WATER RIGHT LICENSE

WATER RIGHT NO. 65-12545

Priority: July 27, 1982

Maximum Diversion Rate:
Maximum Diversion Volume:¹

0.28 CFS
63.0 AF

This is to certify, that CLARK R. JORDAN
NONA M. JORDAN

1464 JORDAN LANE
EMMETT, ID 83617

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated July 15, 1982; and has submitted Proof of Beneficial Use on April 13, 1988. An examination indicates that the works have a diversion capacity of .670 cfs of water from:

FROZEN DOG WASTEWAY tributary to PAYETTE RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.28 CFS	63.0 AF

LOCATION OF POINT(S) OF DIVERSION: SENE , Sec. 4, Township 06N, Range 01W
GEM County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
06N	01W	4	SENE	14		14

Total number of acres irrigated: 14

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 65-12545 IN THE)
NAME OF CLARK R. AND NONA M. JORDAN) ORDER OF REINSTATEMENT
_____)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before April 1, 1988; and,

WHEREAS, the Department has notified the permit holders by certified mail that proof was due and instructed the permit holders as to the steps to be taken to make said proof; and,

WHEREAS, on April 1, 1988 the permit lapsed for failure of the permit holders to submit proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of lapsing; and,

WHEREAS, the permit holders have provided a reasonable showing as to why said permit should be reinstated by submitting proof of beneficial use on April 13, 1988;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 65-12545 be REINSTATED and the priority advanced to July 27, 1982.

To appropriate the public waters of the State of Idaho

1. Name of applicant CLARK R. &/or NONA M. JORDAN Phone 365-4095

Post office address 1464 Jordan Lane, Emmett, ID 83617

2. Source of water supply Frozen Dog Wasteway ^{CD}, which is a tributary of Payette River

3. Location of point of diversion is ~~SE~~ ^{NE} ~~NE~~ ^{SE} $\frac{1}{4}$ of $\frac{1}{4}$ of Section 4 Township 6N

Range 1W B.M. Gem County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount .30 for irrigation purposes from 7/15 to 11/15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. .30 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Pump with 2½" pipeline with
gravity irrigation

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir
capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial
use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____

Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____

(5) If water is to be used for other purposes describe: _____

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
6N	1W	4				15													15

Total number of acres to be irrigated 15

c. Describe any other water rights used for the same purposes as described above. _____

