CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.

REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof
of beneficial use for a water right permit

FEB 24 1988

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 65-12598

Name(s) of Permit Holder: Robert A. Smith

Post Office Address: Box 586 New Plymouth, ID 83655

Telephone No. 278-3743

Date Proof is Due: April 1, 1988

Describe what work has been completed toward the development of this water right:

(This must be filled out! If no work has been completed, show "none".)

Built fish ponds, installed concrete water delivery system,
began construction of pumping system

Costing \$ 25,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Some fish have already been raised, and the project has been
initiated. More time is needed to expand to the size forecasted
in the application.

Permit holder(s) request an extension to July 1, 19 91.
(1 yr. minimum)

(Signature)*

FEE: \$15.00

*IF OTHER THAN PERMIT HOLDER,
POWER OF ATTORNEY MUST BE SUBMITTED.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

MAY 15 1989

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to July 1, 1991.

Signed this 14th day of March, 19 88.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 65-12598, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 19 88.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Use of water under this permit is subordinated to future diversion of water either upstream or downstream for irrigation or other consumptive beneficial uses.

This permit is subject to the provisions of Sections 42-205 through 42-210, Idaho Code, restricting the sale, transfer, assignment, or mortgage of this permit. Failure to comply with these provisions is cause for immediate cancellation of this permit.

This permit does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.

Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Use of water under this permit is subject to control by the watermaster of State Water District No. 65, Payette River.

Assignment or sale of this permit is subject to a determination by the Department that the permit holder has proceeded to develop the permit with due diligence and without speculation.

Water used under this permit if discharged into a natural channel shall meet Idaho Water Quality Standards.

An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 22ND day of April, 1983.

MEMORANDUM

TO: File 65-12598
FROM: Sharla
DATE: February 2, 1993
RE: Annual Volume for Fish Propagation

Per a memo dated 1/15/88, volume is calculated this way:

1. Calculate changes per hour:
total flow into facility x 3600/facility volume(cf)=changes
2. Calculate annual volume:
facility volume(AF) x changes x 8760=AFA
3. Calculate volume given by permitted flow:
flow rate(cfs) x 1.9835 x 365 days=AFA
4. Recommend lower figure

1. 8.0 cfs x 3600/ 15,211,152 cf = .00189
2. 349.2 AF x .00189 x 8760 = 5,781.5 AFA
3. 8.0 cfs x 1.9835 x 365 days = 5,791.8 AFA

RECOMMENDATION: 5,781.5 AFA

RE: WATER RIGHT NOS. 65-12579, 65-12598, & 65-12717

Dear Mr. & Mrs. Smith:

I have completed the review of the beneficial use field examinations for the above referenced water rights. Before licenses can be issued, your permits must be amended to include the point of diversion in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 2, Twp. 07N, Rng. 04W. The enclosed applications for amendment contain this information.

With the information you supplied previously concerning the pond dimensions, locations, etc., I was able to finish our recommendations. You will note that the full amounts originally permitted for fish propagation and power uses will be licensed.

Please review the amendments carefully and if you concur, sign them and return with the \$60.00 (\$20.00 per each amendment) filing fee within 15 days.

If you do not concur with these findings or if you have any questions, please contact me within the 15-day period.

Sincerely,

SHARLA CURTIS

MEMORANDUM

TO: Files 65-12579/12598/12717

FROM: Sharla

DATE: January 28, 1993

RE: License Review

Mr. Smith has made numerous visits and phone calls to the department concerning the above three permits. He is anxious to finish the licensing process on these rights. I originally started review of Permit 65-12579 and sent correspondence on January 9, 1992 regarding information that was needed in order to finish the license process. Mr. Smith then came into the office and supplied most of the information requested. I believe there is sufficient information to issue the licenses.

These permits were inspected by a certified examiner. He recommends a capacity of 38.36 cfs - the flow through the power plant. He explains that there is no other way of actually measuring the capacity. This has been verified by Mr. Smith in his description of his system - water rises almost everywhere on the property, there is no shortage. This does present the problem of being unable to distinguish between the sources. Therefore, in this case the measurement at the power plant will have to suffice.

The map with Mr. Smith's description of ponds, locations of springs, etc. can be found in Right 65-12579.

