H. REMARKS AND OVERLAP REVIEW ANALYSIS

P/O & P/U are incorrect on Permit/Lots are subdivision lots.

P/O should be NWSESE Section 16, T.9N, R.9E.. (Not Gov't. Lot 7)

P/U should be SESE Section 16, T.9N, R.9E.. (Not Gov't. Lots 6 & 7)

Overlaps - WR. # 65-12731 is currently on hold and application has not been approved.

WR. # 65-3244 has 10 acres in same P/U, but different P/O and is for irrigation.

Due to drought conditions, Flow is below normal, thus Flow is not accurate representation. Therefore, a flow of 0.04 cfs is recommended. Also, permit indicates a 3000 gallon storage Tank, but Mr. Wolf informed us it is only a 1000 gallon Tank.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-12746

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck

LAPSE NOTICE

RE: PERMIT NO. 65-12746

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated November 30, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 65-12746

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

RE: Legal Description of Point of Diversion and Place of Use

During a review I conducted on or about November 1, 1985, I determined that the P/D and P/U were incorrectly described as SE 1/4 NW 1/4, and should be described as SE 1/4 NW 1/4 SE 1/4. Notice of this correction was published on 11/6 and 11/13, 1985.

During final staff review I have determined that the P/D and P/U should instead be described as NW1/4 SE1/4 SE1/4. An additional Notice of Correction must be published describing this determination.
