E. NARRATIVE/REMARKS/COMMENTS

A spring tributary to an unnamed stream tributary to the Payette R, S Fork is diverted via collection box and 1.5" buried pipe. The drop from the P/D to the P/U is $\sim 150'$. At a level spot $\sim$ halfway between the P/D and the P/U, a purge valve was installed to release air from the system. The water is used to irrigate ~ 1.8 acres along with decree 65-02629 diverted directly from the Payette R, S Fork. Decree 65-10779 is for a different spring used for domestic use only. No other rights are used.

~~Use of this right with right 65-02629 is limited to .02 cfs per acre.~~

(Applicant stated the flow rate is usually 10-15 GPM, dry or wet seasons, which is consistent with the field exam findings.)

Source change from Unnamed Stream to Spring is a clarification of original intent of Application - Spring located next to unnamed stream. No Amendment required.

Gentlemen:

When you were in my office Tuesday, I omitted having you complete the enclosed Affidavit for Water Rights to be Used for Power Purposes. All applicants filing for power purposes must complete this form.

The main purpose of this form is to make sure that you are a resident of Idaho and not an out-of-state corporation or individual trying to file on power and transporting it out of state.

Please complete the asterisked portion of this form, have your signature notarized, and return the form to us. As soon as it is received, processing will continue. This will not cause any change in the date filed on your application.

If you have any questions, please do not hesitate to contact me.

Sincerely,

JAN GROVER