Emmett Irrigation District

9. a. Who owns the property at the point of diversion Applicant

b. Who owns the land to be irrigated or place of use Applicant

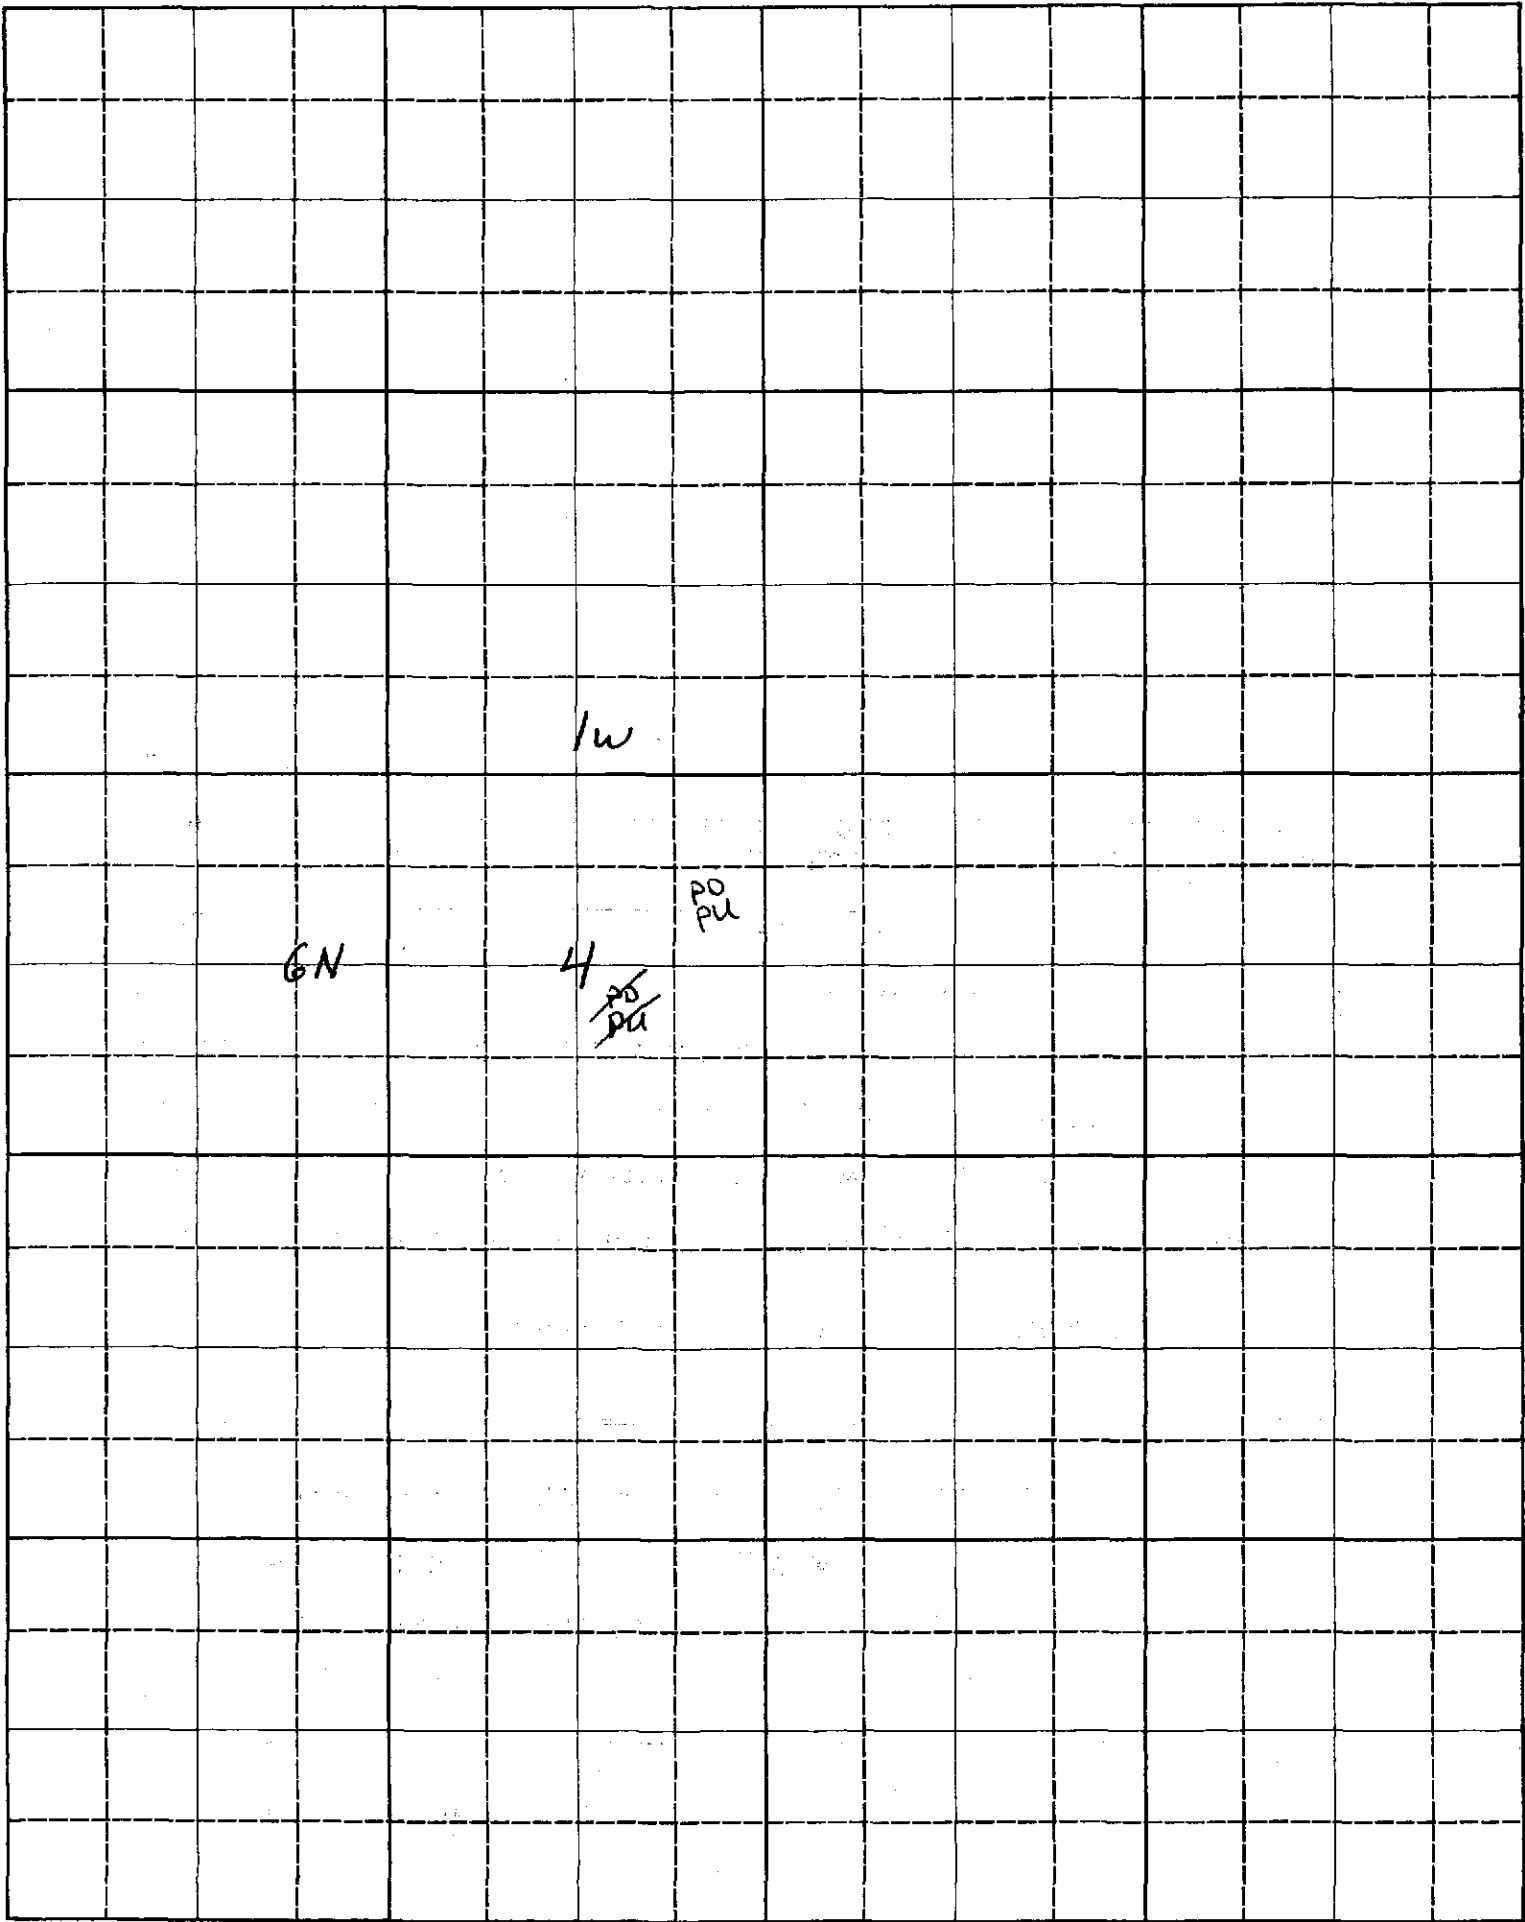

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

10. Remarks Applicant uses water on a rotation basis from ditches for his

Black Canyon water and needs this water in addition to his rotation water
as problems have prevented him from getting his water on time and the
rotation is sometimes too long to be without water.

Source of water has also been known as the Cumming's Drain.

