainly from 17N 1E S5 NW/SE/NE and partly from both SE/SE/NE and NE/SE/NE. The perf. line is connected to a 4" pvc line which runs into a valve system. A 5" line from the spring in permit # 65-0389 joins the 4" line at the valves, and from there a 5" line extends south-east to the place of use. Four handlines are located

Dear Mr. Eldridge:

Re: Permit No. 65-12836

The department received the proof of beneficial use form and the application for amendment. Enclosed is a copy of the approved application for amendment.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use. I cannot tell just when the representative from our Western Regional office will conduct the exam, but he will try to contact you or your representative prior to being in the area.

If you have questions regarding the field inspection, contact the regional office at 334-2190.

RE: Application for Amendment of Permit: Possible Enlargement
Question and Protest of Application to Appropriate Water No.
65-13062 in the Name of James & Anita Biggers

The application for amendment of permit filed by Mr. James Eldridge, proposes the addition of springs located in a different ten acre tract than was identified as the original point of diversion. A question has arisen about whether this proposal results in an enlargement, and whether, by applying for the amendment, that Mr. Eldridge is attempting to improve his position in the protest of application no. 65-13062 by tying up springs that were not identified in the original application.

I spoke to Dave Tuthill on December 5, 1989, and asked about the status of application no. 65-13062. He stated that Eldridge and the Biggers had reached an agreement at the time a conference was held regarding application no. 65-13062. The Biggers agreed to change the source from springs to ground water if Mr. Eldridge would withdraw his protest. In return, Mr. Eldridge stated that he would file an amendment of permit with the Department of Water Resources, and the Biggers consented to the filing of the amendment adding springs in the additional ten acre tract.

I propose that this amendment be approved, and that it not be viewed as an enlargement. I also propose that the permit not lose its original date of priority as a result of the amendment.

Re: James Eldridge - Application for Amendment of a Permit
Application for Permit No. 65-12836

Dear Mr. Tuthill:

Enclosed is Application for Amendment of a Permit signed by James Eldridge on October 13, 1989. The only amendment of the Application for Permit appears at par. 1 where Mr. Eldridge has replaced "NW $\frac{1}{4}$ " with "W $\frac{1}{2}$ ".

The amendment is the result of our conference with Mrs. Biggers and you on October 6, 1989 when you informed Mr. Eldridge that approximately 10 acres, six of which are owned by Mr. Eldridge, were not included in the description in the Application for Permit. The amendment is to include that additional point of diversion of the springs as Mr. Eldridge had originally intended to do in his application.

Please notify me if the application for amendment of a permit is not in satisfactory form. We understand that the amendment is retroactive to the date the application for permit was approved.

Yours very truly,

RE: Permit No. 65-12836 & Application for Permit No. 65-13062

James Eldridge
Box 261
Emmett, ID 83617

Dear Mr. Eldridge:

Pursuant to your telephone conversation with Jeff Peppersack of our Adjudication Bureau, we offer the following.

Your permit, No. 65-12836, is in good standing at this time. In order to keep this permit in good standing, you need to commence with the construction of your diverting works as stated in the conditions of approval on your permit. If the outcome of protested Application No. 65-13062 is hindering your development progress, you should submit a written request to the Department asking for additional time to commence with development. In your request be sure to list all of your concerns that have kept you from constructing your water system. We do not have a form available for this purpose. You may also want to list all the work you have done to commence with your development, such as any cost associated with the purchase of pipeline and sprinklers &/or the amount of time spent clearing the area around the springs.

In regard to the protest you filed against Application 65-13062 in the names of James & Anita Biggers, our regional office is preparing to hold a conference on that matter. The date that has been tentatively set by that office is Sept. 25. The region will be sending you a notice of that conference.

If we can be of further service to you, please feel free to contact our office or our Western Regional Office on Airport Way.

Sincerely,

KAY WALKER

James Eldridge called 9/5/89 to inquire about status of water right filings.

Mr. Eldridge filed application for permit (#65-12836) on 4/22/88 to appropriate water from springs on his property. Apparently, proof of commencement of construction is due in December of 1989. Mr. Eldridge has not started construction because he is waiting to hear the outcome of a protest filed by himself protesting an application for permit filed by Anita R. Biggers (#65-13062) on 6/12/89.

Mr. Eldridge has 2 requests:

- ① to have somebody notify him of the status of his protest
- ② to have somebody send him an extension form to extend his deadline for proof of commencement of construction

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-12836

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.
