ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of
Idaho No 65-12751 , and said application is hereby APPROVED

1 Approval of said application is subject to the following limitations and conditions

a SUBJECT TO ALL PRIOR WATER RIGHTS

b Proof of construction of works and application of water to beneficial use shall be submitted on or before
January 1 , 19 87

c The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other
water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land

d The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all
rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time
than the priority of this permit and shall not give rise to any right or claim against any future rights to the
use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this
permit.

RE. Assignment of Permits for DR & J Investments LP

Gentlemen:

The department acknowledges receipt of the assignment of permit forms you submitted on June 1, 2000. We find, however, that we have several items that must be taken care of to finalize all the assignment forms. The department has modified its records for Permit 65-02869 to reflect the change in ownership and has enclosed a computer-generated report for your records.

In regard to the assignment submitted for Permit 65-07833, we find that we cannot process this assignment. This permit is in the name of Everett K. Allen and only he can assign the permit. Please submit an assignment of the permit from Everett K. Allen to Donald J. Rumsey of Double Diamond Ranches so we can process the assignment to DR & J Investments LP. In Idaho, a water right permit is considered personal property and only the current permit holder of record can take action towards the permit. If Mr. Allen is no longer available, please contact me and we can discuss the action to be taken to resolve this matter. We will withhold action on the assignment until we hear from you in regard to this permit. As you can see on the enclosed profile report, we have entered DR & J Investments LP as the present owner of the permit.

You also submitted an assignment for Right 65-12751 that was licensed in February of 1991. Therefore, an assignment of this right is not required and we are returning the form to you. Please note that the change of ownership has been completed by the adjudication bureau. I have enclosed a profile report of that claim for you.

We have tried to send an acknowledgement letter to the address shown on the assignment form for Permit 65-02869 but it was returned to our office with a notice of address correction. In order for us to change our records to your current address, please complete the enclosed change in address form and return it to my attention at your earliest convenience. I have also included several blank "change in address" forms that you can use for other water rights you may have under your previous address.

We found that you submitted duplicate assignment forms for Permits A65-02869 and A65-07833. There is no fee associated with assignment of adjudication claims so we are returning those assignments to you. If a water right is pending action in the SRBA fees are not required to change ownership. Once the right is decreed, fees will once again become applicable. We have requested a \$75.00 refund for the fees you submitted with the assignment forms that we are returning herein. The refund will be coming under separate cover.

Please note that as of July 1, 1996, water right owners are required to report any change of ownership and any change of mailing address of the owners of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department. You can also download our forms from our Internet site at <http://www.idwr.state.id.us/info/forms.htm>

Please feel free to contact me if you have any questions in regard to this matter.

Sincerely,

RE: Removal of Protest Date
DATE: January 19, 2000

Water right no 65-12751 is identified as a protested water right in the water right database. I researched our microfilm for the water right. I find that an application for transfer was filed in 1991 and was protested by George Doval. In 1992, the application for transfer was amended and removed water right no. 65-12751 from consideration. I was the hearing officer for the protested water right hearing. The decision that I wrote and all of the later documents do not refer to water right no. 65-12751. I conclude from my research that the protest date was entered into the database when the first water right application for transfer was protested. When the second application for transfer was filed, removing water right no. 65-12751 from consideration, the protest date was not removed.

I recommend that the protest date and any associated flags in the database for right 65-12751 be removed.

RE: Protest to Applications for Transfer Filed by Double Diamond
Inc.; Water Right Nos. 65-03103, 65-10773, 65-10746 and 65-
12751

Dear Mr. Hirschi:

Horseshoe Bend Hydroelectric Company (Horseshoe Bend Hydro)
protested an application for transfer filed by Double Diamond
Inc. The application for transfer proposes a change in the place
of use of Porter Creek and Payette River rights.

A prehearing conference was scheduled and conducted on
October 5, 1992, at the offices of the Department of Water
Resources. My review of the file at the conference revealed the
protest by Horseshoe Bend Hydro, and also revealed that we
neglected to notify Horseshoe Bend Hydro of the conference.