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 65-12545, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before April 1, 19 88.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: PURSUANT TO ORDER.

Dated this 8th day of April, 1983.

A. KENNETH DUNN
Director

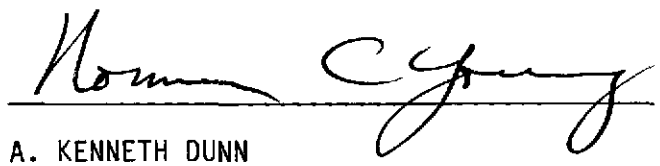

beneficial use be submitted to the Department on or before April 1, 1988.

4) A lockable device subject to the approval of the Department shall be installed on the diverting works in a manner that will provide the water master suitable control of the diversion.

5) The permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

6) The use of water under this permit is subject to the control of the water master of State Water District No. 65, Payette River.

Dated this 8th day of April, 1983.

To: Director of the Id. Dept. of Water
Resources —
A. Kenneth Dunn, Director

RECEIVED
AUG 6 1962

Department of Water Resources
Western Regional Office

Dear Sir:

We wish to protest the
granting of a water permit
to Clark R. and Nona M. Jordan
1464 Jordan Ln. Emmett, Id. 83617
(#65-12545).

In the spring of the year,
when we need to pre-irrigate
our corn ground, there are times
when there's barely enough water
in the Frozen Dog Wasteway to
run our pump. Corn and grain
are our main crops and we
must have the water we need
at that time — therefore we do not
wish to ~~go~~ have Mr. Jordan
using the water. (Hirsh Beerheim)
Mr. De Grange raises alfalfa

and needs the water early
in the spring, too.

Mr. Minium uses the water
for his pasture starting in early
spring.
Mr. L.A. Russell uses the
water for his field of grapes.

Thank You,
July 30, 1982

RE: Water Right No. 65-12545

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement

purposes. This type of coordination could minimize the impact on existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

RE: PERMIT NO. 65-12545

Dear Permit Holder(s):

Enclosed is a draft copy of the license proposed to be issued on the above referenced water right.

This right is currently being reviewed by this office for licensing. The enclosed preliminary copy is subject to change upon further administrative review.

We ask that you review the proposed license and if you do not concur with the information, please let us know within 10 days.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

PROOF DUE NOTICE

RE: Permit No. 65-12545

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

MEMORANDUM

TO: Staff

FROM: A. Kenneth Dunn *A. Kenneth Dunn*
Director

DATE: September 8, 1981

RE: Appropriation of Water Within Irrigation District & Canal Company Areas

Applications to appropriate water within the boundaries of irrigation districts and within the service areas of canal companies cause several uncertainties in administration;

1. Is the water under the control of the district or canal company and not available for appropriation?
2. Is return flow available for appropriation if some water leaves the service area?

A proper and equitable administration of water demands that we adopt guidelines for the appropriation of water within the service area of canal companies and irrigation districts. The following guidelines will be followed in all permits issued in the future:

1. Constructed conveyances. When an additional use is to be made of water from a manmade canal, ditch or other constructed conveyance, whether for consumptive or nonconsumptive use, the appropriator must obtain the permission of the conveyance owner before he can divert any water. The source of water is the natural stream or river from which the conveyance heads. Therefore, the department will not issue a permit without evidence of a right of way to use the point of diversion and conveyance system and/or the written

No permits
issued w/o
permission
writing

MICROFILMED

permission of the owner of the conveyance works.

2. Natural channel conveyances or constructed drains. In many irrigation districts and canal companies, constructed drains and natural channels are used as integral parts of the delivery system. Runoff and seepage water collected in the drains and channels are used to supply water to shareholders lower in the project.

- a. When an appropriation from a "natural channel", within which a substantial proportion of the flow is water injected into the channel and diverted from the channel by the irrigation district or canal company, is proposed for consumptive or nonconsumptive use, the potential exists for interference with the operation of the irrigation district or canal company. To insure that this local public interest is protected, any such permit issued will be conditioned as follows:

CONDITION
23

Water shall not be diverted under this permit until a written agreement with the irrigation district or canal company serving the area containing the point of diversion is filed with the department providing for coordination of the permitted use with the irrigation district or canal company operation.

