TO: File 65-12818
FROM: Sharla
DATE: June 11, 1992
RE: Change in Nature of Use

Being very familiar with the area involved under this right, I recommended a change in nature of use at the time of licensing. The wells and place of use are located outside the city limits and are in no way connected to the city's municipal water system. Water is used for sewage treatment; therefore, I recommended the use as industrial.

After sending the pre-license correspondence, Jack Dodson (Public Works Director) called for clarification as to why the use had been changed. I explained the reason as above. He confirmed that the wells were not hooked to the city's municipal system and agreed that the change was logical.

The place of use described is the locations of the sewage disposal ponds.

Drilling Permits 65-88-Z-017 & 018 for wells. No well logs found at Regional office.

Although the wells are primarily used for lab & waste treatment ponds, they also serve as back up wells for municipal system. Therefore, retain municipal as nature of use.

Storage is not an issue (sewage ponds) since a number of wells & other water are involved with city's sewage treatment. ~~Also, separate treatment ponds~~ "Storage" could be considered detail of any combination of these rights.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 65-12818

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

YOU SHOULD BE AWARE THAT THE GROUNDWATER YOU PROPOSE TO DIVERT IS LOCATED WITHIN A DRAINAGE BASIN WHERE SURFACE WATERS ARE REGULATED DURING THE MONTHS OF LOW FLOW. IT IS POSSIBLE THAT DIVERSION OF GROUNDWATER MAY HAVE AN ADVERSE IMPACT ON THESE SURFACE WATER FLOWS. INFORMATION AVAILABLE TO US AT THIS TIME DOES NOT WARRANT REFUSING TO ISSUE PERMITS IN YOUR AREA, BUT WE DO CAUTION THAT DIVERSIONS OF GROUNDWATER ARE NOT ALLOWED TO DEplete FLOWS AVAILABLE FOR SURFACE WATER USERS WITH EARLIER PRIORITY DATES. SITING YOUR WELL AS FAR FROM SURFACE SOURCES AS POSSIBLE AND CASING OUT UPPER WATER PRODUCING ZONES MAY REDUCE THE POTENTIAL OF INTERFERENCE.

SECTION 42-235, IDAHO CODE, REQUIRES THAT A "DRILLING PERMIT" MUST BE OBTAINED FROM THE DEPARTMENT FOR ALL WELLS CONSTRUCTED AFTER JULY 1, 1987. A DRILLING PERMIT IS A SEPARATE PERMIT THAT MUST BE ISSUED IN ADDITION TO YOUR PERMIT TO APPROPRIATE WATER. COMMENCEMENT OF WELL CONSTRUCTION OR DIVERSION OF WATER UNDER YOUR PERMIT TO APPROPRIATE WATER IS PROHIBITED UNLESS A DRILLING PERMIT IS OBTAINED.

WE HAVE ENCLOSED A FORM ENTITLED "INSTRUCTIONS FOR PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT. ALSO ENCLOSED FOR YOUR CONVENIENCE IS THE STATEMENT OF BENEFICIAL USE FORM THAT MUST BE SUBMITTED WHEN YOUR PROJECT IS COMPLETED.

Re: Affidavits of Publication

Dear Mr. Crawford:

The purpose of this letter is to request your assistance in resolution of a problem regarding timely submittal of affidavits of publication. We request that the Messenger-Index investigate implementation of a procedure to more quickly remit affidavits of publication to this agency.

In Idaho, the only way to obtain a new water right is for a water user to file an Application for Permit, pursuant to Chapter 2, Title 42, Idaho Code. For applications with point of diversion in Gem County, this office submits to your newspaper a request for publication of a legal notice. After the legal notice is published, we can take no further action until we receive proof of the publication in the form of an affidavit. If this affidavit is submitted in a timely manner, we are able to process an application for a new water right in six to eight weeks.

We have been having a continuing problem with receiving affidavits of publications from your newspaper in a timely manner. For example, a notice of Amended Application for Permit was published for application for No. 65-12810 on December 3 and 10, 1987. We telephoned the newspaper on January 12, 1988, and on February 2, 1988, requesting the affidavit of publication, and it has still not been received by this office.

Application No. 65-12818 was published on January 7 and January 14, 1988. For this application we have received a billing but no affidavit of publication. Application for Amendment of permit No. 65-12540 was published on November 5 and November 12, 1987, and no affidavit of publication has yet been received.

This importance of this matter is that people living in Gem County that desire to attain water rights are hindered up by this step of the process. As we enter into this apparent drought year, it is very important that we expedite all steps of the mandatory legal process for developing water rights. We ask your assistance in speeding up this portion of the process.

OCT 12 1988

Emmett Messenger-Index, page 2

If there is anything this office can do to assist your newspaper in this process, please advise. Thank you for your consideration of this matter.

Sincerely,

David R. Tuthill Jr.

Re: Application for Permit No. 65-12818

Dear Water Right Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification no 65-12818. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Emmett Messenger Index on 1/7 & 1/14/88. The advertising will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. Processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt no. 46044 for the amount of \$30.00.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Erwin E Ballou

Dear Mr. Dahl:

We have received the two well drilling permits along with the \$30 fee for the City of Emmett's application for water right permit.

However, there is also a fee for filing well drilling permits. This fee went into effect, along with the requirement for well drilling permits, on July 1, 1987. The fee for a single family domestic well is \$10, but for any well drilled for other uses the fee is \$100. Therefore, for both well drilling permits the fee will be \$200. I am returning the well drilling permits to you to be returned with the above fee. These well drilling permits can be approved the day they are submitted, however, no water can be diverted until the application for permit for the water rights is approved. The well drilling permits are required to begin drilling the wells. The water right application is now ready to be advertised the first week of January in the Emmett Messenger-Index.

If you have any questions concerning this letter, please feel free to contact us.

Marilyn Lorenzen, Mayor

Dear Ms. Lorenzen:

We have received the application for permit for a well to be drilled for municipal purposes. However, there is a fee required on applications for permit before processing can begin. This fee is based on the amount of water being filed on under Item No. 4. Therefore, the fee for .10 cfs of water is \$30 (see fee sheet enclosed).

One more requirement that must be met concerns obtaining a well drilling permit prior to drilling either of these wells. These permits are not required until after the water right application is approved, and do not need to be submitted before approval of the application. Enclosed are two well drilling applications which must be submitted and approved prior to the well drilling. The well driller must have a copy of an approved well drilling permit at the drilling site while drilling the well.

Please submit the above fee in order for this water right application to be processed. If you have any questions concerning this letter, feel free to contact us.
