Water is collected through a 10" diameter steel pipe in a collection pit 22' deep. The water level is approximately 2' from the top of the pipe. The water is removed manually and placed in a 5 gallon bucket, and taken to home near river. The water is only used for drinking purposes. A well furnishes water for irrigation, showers, etc., for cabin.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

OVERLAPS - P/U - Same QD, different source and use.

The spring is used for drinking water only, while well water is used for bathing, dishwashing, etc. Since no measurement was attainable, and the use is for drinking only, recommend licensing for 0.02 CFS, not 0.04 CFS as requested on permit.

Also, since the place of use is the cabin, the legal description for P/U needs to also include SE of the NE, Section 34, T. 10N, R. 4E.

PROOF DUE NOTICE

RE: PERMIT NO. 65-12797

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1989. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

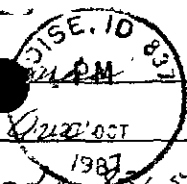

Rita Fleck
Secretary/Records Manager