- b. Usually the canal company either owns the land through which a "constructed drain" flows or has an easement for the drain. Any permit issued to appropriate water from a constructed drain within a canal company service area or an irrigation district boundary will carry the following condition:

Water shall not be diverted under this permit until

CONDITION 23

MICROFILMED

an easement or right of way with the owner of
the drain providing for access to the drain is
filed with the department.

The natural channel and drain is no longer considered a part of the
conveyance system below the last point of diversion from which the canal
company or irrigation district delivers water.

Frozen Dog
Wasteway is
not considered
part of conveyance
system

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR PERMIT NO.)
65-12545 IN THE NAME OF CLARK R. &/OR NONA M.) ORDER TO SHOW CAUSE
JORDAN)

WHEREAS, on July 15, 1982, Clark R. &/or Nona M. Jordan applied to the Department of Water Resources for a permit to appropriate 0.30 cfs of water from the Frozen Dog Wasteway tributary to the Payette River within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 4 Twp. 6N. Rge 1W, B.M. Gem County to be used for irrigation purposes; and,

WHEREAS, on July 28 and August 4, 1982, notice of this proposed appropriation was published in the Messenger-Index, Emmett, Idaho; and,

WHEREAS, the Department received protests against the approval of said application on August 6, 1982, from Mr. and Mrs. Harry Weerheim, Mr. and Mrs. Doug Minium, Mr. and Mrs. Melvin Hoadley and Mr. and Mrs. Larry De Grange; and,

WHEREAS, on November 10, 1982, a hearing concerning this matter was held at Emmett, Idaho at which the protestants, Mr. and Mrs. Melvin Hoadley failed to appear and were not represented:

IT IT THEREFORE, HEREBY ORDERED that the protestants, Mr. and Mrs. Melvin Hoadley show cause on or before January 4, 1983, why their protests against Application for Permit No. 65-12545 should not be dismissed for failure of the protestants, Mr. and Mrs. Melvin Hoadley to appear at the hearing.

Dated this 13 day of December, 1982.

Re: Application for Permit No. 65-12545 in the Name of Clark R. &/or Nona M. Jordan

Dear Mr. & Mrs. Hoadley:

On November 10, 1982 a hearing was held in Emmett to resolve the protests against Mr. & Mrs. Jordan's application to divert water from Frozen Dog Wasteway. At that hearing the other three protestants, Mr. Weerheim, Mr. Minimum and Mr. De Grange withdrew their protests against the Jordan application with the agreement that Mr. Jordan would not pump from the wasteway prior to July 1 of any year.

If you also agree that limiting the Jordan's permit to the irrigation season after the first of July and making the permit subject to all prior water rights is sufficient for you to withdraw your protests, please sign the enclosed withdrawal and return it to this office prior to December 10, 1982. I have enclosed an extra copy of the withdrawal for your records.

If you have any questions about this matter, please feel free to contact this office.

Yours truly,

DAVID B. SHAW
Western Regional Supervisor

Jordan - Supplemental water for rotation from EID. Gets water for 3 days every eight days. Just supplement on the 3 days when EID water is available.

Degrange - has 10 acres under EID rotation & 5 acres under Westway only

Weirheim Plenty of water after 1st of July

~~*** Haney may have pump on drain~~

Check for other pumps

Jordan - Since raising hay does not have enough water on his rotation to irrigate.

Department of Water Resources
450 W. State St.
Boise, Idaho 83720

David B. Shaw

Dear Sir.

In regards to your letter on Protests
against our application No. 65-12545; Clark
had talked to Weerhems, Minums, and
Mr. Russell. Evidently Doug Minums changed
their minds. Lou Russell refused to sign
the Protest. Had not given permission to
use his name. Weerhems dropped their
Water Rights to Last Chance Canal water in 1973.
~~Drain Ditch~~ is the only one they have. You could
check the records, I guess, that place used
Last Chance Canal water for years. They started
pumping from the Drain afterwards (1973).
Clark ~~was~~ not in talk to ~~last~~ ~~Chance~~
or ~~last~~ ~~Chance~~. He talked to Russell twice.
Clark had ~~last~~ ~~Chance~~ in 1971, with
3 ~~last~~ ~~Chance~~. He still has trouble. Had a
bad attack Aug 8 and Aug 27, 1982.

