has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated May 27, 1982; and has submitted Proof of Beneficial Use on March 1, 1990. An examination indicates that the works have a diversion capacity of .030 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.03 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION: LOT 2(SWNW), Sec. 10, Township 12N, Range 04E
VALLEY County

PLACE OF USE: DOMESTIC
TWN RGE SEC

12N 04E 10 LOT 2(SWNW)

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. WATER RIGHT NO. 65-12520

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

IN THE MATTER OF PERMIT	)	
	)	
NO. 65-12520 IN THE NAME OF	)	ORDER OF REINSTATEMENT
	)	
WILLIAM &/OR JEANINE SHIPLEY	)	
	)	
&/OR CLARENCE &/OR WANDA KNAPP	)	

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On July 8, 1982, the Director of the Department of Water Resources issued Permit No. 63-12520 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before July 1, 1987.

2. On April 30, 1987, the Department sent a proof due notice to the permit holders.

3. On July 16, 1987, the Department sent a lapse notice to the permit holders since neither proof of beneficial use nor a request for extension of time had been received from the permit holders.

4. On March 1, 1990, Proof of Beneficial Use was received by the Department from the permit holders.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly

MICROFILMED

JUN 05 1990

establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The permit holders submitted evidence to confirm that water has been put to beneficial use. Evidence includes a well log showing a completion date in 1978 and matching the location of the well and well owner's name described in the permit.

7. The permit holders have stated that proof was submitted late because there was some confusion on the part of the permit holders in understanding the proof requirement and possible adjudication claim requirements. Through misinterpretation of communication with several different representatives of the Department, the permit holders believed that the permit was in good standing after the permit had already lapsed.

CONCLUSIONS OF LAW

1. The permit holders have submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holders have shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

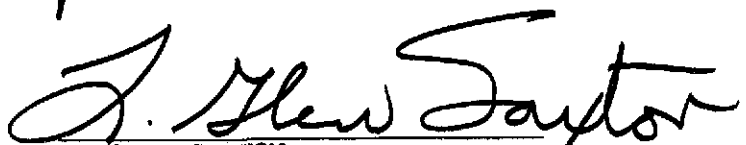

IT IS HEREBY ORDERED that Permit No. 65-12520 is reinstated.

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to March 1, 1990.

Dated this 2nd day of April, 1990.

5. Are there any obvious construction problems that may be a source for contamination or waste of water: Yes ✓ No

If answer to Item 5 is Yes, describe in remarks and attach photo.

Remarks: A low area around well head and a hole about 4" in diameter next to well seal allows water to seep down around seal. Possible contamination if not corrected. The problem was addressed to Mr. & Mrs. Shipley during exam and they indicated they would correct immediately. It appeared that a ground squirrel had excavated a hole next to the well site.

RE: Permit No. 65-12520

In response to your letter of March 7, 1990, regarding the above referenced Permit, as to reasonable cause why proof of beneficial use was filed late;

According to my records, I talked to a lady at 334-7912 on 8-23-87. I gave her our water permit number and she said she would send information telling me what we needed to do at that time. After waiting a couple of weeks, I called and talked again with someone at the Department of Water Resources and told them I had not yet received any notices or further instructions regarding our water rights. After this call, I was left with the impression that everything was in good order and any further information would be sent when needed. Since no further notices were received, I believed everything was in good order. Evidently, I was confused, and when I checked on the water rights was actually talking to someone in the adjudication department.

I hope this explains our position on this matter. If not, please let me know.

Sincerely,

Dear Permit Holder(s):

The Department received your proof of beneficial use statement for the above referenced permit on March 1, 1990. The permit lapsed July 1, 1987, so the 60-day late period during which the permit can be readily reinstated has passed.

Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can now be reinstated only if you submit the following:

a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date.

b) Reasonable cause why the proof of beneficial use was filed late.

The well log which you submitted with the proof statement does provide evidence as required under part a) above. However, you must still submit a statement which provides reasonable cause as to why proof of beneficial use was filed late. The permit cannot be reinstated until this statement is submitted.

Your proof of beneficial use statement along with any information which may have been submitted with it will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

Please feel free to contact this office if you have additional questions.

Sincerely,

TIM LUKE

LAPSE NOTICE

RE: Permit No. 65-12520

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218a, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated April 30, 1987.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this Department within sixty days of the date of mailing of this lapse notice.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.