One other protestant, George Dovel of Horseshoe Bend, was
represented at the hearing by his attorney, Richard B. Eismann,
3016 Caldwell Blvd., Nampa, Idaho 83651-6416. Double Diamond
Inc. was represented by Jack C. Riddlemoser, 712 E. Fairview,
P.O. Box 373, Meridian, Idaho 83642.

George Dovel feels approval of the application for transfer
will injure his use of Porter Creek water and will also enlarge
the traditional use of the water. There may also be some issues
of local public interest and conservation of water that have not
been identified. I am enclosing a summary sheet which describes
the criteria the Department must consider and the respective
burdens of proof of the parties.

I suggested to Mr. Riddlemoser that he contact you directly
to try to resolve your concerns. I suspect that if the
applicants can show no interference with the power project,
perhaps the protest can be resolved.

I would like to avoid conducting another prehearing conference if possible. A prehearing conference is not required by our rules and regulations, but helps us to focus the issues. If you feel a prehearing conference would be productive, please let me know. Otherwise we will schedule the matter for hearing in the near future.

RE: Water Right No. 65-12751

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

RE: Water Right No. 65-12751

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

MEMORANDUM

TO: Norm Young
FROM: Dave Tuthill *DT*
DATE: February 14, 1991
RE: Licensing of Water Right No. 65-12751

You have requested information regarding the relationship between Permit No. 65-12751 in the name of Double Diamond, Inc., and water distribution in Water District 65-B, Porter Creek.

The above-referenced permit is for the irrigation of 20 acres located north of Porter Creek. The field exam for this permit was conducted in 1988, and I am not aware of any dispute as to the validity of this water right.

The impetus for expedited licensing of this water right is that the applicant has requested assistance with the preparation of an application for transfer of water rights that will swap junior water rights with senior water rights in Water District 65-B. The applicant has within the past two years taken some irrigated lands out of production by creating a gravel pit on lands near the river. The request is to swap the senior water rights from this land with other junior water rights. Of all the water rights identified in the proposal, the only permit is number 65-12751. Completion of the licensing process for this permit eliminates any need to accompany the application for transfer with an application for amendment.

Attachments to this memo include the first page and a map page from the as-yet-unsigned application for transfer. Once the license is issued for this permit, the application for transfer will be finalized, and this office will notify the applicant that the document is prepared for filing. If the application is filed, this office will proceed with advertising the application for transfer. Any potentially injured parties will have full opportunity to object to the application at that time.

I recommend that a license be issued at this time for water right no. 65-12751.

MEMORANDUM

TO: FILE 65-12751
FROM: STEVE LESTER
DATE: JULY 26, 1990
SUBJ: FLOW RATE CALCULATIONS

This is Attachment A for the field exam of Permit 65-12751.

On 6/28/90 I thought that the Porter Creek Watermaster records would be sufficient to show that at least 0.40 cfs could be delivered under 65-12751. Using the Watermaster data, I started to finish the exam report that was partially completed by another examiner in 1988. A headgate and buried pipeline discharge water into a small pumping pond at the booster pump site. Therefore, no significant loss occurs between the diversion point and place of use.

However, to provide 0.40 cfs or 180 gpm via 24 heads, 7.5 gpm/head would be required. This seemed unlikely since pressures exceeding 90 psi would be needed. Therefore, another measurement was required. The diversion is shared between two rights for adjacent acres. On 7/11/90 I met the Watermaster and the farm operator, Cleo Cockrum, at the diversion. The full irrigation rate described in decreed right 65-10773 and in the permit was delivered (McCrometer flowmeter reading of 65 miner's inches or 1.30 cfs). Sprinkler pressure readings were gathered for the 32 heads operating in the 19 acres in 65-12751. The heads in 65-10773 P/U were not checked because they were not pertinent to the permit exam. These were the same model and nozzle size heads found in 1988. Note that 32 heads instead of 24 were used on 7/11/90. Cleo Cockrum stated that normal use included 32 instead of 24 heads. (To reach 180 gpm / 32 heads = 5.63 gpm/hd, this requires > 60 psi, which exceeds the normal operating pressure of the system's booster pump).