RECEIVED

3/ When the Drain Ditches were put in, in 1922-23 Jordan's were granted the right to stock water and supplement water in the wasteway. There has always been lots of water. It is a permanent stream. It empties into the River by Charters Ranch. The cows watered there summer & winter. Jordan's have lived here since 1920. Over 62 yrs. have continued paying taxes to the middle of the ditch. Our pipe from the Drain Ditch, for irrigating, is on our land.

Drain Ditch information is on Jordan's abstract no. 5109, (First Water Rights ^{abstract #9066} were 1892) We were thinking the stock water to the Drain Ditch was #3 on the Wells Water Rights. Civil 3667 Claim 65-8657. It seems to be written on the same line as the Wells.

At our ages, we aren't apt to be in cattle again unless we rented the pasture to stock.

The Black Canyon Canal washed out in June 1926 Clark helped repair it, also worked on the Big Canal, when it was built in 1936.

A round culvert was put in the Drain Ditch on Jordan Lane, when Pleasant Valley Subdivision was put in. The dirt fill on each side acts like a dam.

3/ Gerhard Pook irrigated 40 A. where the Sub-
division is now. When Lewis Fuller farmed
it, he also irrigated, before putting in the
addition. He had an electric pump & dam.
Mr. Russell also irrigated ^{Herby} Retherington's
Orchards, closer to Frozen Log, at the same
time ^(mid 1910s) There was plenty of water ^(now Laurel addition)

Our Black Canyon Canal water seem
to fluctuate, for no apparent reason.

Lowell is a good ditch rider. Can't watch
the rivers all the time.

The application is for water to add to
irrigation from Black Canyon Canal water.

③ Had Faith Delay or speculation?? We do not
intend to subdivide.

④ Yes. It would not be an expensive
project. Next year we would maybe have
to build a pump house to protect the pump.
at present Clark brings it back to the
barn after the three days. It might get
stolen or broken.

⑤ No. It is to be used just on our place.

Sincerely,

Clark P. Jordan
Nona M. Jordan

Pink slip copy.
DISTRICT
OF COLUMBIA Re. Claim 65-8657

MAP NO.

(Name of Claimant)

1464 JORDAN LANE

(Mailing Address)

claims a right to the diversion

and beneficial use of the surface or groundwater, of or tributary to the Payette River;

The extent and nature of said claim is as follows:

5-11-1892

4/1/1900

(1) Date of priority: (When was the water first applied to a beneficial use, or date that permit was issued)

(2) Describe source of water: (Name of stream, lake, spring, etc., or subterranean) Groundwater

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
(Both Dates Inclusive)

Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)

Use Stockwater .02 Period of Use From Jan. 1 To Dec. 31
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)

Use _____ Period of Use From _____ To _____
(Domestic, irrigation, stock, etc.) (Mo., Day) (Mo., Day)

(4) Quantity of water claimed: _____ Cubic Feet Per Second, or _____ Acre Feet Per Annum,
and/or _____ Gals. Per Minute.

(5) A) Point of Diversion: Give location of point where water is diverted from its source _____ 1/4 _____ 1/4,
Sec. _____, Twp. _____, Rge. _____, B.M.; additional points: _____

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. 2 wells with pumps

(6) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

Total No. of acres 15

B) If water is used for other than irrigation, fully describe that use, being as specific as possible: Domestic for household with lawn, garden and stockwater for 60 head cows & calves

(7) Effluent, sewage waste, or return water from this use is discharged into septic & seepage

(8) If you are claiming water as a member of an organization, list name of organization.

(9) Remarks

(10) Basis of claim (Check one) ☐ A) Right based on diversion and beneficial use.

☐ B) Right decreed by court, cite title of case.

☐ C) Right based on application, license, or claim filed with State Reclamation Engineer, Office No.:

Be it known that the undersigned, after being duly sworn on oath, depose(s) and say(s) that all statements included herein are true and accurate to the best of (his, her, their) knowledge.

