BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 65-12467 IN THE NAME OF FRED L. &/OR MARTHA B. KOPKE	ORDER

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On January 4, 1982, the Director of the Department of Water Resources issued Permit No. 65-12467 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before January 1, 1987.

2. On October 1, 1986 the Department sent a proof due notice to the permit holder.

3. On January 27, 1987 the Department sent a lapse notice to the permit holder since neither proof of beneficial use nor a request for extension of time had been received from the permit holder.

4. On June 25, 1987 Proof of Beneficial Use was received by the Department from the permit holder.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

MICROFILMED

MAR 14 1988

OF 65.

6. The permit holder submitted a diagram of the irrigation system used along with pictures taken of the area irrigated giving evidence that water has been beneficially used.

7. The permit holder has stated that the notices of the Department were delayed in reaching the permit holder because of being out of the state.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establish that water was in fact beneficially used.

2. The permit holder has shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 65-12467 is reinstated.

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to June 25, 1987.

RE: LICENSING AMENDMENT FOR PERMIT NO. 65-12467

Dear Mr. Wade:

We received the signed licensing amendment for the above referenced permit; however, the $20.00 filing fee for the amendment was not enclosed. For your reference, I will enclose copies of the original amendment notice letters sent to the permit owners of record.

When a water right is in permit stage, it is classified as personal property; therefore, when a change of ownership occurs, it must be assigned to the new owner. Since we have no record of an assignment having been done, the license will be issued in the name of Fred and Martha Kopke. However, I will enclose an assignment form if the they are willing to assign the water right to you. If that is accomplished, we will issue the license in your name.

In Idaho, a licensed water right is considered real property; therefore, proof of owning the land is proof of owning the water right unless specifically excluded in the sale.

No further action will be done for 30 days to give you a chance to get the (notarized) assignment completed and to return the $20.00 amendment filing fee. Since I am the person responsible for the review procedure, please send the check and the assignment to my attention to help expedite the process.

Thank you for your assistance and if you have any questions, please contact me.

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Pressure gauge w/ pitot						
5 gal. bucket & stopwatch						

2. **Measurements:**

2 garden hoses at 5 gal/33 sec. each.

3 Nelson Beta II, 1/8" nozzle sprinklers, psi = 40, 48, 40

2 Rainbird, 1/8" nozzle (no model #) sprinklers, psi = 48, 48

1 Nelson Lasa sprinkler (circular base), best fit is Universal #25 with 40' radius (yields 4.40 gpm @ 40 psi.) measured 45 psi.

BEST FIT: Rainbird nos. 29 with 1/8" nozzles, $\bar{x}$ psi = 44.8, gpm = 3.04

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:
   a) Hoses: $2\left(\frac{60}{33} \times 5\right) = 18.18$ gpm
   b) circular base sprinkler: Assume .11 gpm per 1.0 psi $\left(\frac{4.40 \text{ gpm}}{40 \text{ psi}}\right)$, then 45 psi = 4.95 gpm
   c) 5 other sprinklers: $5 \times 3.04 = 15.20$ gpm
   d) TOTAL $18.18 + 4.95 + 15.2 = 38.33$ gpm $= .0854 = .09$ cfs

2. Alternate Method for Checking Purposes:
   Best Available is HP eq. assuming Z ≤ 31' (no well log, no info. from owner)

$$Q = \frac{(8.8)(1.8)(1)}{(2.31)(45)+30} = \frac{7.04}{167.14} = .04 \text{ cfs}$$

, probably significantly higher (lower Z value) since well is in bottomland near major creek

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.}$ = (Acres Irrigated) x (Irrigation Requirement) = (2)(3.0) = 6.0

$V_{D.R.}$ = [Diversion Rate (cfs)] x (Days in Irrigation Season) x 1.9835 = (.06)(183)(1.9835) = 21.8

V = Smaller of $V_{I.R.}$ and $V_{D.R.}$ = 6.0

REINSTATEMENT REVIEW

Permit No. 65-12467

Proof due: January 1, 1987
Proof received: June 25, 1987 (previously received on 3/2/87, but returned for fee, which was sent on 6/25/87, therefore 6/25/87 will have to be new priority date)
Proof letter sent: October 1, 1986
Lapse letter sent: January 27, 1987

Supporting documentation:

Drawn diagram of irrigation system used
Pictures taken 7/23/87 according to permit holder in letter of 7/28/87

Field examination has been made and the field report is in the file, examination was conducted because region knew that fee had been received and had found out that a reinstatement order was being processed, so while in the area for another exam, they made this one

Reason for submitting proof late:

As stated in Rita Fleck's conversation memo of 6/22/87, the permit holders were out of state in the time period that notices were sent. They did originally submit proof on 3/2/87, but it was returned for the fee and this letter was also late in receiving a response due to the same reason stated above.

Exam fee submitted: $50.00

Re: Permit # 65-12467

Dear Mr. Johnson

The following information describes the water use on the property:

The irrigation system consisting of 5 fixed rainbird heads plus 2 hosebibs and portable rainbird heads was installed in June of 1984. This system is used to water 2 fruit trees a strawberry bed, and numerous shrubs and flowers. It also provides fire protection by keeping an area around our house from drying out.

At present, we are watering approximately one acre and in addition using domestic water for our 3 bedroom, 2 bath home from the well which is rated at 25 gallons per minute.

My husband was and is still working in San Diego, CA. I was with him in San Diego during the period for final proof. Our records were here in Idaho and mail reached us slowly due to forwarding process.

This system has been in continuous use since 1984 by us and by our tenant in 1986 until I returned in the spring of 1987. Please accept the enclosed diagram and pictures taken on July 23 1987 as proof of our beneficial use.

Very truly yours,

Martha B. Kopke

Dear Permit Holder(s):

The Department received your proof of beneficial use statement for the above referenced permit on March 2, 1987. The permit lapsed January 1, 1987, so the 60-day late period during which the permit can be readily reinstated has passed.

Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can now be reinstated only if you submit the following:

a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date. Besides any other supporting documentation you may submit, dated aerial photos should definitely be submitted to show the extent of use of water for irrigation purposes.

b) Reasonable cause why the proof of beneficial use was filed late.

Your proof of beneficial use statement together with any information which may have been submitted with it will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

Please feel free to contact this office if you have additional questions.