Results

psi readings: 34-41-40-37-37-35-35
mean psi = 37

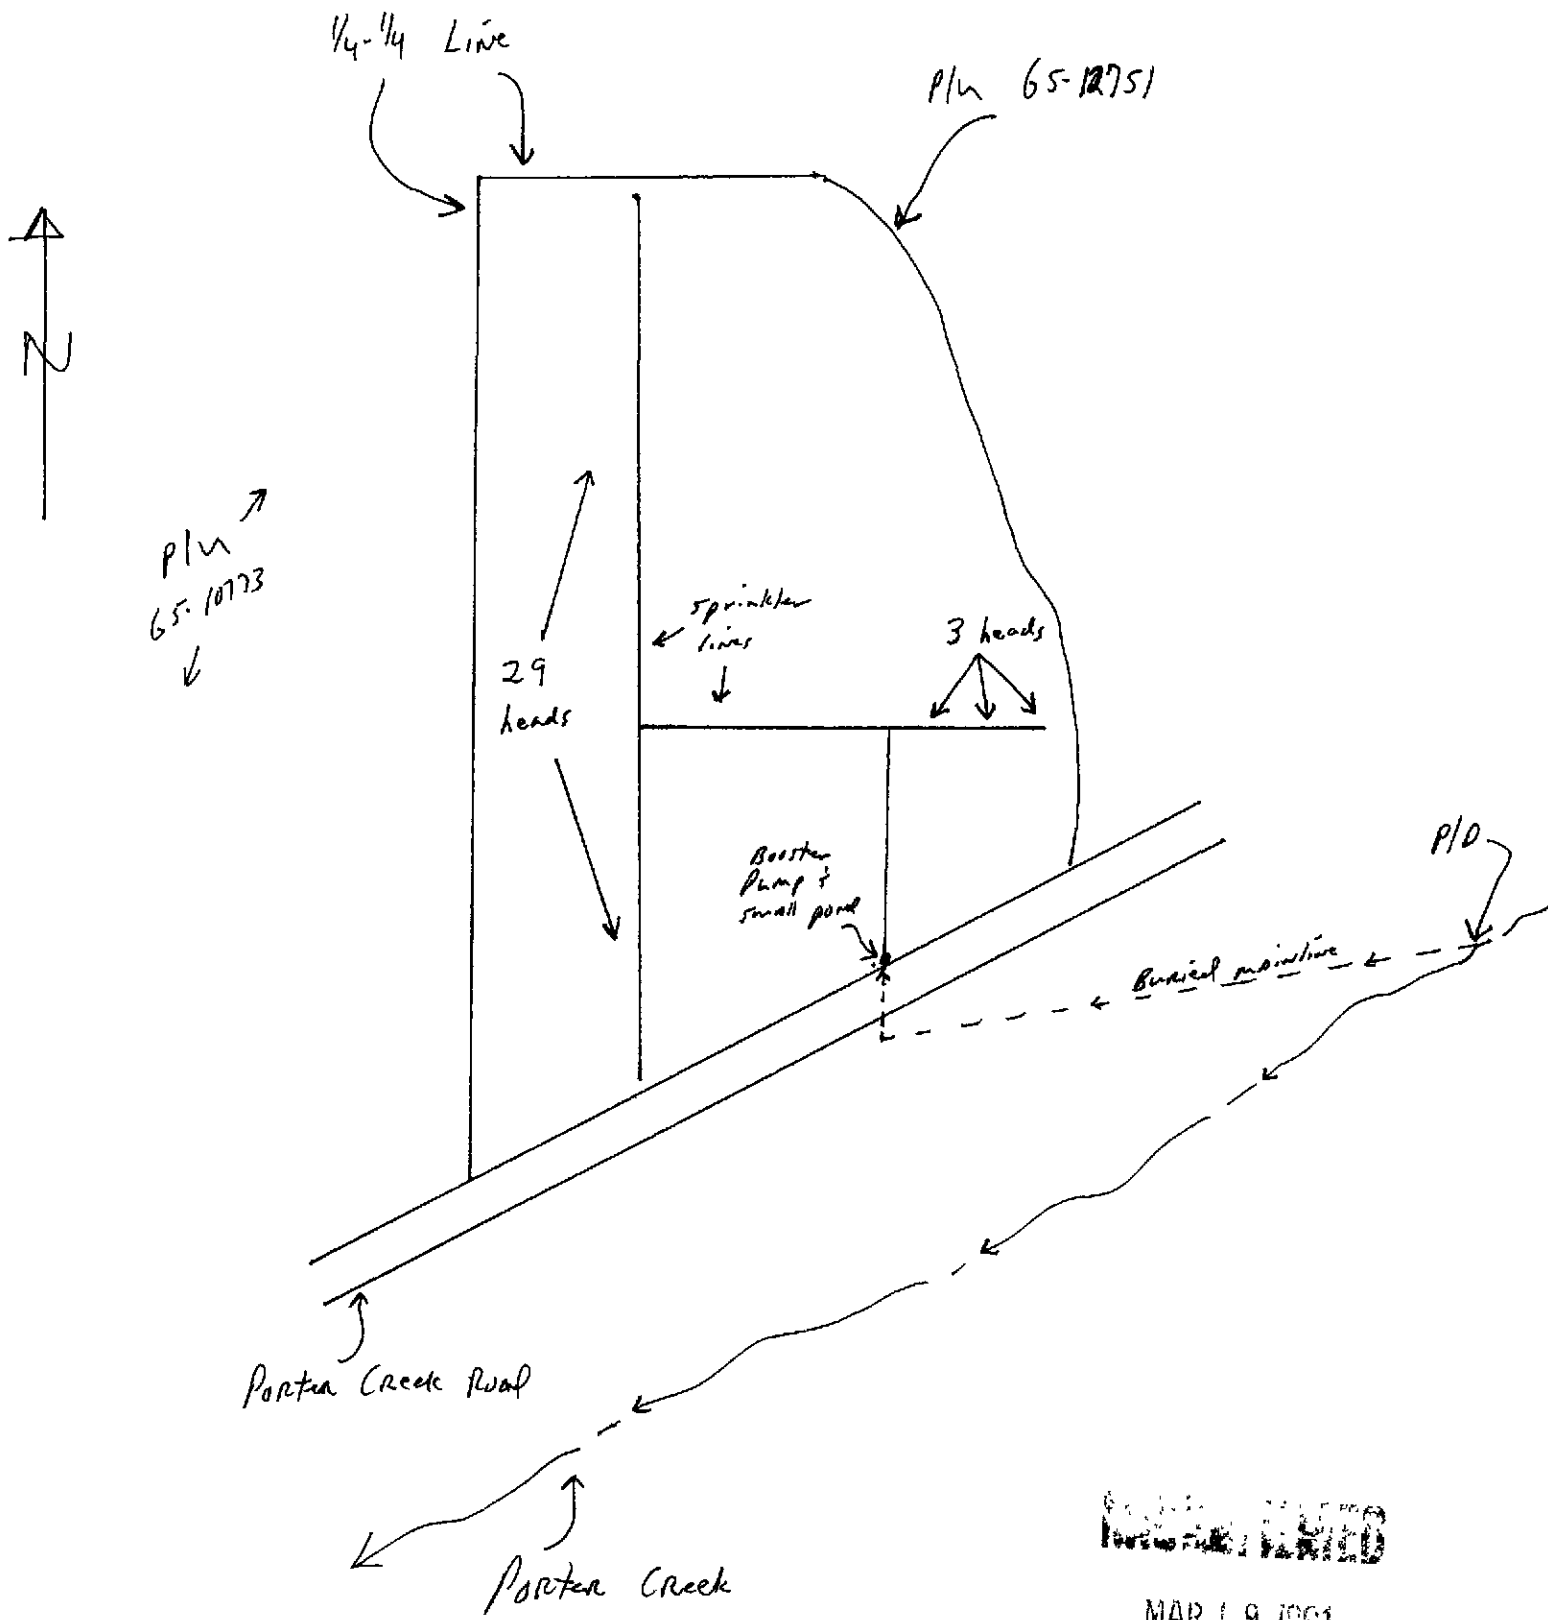

from sprinkler chart:	psi	gpm/head
	35	4.16
	37	4.28 *
	40	4.45
	* interpolation	

flow measurement: 32 heads x 4.28 gpm/hd = 136.96 gpm = 0.31 cfs

The recommended flow rate for licensing of 19 acres is 0.31 cfs.

FIELD EXAM NOTICE

RE: PERMIT NO. 65-12751

Dear Permit Holder:

We are planning to conduct water right examinations in the vicinity of the above-referenced permit during the week of May 21, 1990. An examination is needed to verify your water use in order to issue a water right license.

One of the conditions of approval of your water permit was that a measuring device of a type approved by the department be installed and maintained as part of your diverting works. Enclosed is a list of measuring devices recommended by the department. This measuring device must be installed prior to the time the examiner is scheduled to conduct your exam. If a measuring device is not installed at the time of the exam, you may be subject to an additional examination fee.

Please be advised that you will need to operate your system under normal conditions during the examination.

In order to conduct your exam as efficiently as possible, we ask that you call this office to schedule a day and time convenient for you.

