ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 65-12740, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 19 91.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

A lockable device, subject to the approval of the Department, shall be installed on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Use of water under this permit is subject to control by the watermaster of State Water District No. 65A, Squaw Creek.

Witness my hand this 12th day of March, 1986.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 65-12740

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

LAPSE NOTICE

Dear Permit Holder:

Under the provisions of Section 42-218a of the Idaho Code, you are hereby notified that the above referenced permit has lapsed since the Department could not approve the request for extension of time you submitted.

You can file a new application within one year of the time you actually intend to develop a water right. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Should you wish to file a proof of beneficial use on that portion of the permit that you may have developed, you must do so within 60 days of the date of this lapse notice. However, your priority date is being penalized one day for every day the proof is received late.

If you have any questions or if we can be of any further assistance, please feel free to contact our office.

Sincerely,

L. Glen Saxton
Chief, Water Allocation Bureau

RE: Permit No. 65-12740

Dear Permit Holder:

Enclosed is a copy of the denied request for extension of time which you submitted to the department in connection with the above referenced permit. Section 42-204, Idaho Code, provides that only one extension of time based on due diligence can be granted. Please note that one extension has already been granted on May 15, 1991 for due diligence.

Within one year of the time you actually intend to develop and beneficially use the water, I suggest that you file a new application. Since Idaho is now under a mandatory permit procedure to develop a water right, the new application will provide an additional period of time for development, although the priority date will be later in time.

Please feel free to contact any of our regional offices if you wish assistance in completion of the new application.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

Montour, ID 83617

Dear Bob,

I am currently making arrangements to complete the irrigation system for my property located at 7829 Hwy 52, and take advantage of my water rights to squaw creek. I plan to use the water for agricultural and irrigation needs during the summer months. I am formally inquiring with you at this time, to discuss the easiest possible route through your land to access water out of squaw creek. All that would be required, would be a small easement to run irrigation pipe, and a possible location where I could place a power pole with a meter and pump. If there is a problem with this easement, or if you have any additional questions, please let me know as soon as possible.

Sincerely,

David Brill

Dear David,

We have plans for our creek frontage that preclude any
easement. The best route for your water system is west of
our property line.

Sincerely,

Bob Hunter

PROOF DUE NOTICE

RE: PERMIT NO. 65-12740

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

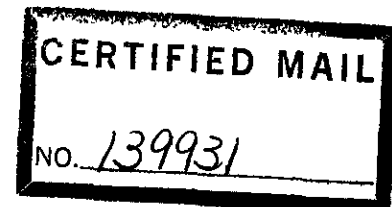

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

MEMO TO FILE:

From: Carolyn Andregg

During the spring and summer of 1992, drought conditions caused record low flows in the Snake River. Twice, the flow of the Snake River fell below 4,750 cfs, the minimum stream flow at the Weiser gauge. Notices were mailed to the water user listed under this right because the priority is later than July 1, 1976, in order to protect the Snake River minimum stream flow. The following is a chronological history of the mailings.

May 19, 1992: Letter sent to water right holder informing holder of possible temporary cessation of diversion rights and notice of public meetings.

June 8, 1992: Letter sent informing water right holder directing immediate cessation of diversion of water until further notice.

June 12, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

June 26, 1992: Letter sent to water right holder directing immediate cessation of diversion of water until further notice.

June 29, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

Dear Mr. Brill:

Re: Permit No. 65-12740

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to May 1, 1983. Note that the permit has been reinstated with an advance in priority, since the extension was received after the proof of beneficial use date.

The department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions, please contact me.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

LAPSE NOTICE

RE: PERMIT NO. 65-12740

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated December 31, 1990. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

Re: Permit No. 65-12740

Dear Property Owner(s):

This office has sent out a copy of the enclosed letter and some forms to Jim R. and Randy L. James, the permit holder(s) of record. The letter was returned to the department. I contacted the County Assessor's office and found that you are either now acquiring or have acquired a portion or all of the property covered under this permit.

If you are using the water for the uses described on the permit and you wish to continue with the process of developing a water right under this permit, you may want to have the permit in your possession or have both your names on the permit. If so, I suggest you complete the enclosed assignment form by having it signed by either Jim or Randy James before a notary public and returning it to this office. At that time, the department will acknowledge the assignment, conveying the permit to you.

If this office can be of further assistance, please feel free to contact me at 327-7900.

Sincerely,

RITA I. FLECK

INTER-DEPARTMENT MEMO — 1

FROM Lee Sisco *✓*

DATE 3/10/86

TO 65-12740

SUBJECT Double coverage with 65-0155

MICROFILMED

I spoke with Jim James and explained the double coverage problem with 65-0155 from Squaw Creek. He said that he has owned the property since 1981 and had never irrigated. He purchased the land from Paul Darnell and Mr Darnell had never irrigated. The land has not been irrigated for quite a number of years and there is a question as to whether 0155 is still valid. Mr. James would rather be safe than sorry, and would like a new right.

Re: Application for Permit - Jim R. &/or Randy L. James NO. 65-12740

Dear Legal Department:

Enclosed is a copy of the original notice for the above referenced application and the affidavit of publication received by our office. Note that there is a discrepancy in the two notices.

We are requesting that you publish the enclosed correction notice at your expense.

Upon receipt of an affidavit of publication for the correction notice, we will forward the bill for the first publication to our accounting section.

Your cooperation in this matter is greatly appreciated.

Sincerely,

Judy Pense
Secretary