Because none of the three rights individually were over 25 cfs, the normal conditioning for compliance with FERC requirements was never placed on any of the permits. However, the three rights combined exceed 25 cfs, therefore, the normal conditions placed on power rights will be added at the time of licensing. No documentation is found concerning the amount of power produced under this system. 38.0 cfs was measured for power and fish propagation and has been recommended for licensing. This is how much water is available; it may not be an indication of how much water is actually needed for the power use.

Licensing amendments will be required for each of the three permits to add the spring located in the SWSE, Sec. 2. The groundwater source has been removed from Permit 65-12717; wells were not developed.

No diversion volume has been listed on any of the rights for fish propagation or power uses. Instead, the total facility volume between the three rights is listed in remarks for each. The total annual volume for power use is also listed in remarks under each right.

$V = \text{Smaller of } V_{i.r.} \text{ and } V_{d.r.} =$ _____

2. Volume Calculations for Other Uses:

MICROFILMED

MAY 15 1989

H. REMARKS AND OVERLAP REVIEW ANALYSIS

The source of water is springs and seepage into drains, thus the amount of water diverted is very difficult to measure because it comes up everywhere. The hydrostatic head is apparently above ground surface, so when the soil surface is removed the water starts flowing. The only reasonable method of measurement is measure the water used for hydropower which is a collection point for almost all of the water used including water used for fish propagation.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Fish Propagation	1/1	12/31	8 cfs	
Power	1/1	12/31	8 cfs	
Totals:				

2. Recommended Amendments

- ☐ Change P.D. as reflected above
☐ Change P.U. as reflected above

- ☐ Add P.D. as reflected above
☐ Add P.U. as reflected above

☐ None

PROOF DUE NOTICE

RE: Permit No. 65-12598

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

RE: PERMIT NO. 65-12598

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

PLEASE BE ADVISED THAT YOUR PLANS FOR FISH PROPAGATION MAY BE SUBJECT TO REGULATIONS OF THE IDAHO DEPARTMENT OF FISH AND GAME. WE SUGGEST THAT YOU CHECK WITH THEM BEFORE STARTING CONSTRUCTION.

BE SURE TO NOTE THE SPECIAL CONDITION REQUIRING YOU TO INSTALL AND MAINTAIN A MEASURING DEVICE AT YOUR POINT OF DIVERSION. WE HAVE ENCLOSED A DESCRIPTION OF THE DIFFERENT TYPES OF MEASURING DEVICES ACCEPTED BY THIS OFFICE.

PLEASE BE ADVISED THAT PRIOR APPLICATIONS FOR PERMIT HAVE BEEN FILED TO APPROPRIATE WATER FROM YOUR SOURCE WHICH MAY IMPACT THE AVAILABILITY OF WATER TO BE USED UNDER THIS PERMIT. THEREFORE, YOU SHOULD BE SURE TO ANALYZE THE IMPACT OF THESE RIGHTS BEFORE MAKING A MAJOR INVESTMENT FOR YOUR WATER USE PROJECT.

THE 1982 IDAHO LEGISLATURE ADDED A REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

INTER-DEPARTMENT MEMO — 1

FROM David Shaw

DATE 4/19/83

TO 65-12598

SUBJECT Fish Facilities

THIS filing is for more water for the raceways described in 65-12579. This was confirmed by phone with Mr. Smith. The combined flow of the two filings and the ^{raceway}~~pond~~ sizes are within our guidelines. A copy of the raceway description is attached.

SIGNATURE

November 12, 1982

Director of Department of Water Resources:

Concerning my Application for Permit filed on 10/15/82 for myself, Robert A. &/or Sharon A. Smith, the additional information required regarding power and fish propagation is as follows:

The power is for personal consumption and will not be sold therefore, it will not require a FERC exemption.

The size of the fish raceways will be 8 ft., deep by 300 ft. ^{by 5 ft wide} and there will be three in number. These will be located on the drains so no concrete raceways will be utilized. The type of fish to be raised will be a warm water variety so 6 cfs will turn over the pond area and provide oxygen. Area capacity of ^{the} ponds would hold about .82 to 1 acre ft. of water. Also, letter from Drainage District No. 8 is enclosed, plus a copy of proof of ownership.
