WASTE
DITCH

(SYSTEM SOURCE)

PICTURE # 1

This picture is of pond # 1 and is looking southeast toward the supply ditch. Pictured is a part of a nesting island constructed within this pond.

PICTURE # 2

This picture is looking southeast and shows a portion of pond # 2.

MICROFILMED
DEC 09 1992

PICTURE # 3

This picture is also of pond # 2 and shows more of this pond. Note the two trees coming from the same base (extreme right side.) This is the same tree pictured in photo # 7 which shows the supply ditch coming from pond # 1. This picture is looking south west.

PICTURE # 4

This picture is looking southwest across pond # 3. The pond width is fairly constant for the entire length of the pond.

RECEIVED
DEC 09 1992

PICTURE # 5

This picture shows the outlet structure that leads from pond # 2 back to the river. This picture is looking northeast across the end of pond # 2.

PICTURE # 6

This picture shows pond # 4. This pond was formerly a gravel pit. More gravel is available for removal which if this happens will enlarge this pond. The photo is looking southeast.

MICROFILMED
DEC 09 1992

PICTURE # 7

This picture shows the supply ditch just before it reaches pond # 2. Note the trees centered in this photo. They are also captured and referenced in photo # 3. This picture is looking south.

To appropriate the public waters of the State of Idaho

1. Name of applicant Idaho Department of Fish & Game Phone 334-3730
Post office address P. O. Box 25
2. Source of water supply springs & wastewater which is a tributary of Payette River
3. Location of point of diversion is See Item No. 9 and map for diversion points.
1/4 of 20% of 1/4, Govt. Lot
Sec S 27 & 34 Township 8 N. Range 4 W B.M. Payette County; additional
points of diversion if any: Point of Diversion description is the same as the place of
use description. BD 3/29/88
4. Water will be used for the following purposes:
Storage for
Amount 62.4 for wildlife purposes from 1-1 to 12-31 (both dates inclusive)
(~~acre~~ acre-feet per annum)
Amount *62.4 for Wildlife from Storage purposes from 1/1 to 12/31 (both dates inclusive)
(~~acre~~ acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated is (a) _____ and/or (b) 62.4
cubic feet per second acre feet per annum
6. Proposed diverting works:
 - a. Description of ditches, flumes, pumps, headgates, etc There are seven major ponds that
have been built. Pond numbers 1, 2 & 3 were built by low dams across
a drain ditch. The remaining ponds developed by digging and removing
gravel. See 13 for size.
 - b. Height of storage dam _____ feet, active reservoir capacity 62.5 62.4* acre-feet; total
reservoir capacity 62.5 62.4* acre-feet; period of year when water will be diverted to storage:
1-1 to 12-31 inclusive.
 - c. Proposed well diameter is N/A inches; proposed depth of well is _____ feet.
 - d. Is ground water with a temperature of greater than 90°F being sought? no
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
1 years (minimum 1 year).

* per conversation with Lee Van De Bogart, Id. F+G., 3/29/88, BD

8 Description of proposed uses (if irrigation only, go to item 9).

- Hydropower, show total feet of head and proposed capacity in KW _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; show name of municipality. _____
- Domestic; show number of households. _____
- Other; describe fully. The ponds are used to supply nesting and rearing areas for wildlife.

9 Description of place of use: & Point of Diversion

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No 65-12828, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 19 89

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Use of water under this permit is subject to control by the watermaster of State Water District No. 65, Payette River.

Witness my hand this 24th day of May, 1988.

Director

Boise, ID 83707

Dear Mr. Van De Bogart:

Re: Permit No. 65-12828

On May 24, 1989, the department received the proof of beneficial use form for the second time along with the \$100 licensing exam fee on the above-referenced permit. The proof of beneficial use form is in good order, however, no licensing exam fee is necessary.

The department considers wildlife the same as a stock water use and since the rules and regulations state no fee is necessary for stock water uses, no matter the rate or volume use, no fee is required for wildlife use.

I've initiated the paperwork for a refund of \$100 and apologize for not recognizing this fee as being unnecessary the first time the proof was received.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

Dear Mr. Bogart:

Re: Proof of Beneficial Use form

On May 12, 1989, the department received five proof of beneficial use forms for Permit Nos. 65-12817, 51-7299, 65-12819 and two for 65-12828 along with two checks (92-1/1241) in the amount of \$100 each.

The proofs submitted for the first three permit are acceptable. However, for Permit No. 65-12828, since there are two forms along with two checks (Nos. 152342 and 152343), I will return these for you to correct and re-submit.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 65-12828

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

MEMORANDUM

To: File 65-12828
From: L. Glen Saxton *lgs*
RE: 65-12828 - DISCUSSION WITH THE APPLICANT
Date: May 19, 1988

On this date, I called Lee Van De Bogart, Fish and Game to discuss in further detail the project proposed under the application. The discussion was primarily for the purpose of determining whether the ponds and dikes proposed on the drains would have a detrimental effect on the original purpose of the drains.

Lee advised me that the drains originate from the sewer treatment facility of the city of New Plymouth. The drains are approximately 5 feet wide and are about one (1) foot deep. The drains were not constructed for the purpose of draining irrigated agricultural land.

The most southern pond (1) was constructed in the early 1970's. Ponds 4, 5, 6 and 7 are essentially small excavated gravel pits to which no water is directly diverted. These pits are almost at river level and fill up due to the elevation of the watertable. Ponds 2 and 3 are newly constructed and back water only onto land owned by Fish and Game. Typical water depth in any of the ponds is less than 3 feet deep.

Since detrimental effects upon the functioning of the drain system or upon other users does not appear to be likely, I recommend approval of the application.

Dear Mr. Van De Bogart:

We recently received a water right application for permit from your office to appropriate water in the New Plymouth area. There are, however, several problems which must be resolved before we can process this application. I am returning this application so that corrections can be made.

Based upon the map provided with the application, the places of use described are incomplete. In addition to the 40 acre tracts indicated, the southern portion of Pond #1 is located within the SENW Sec. 34.

The points of diversion described in the application also appear to be incorrect. The points of diversion are listed as the SWNW and SENW of Sec. 34, yet no P.D's are indicated in this area on the map. Since each pond can be considered a point of diversion, I suggest that the point of diversion description for this application be the same as the place of use description.

The last problem involves a possible discrepancy in the amount of water; 62.4 afa is applied for, yet the total reservoir capacity is indicated as 62.5 a-f. Generally, these two volumes are equal in water right applications.

Please feel free to contact this office if you have any questions.

Sincerely,

Brad E. Dingee
Sr. Water Resource Agent
