Dear Barry & Anna:

I have received the licensing amendment and fee you submitted for the above referenced water right. I appreciate your prompt response in this matter and your interest as the new land owners to preserve this right. I will hold the amendment until I receive the assignment form you requested.

I have enclosed a partially prepared assignment form for your convenience. You will need to complete the center portion of the form, assigning either all or a portion of the water right. If only a portion is being assigned, please describe exactly what portion by location and rate of diversion. You only need to fill out the portion that pertains to your assignment, one or the other.

The assignment can be signed by either Morris or Lucille Floyd, or both. The signature must be notarized.

I will withhold the file from further processing for 15 days to allow you time to complete the assignment. If you have any questions regarding this matter, please feel free to contact me directly at 327-7943.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{\hspace{2cm}}$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{\hspace{2cm}}$

2. Volume Calculations for Other Uses:

4 head of horses x 12 gallons x 365 days = 17,520 ÷ 325,850 = .05 of a
.01 x 365 x 1.9837 = 7.2 of a
.1 of a

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Other rights in same PP don't affect this permit.

The P/D and P/U were determined during the exam to be different than those shown on the application. Both, the P/D and P/U should be NE SW rather than SE SW. The township, range and section don't change from those specified in the application.

License at minimum of .01 cfs and .3 cfs

PROOF DUE NOTICE

RE: Permit No. 65-12615

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

RE: Permit No. 65-12615

Morris &/or Lucille Floyd
Box 1633
McCall, ID 83638

Dear Permit Holder:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Please be advised that there is insufficient natural flow available in the Payette River and tributaries to provide water for a new appropriation throughout the entire season of use. During the spring run-off each year, there may be a period of time in which the prior rights to the use of the natural flow and storage are filled leaving water available for your permit. As the natural flow diminishes, however, there may be no water available for your right unless you arrange for an additional source of water as a supplemental supply.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed instructions entitled "Making Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section