If there is a problem with scheduling or conducting the examination at this time, please call and other arrangements can be made.

SINCERELY,

MICROFILMED

RE: contact person is Donald Ramsey (Local #) 336-4801.
9:10 He is out of town 7/13 - 1st week of August. He will have Angie Mandiotta call us about an appointment for this period. If this doesn't work, call D. Ramsey in early August for appointment.

3:30 Best to wait until end of first week of August & then schedule exam with D. Ramsey.

8/10 2:00
Because of water district, new watermaster, and disputes over water, probably best to wait until spring, 1988 to do exam & make reliable measurement.

Contact Don Ramsey 336-4801 (Boise) @ exam around late April, early May 1988.
~~meas. device req'd.~~
Lockable device req'd.

4/26/88 Won't begin diversion for a few weeks. Contact in mid to late May for exam. Flumeter in line. Needs exam in early irrigation season.

5/23/88 System operating but cutting hay. MICROFILMED will call soon about possible 6/1 exam.

Dear Permit Holder:

We are planning to conduct water right field examinations in the vicinity of your water right permit (the permit number is listed above your name) during the weeks of July 13 and July 20, 1987. A field examination is needed to verify your water use so that a water right license can be issued. In order to conduct your exam as efficiently as possible, please call this office to schedule a day and time during the above referenced weeks that is convenient for you. Please note that your system should be operating under normal conditions during the examination.

If there is a problem with scheduling or conducting the examination at this time, please call us and other arrangements can be made.

Sincerely,

Brad E. Dingee
Sr. Water Resource Agent

Dear Applicant(s):

We acknowledge receipt of your statement of proof of beneficial use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination, please contact this office.

Sincerely,

PROOF DUE NOTICE

RE: PERMIT NO. 65-12751

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF THE ABOVE REFERENCED WATER PERMIT WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE JANUARY 1, 1987. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST.) ENCLOSED IS A FORM WHICH WHEN ACCOMPANIED BY THE LICENSE EXAMINATION FEE OR A COMPLETED FIELD EXAMINATION REPORT PREPARED BY A CERTIFIED WATER RIGHT EXAMINER MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER AN ACCEPTABLE PROOF OF BENEFICIAL USE SUBMITTAL OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

SINCERELY,

RITA FLECK
SECRETARY/RECORDS MANAGER
