RE: WATER RIGHT NO. 65-12568

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

APR 16 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit, which was approved.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script, appearing to read "Shelley W. Keen".

Dear Water Right Holder(s):

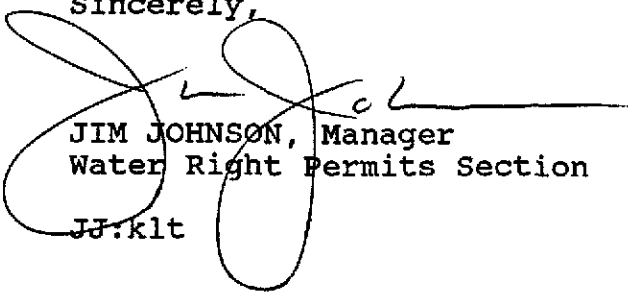

We acknowledge receipt of the correspondence changing the ownership of the above referenced water right to you. We have modified our computer records to reflect this change in ownership.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Dear Mr. & Mrs. Campbell:

We have received the Application for Amendment signed by Jeanne Campbell on behalf of Dennis Downer and the \$50.00 application fee. This fulfills a portion of the request as outlined by Mr. Shelley Keen in his letter to you dated November 12, 1997. A copy of this letter is enclosed for your convenience.

Please note the request for the \$25.00 filing fee that was to accompany the Assignment of Permit form. (A copy of the assignment form that you submitted is enclosed).

If the \$25.00 assignment filing fee is not received within fourteen days we will be unable to issue the license in your name.

If you have any questions in this matter, you may call me at 208-327-7941.

Sincerely,

Kari Lynn Townsend

RE: Water Right 65-12568

Dear Mr. Campbell:

I have received the form indicating that Dennis Downer is assigning water right permit 65-12568 to you. However, the required \$25 filing fee has not been received. Please submit the fee within fourteen days so that the water right record can be updated.

Also, I have enclosed a copy of the Application for Amendment that must be completed before water right 65-12568 can be licensed. The amendment is necessary to reflect the development of two separate diversion and delivery systems, one for your lawn and the other for your home. The application submitted by Dennis Downer and approved by IDWR in 1982 did not describe two separate systems. The existence of two systems is indicated in remark no. 7 of the amendment form.

Please review, sign, and return the Application for Amendment form with the required \$50 application fee so that water right 65-12568 can be licensed in accordance with the development that occurred. If I have not received the Application for Amendment and fee within 14 days, the license will be issued for less than could have been included.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Shelley Walter Keen

RE: Telephone Conversation

=====

Dennis Downer telephoned to verify the boundries covered by this water right. He had received an Assignment of Permit form from James Campbell and wanted to make sure whether he should fill in for full assignment or partial assignment.

I read pertinent information from the Application for Permit to him that helped him to know the exact location of the permit.

His decision at the end of the conversation was to fill out the form for a full assignment.

RE: Water Right No. 65-12568

Dear Mr. Campbell:

I am writing to you about Water Right Permit No. 65-12568, which was originally issued to Dennis Downer. The permit is being reviewed for licensing, which is the final step in the water appropriation process. Before a water right license can be issued, however, the permit must be amended to depict the water right as it has actually been developed. I sent an Application for Amendment form to Mr. Downer, but he informed me by telephone that you now own the property on which the water development occurred and that I should contact you. Therefore, I am writing to give you the opportunity to complete the process necessary to obtain a water right license.

The enclosed Application for Amendment form contains information that will be included on the license when it is issued. The amendment reflects the addition of a second point of diversion (see Remark No. 7). The last page of the Application for Amendment form contains a list of CONDITIONS and REMARKS proposed for the license when it is issued. These conditions and remarks may be modified upon further administrative review. Please review the amendment form carefully. If you concur with the information presented, sign the form and return it with the \$50.00 filing fee within fourteen days.

In order for the department to issue the water right license in your name, the permit holder of record, Dennis Downer, must assign the permit to you. I have enclosed an Assignment of Permit form to help you obtain the required information and signatures. If you do not obtain an assignment from Mr. Downer, the department may still issue a license if you submit the necessary Application for Amendment and fee. Once the license is issued, the water right becomes real property appurtenant to the land, regardless of the name listed on the license document, and you can submit a Notice of Change of Water Right Ownership form to have IDWR update its ownership records.

If you have any questions about this information, please contact me at (208) 327-7946 in Boise.

Sincerely,

Shelley Walter Keen
Water Rights Supervisor

RE: Multiple points of diversion

Application for Permit 65-12568 described the proposed diversion works as "pump & pipe line." IDWR's field examiner found two pumps located near each other. Despite their proximity, the two pumps are being interpreted as two points of diversion because they deliver water via two separate, unconnected systems. Regulating water diversions under this right would require controlling both systems. A licensing amendment is required to add the second point of diversion.

2 separate pumps are used for applicant's domestic use. For the external use, a $\frac{3}{4}$ HP pump in the lake, off the end of the dock, sucks water through a 1" 25' intake pipe, then pushes the water through 50' of 1" pipe supplying the sprinkler system for the lawn. For the internal use, a $\frac{3}{4}$ HP pump in the lake, off the end of the dock, sucks water through a 1" 100' intake pipe, then pushes the water through 50' of 1" pipe to the pressure tank for the home. Total vertical lift for both systems is ~10'. The dock is located in front of the Schader home, 1744 Crescent Dr, which also uses the pumps for domestic use covered by decree 65-09609/A65-09609. The address for this permit is 1740 Crescent Dr. No other nts are used.

The property on this permit is now owned by James & Jeannie Campbell.

This office acknowledges receipt of the proof of beneficial use form. It has been accepted and the regional office has been notified to complete a field inspection.

Returned are the two requests for extension of time forms submitted to this office for this same permit. Since the project is complete and ready for the department to conduct the field inspection, you won't need additional time in which to complete the project and consequently submit proof.

If you have any questions concerning this matter, feel free to contact this office.

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

RE: PERMIT NO. 65-12568

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

THE 1982 IDAHO LEGISLATURE ADDED A REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

PLEASE BE ADVISED THAT THERE IS INSUFFICIENT NATURAL FLOW AVAILABLE IN THE BIG PAYETTE LAKE AND TRIBUTARIES TO PROVIDE WATER FOR A NEW APPROPRIATION THROUGHOUT THE ENTIRE SEASON OF USE. DURING THE SPRING RUN-OFF EACH YEAR, THERE MAY BE A PERIOD OF TIME IN WHICH THE PRIOR RIGHTS TO THE USE OF THE NATURAL FLOW AND STORAGE ARE FILLED LEAVING WATER AVAILABLE FOR YOUR PERMIT. AS THE NATURAL FLOW DIMINISHES, HOWEVER, THERE MAY BE NO WATER AVAILABLE FOR YOUR RIGHT UNLESS YOU ARRANGE FOR AN ADDITIONAL SOURCE OF WATER AS A SUPPLEMENTAL SUPPLY.