CONFERENCE AND HEARING INFORMATION
IN THE MATTER OF APPROVAL OF AN APPLICATION FOR PERMIT

In accordance with Idaho Code, Section 42-203, the following issues are involved in the consideration of the application and protest(s):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes at the expense of the requesting party. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

If the hearing is conducted by a hearing officer appointed by the Director, rather than the Director himself, a proposed decision will be submitted to the parties and the parties may be afforded an opportunity to file exceptions to the proposed decision and present briefs and oral arguments to the Director prior to the issuance of a final decision by the Director. This procedure is required by Idaho Code, Section 42-1701A.

The parties by written stipulation may waive their right to a proposed decision, however, the failure of either party to waive a proposed decision will not prejudice the Director's review of a party's evidence and arguments. However, such a waiver will shorten the decision-making process and may expedite substantially the issuance of a final decision. Whether compliance with Section 42-1701A is waived will not affect a party's right to petition for a rehearing of the final decision pursuant to Rule 11 of the Department's Rules of Practice and Procedure or affect a party's right to appeal the final decision to the district court.

Under the provisions of Idaho Code, Sections 42-1701A and 67-5215, any court review of the Department's decision on appeal shall be confined to the record created before the Department.

Failure to appear at the time and place set for hearing by the applicant or protestant(s) may allow the Department to dismiss without prejudice the protest(s) or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR	)	
PERMIT NO. 65-12545 IN THE NAME OF	)	NOTICE OF HEARING
CLARK R. &/OR NONA M. JORDAN	)	AND/OR CONFERENCE

On July 15, 1982, Clark R. and Nona M. Jordan filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On August 6, 1982, the Department received a protest against approval of said application from Mr. and Mrs. Harry Weerhiem, Mr. and Mrs. Doug Mimum, Mr. and Mrs. Melvin Hoadley, Mr. and Mrs. Larry DeGrange.

The Department has set the matter of protest for hearing for November 10, 1982, 9:30 a.m. in the District Court Room, Gem County Courthouse, 415 E. Main Street, Emmett, Idaho, 83617. The hearing will be held in accordance with provisions of Chapter 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved. A pre-hearing conference may be held beginning at the above set time and prior to the hearing.

Dated this 12 day of October, 1982.

Dear Mr. & Mrs. Jordan:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to your Application No. 65-12545. The Department suggests you contact the protestants(s) directly in an effort to determine the nature of the protest(s) and to attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Yours truly,

DAVID B. SHAW

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Yours truly,

DAVID B. SHAW

MEMORANDUM

7/15/82

To: Clark Jordan Water Right App. File # _____

From: David Shaw *DBS*

Subject: History

We received a call from Doug Minium / 286-7950 on 7/13/82 concerning a pump in the Frozen Dog Wasteway belonging to Clark Jordan. Doug said he had water rights, and several others did also, from this wasteway and he was concerned about getting his water.

I called Emmett Irrigation District and they did not claim ownership of the wasteway or the water. Erv Ballou then contacted Riney Quenzer, secretary of the drainage district, and the drainage district does not claim ownership of the wasteway or the water.

I finally contacted Roy Orr with Black Canyon Irrigation District. Black Canyon owns the wasteway but they do not claim ownership of the water. The wasteway is a dump in case of a canal problem and no water is used by the district once the water enters the wasteway. He said he had told Mr. Jordan to go ahead and put his pump in but Black Canyon could not issue him a permit for the water because they did not claim it.

I then contacted Mr. Jordan at 365-4095 and explained what I had learned. I recommended he file an application with the Department which he had started to do earlier. He said he had decided not to file after talking with Roy Orr but said he would file with us. I explained his priority would be later than those already on the wasteway and if the water supply was not sufficient for everyone he would not be able to use his pump.

I then returned Mr. Minium's call and explained what I had found and that Mr. Jordan planned to file an application. I explained the priority system to him and that until a watermaster was available he would have to call us if there were distribution problems.

Mr. Jordan came in later in the morning and filed his app.
