RE: CHANGES TO LICENSING RECOMMENDATIONS

DATE: 25-JAN-1990

=====

In reviewing this file for licensing, we determined that this right should be viewed as a natural flow right. If we issued this as a storage right, the pond would only be able to fill once and the 0.5 AF pond would not statisfy the animals needs. We recommend that the license be issued for the amount of water that the cattle can drink.

For 100 head of cattle, which is what the examiner found to be beneficiially using the water, the licensed amount should relect:

Rate of Flow: 100 hd. (at 12 gpd/hd.) x 0.00022 = 0.02 cfs
Annual Volume: 100 hd. x 0.0134 = 1.3 AF
