RE: Change in Ownership for Decreed Water Rights 65-10581 & 65-10582

Dear Mr. Opdahl:

The Department of Water Resources acknowledges receipt of the additional information you submitted in support of your Notice of Change in Water Right Ownership filed on March 26, 2001 for the water right no(s) referenced above. The Snake River Basin Adjudication (SRBA) Court issued a partial decree describing the water right(s) with a place of use different than your property as described in the documentation you originally submitted. We have reviewed your additional information and found that it is not sufficient to resolve the place of use discrepancy.

In order to process your change in ownership, we need documentation to show that you own the water right(s) or the property described as the place of use for the water right(s). If you believe that the SRBA Court issued the partial decree(s) with an error in the description of the place of use, you may be able pursue one of the following options with the Court.

- 1) Motion to set-aside – a motion filed with the SRBA Court which, if granted, would provide a process to correct the partial decree. You would need to provide justification for the correction.
- 2) Motion to file late claim – a motion filed with the SRBA Court which, if granted, would allow you to file a new claim for your existing water use. A late claim would be investigated for validity and accuracy by the Department.

Please contact **Danni Smith** of this office at **208-287-4910** if you have questions related to the SRBA. Ms. Smith can assist you with the SRBA Court's processes.

As additional alternatives, you could pursue one of the following options with the Department.

- 1) New Appropriation – an application for permit filed with the Department to develop a new water right. If a permit is approved, the priority date is the date that the application is filed. Some areas of the state are closed to new development. Please note that a water right permit is not required for certain domestic uses from a ground water source.
- 2) Water Right Transfer – an application filed with the Department to change an existing water right. In this case, the purpose of the transfer would be to change the place of use (and possibly the point of diversion) to your property description. You would need to provide evidence of ownership or authorization from the current owner of record before the Department could process the application.

If you choose to file an application for permit or transfer with the Department, you may be able to apply any fees submitted with your Notice of Change in Water Right Ownership to the application. Please contact staff from the Water Right Permits section of this office if you have additional questions related to the applications described above.

Please let us know within **30 days** how you plan to proceed. If we do not hear from you within 30 days we will return your Notice of Change in Water Right Ownership and all attachments and refund any fees submitted with your notice.

Sincerely,

Kari Lynn Townsend
Secretary

RE: Change in Ownership for Decreed Water Rights 65-10581/65-10582

Dear Mr. Opdahl:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership. Our review of your notice indicates that additional information is required before we can process the change. The information required is indicated below:

✓ **Filing Fee of \$25 per water right**

During our review of the documentation you submitted we found some discrepancies between that documentation and the legal description of the place of use for the water right(s) indicated in your notice. We contacted the Payette County Assessor's office to verify the legal description as shown on your deed. Their records indicate this property description as Township 9N, Range 5W, Section 22, SWNE. Our records show the same township, range and section, however they indicate NESW as the quarter-quarter designation. I have enclosed a copy of the decreed water rights for your reference. We will need to have matching legal descriptions in order to process your request.

Effective July 1, 2000, the legislature enacted House Bill No. 545 requiring a filing fee for a change in water right ownership. The fee is \$25 per water right, except for ownership changes resulting in the division of a water right, which is \$100 per water right. All ownership change notices received after June 30, 2000 must include the appropriate filing fees in order to be processed. We have determined that the filing fee for your notice will be \$50.00.

Because the Department cannot process the ownership change without proper documentation and fees, we will hold any action on your notice pending receipt of the necessary information and fees. If we do not receive the necessary information and fees within 30 days we will return your notice and all attachments and your notice will not be processed.

Please note that water right owners are required to report any change in water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office

of the Department or visit the Department's homepage (<http://www.idwr.state.id.us>) on the Internet to obtain the proper forms and instructions.

If you have any questions regarding this matter, please call me at 208-327-7941.

Dear Mr. Schulte:

I was requested by James Opdahl to forward to you a copy of the Deed showing transfer of title. I understand the water right filing I sent to you was an older one and has been hard to track.

Hopefully, this will help you. If I can be of any further assistance, please do not hesitate to call me.

Sincerely,

  
Melissa Rohm
