Dear Sirs:

We have been using the water from School House gulch since 1981.

When the creek dried up we've been laying a temporary pipe up the creek to catch the last seeps before the creek completely dries up. We contacted BLM about a water storage reservoir and were denied permission because of environmental issues.

We catch the water as it comes through the driveway culvert from April until July when the water fails.

BLM has given us a "Casual Use" right of way for laying ^{small} pipe up the creek. Mike Berch 334-1582 gave us the "Casual Use" right of way. So this is about all we can do as far as ~~the~~ our use of the water in School House Gulch is

concerned.

We don't know what the next step in completing the water right would be but it looks like this is all they will let us have.

Reply Re: 2000

Dear Mr. Sherrets:

The Department is in receipt of your letter dated August 11, 1981, concerning the above numbered water right filings. Section 42-203 Idaho Code specifies that each water right filing be advertised for 2 consecutive weeks and that any protests against the granting of the water right be filed within 10 days of the last advertisement. The final date for submitting protests against files No. 03-7031 and No. 69-7031 was June 29, 1981. The final date for submitting a protest against file No. 65-12438 was August 10, 1981. Since your letter was received on August 12, 1981, it cannot be considered as a protest against any of these water right filings.

The granting of these water rights does not, however, grant an easement across lands not owned by the applicant. The applicants will, therefore, need to obtain rights-of-way from the Bureau of Land Management, which will offer an opportunity for your agency to evaluate these projects.

If I can provide you with any additional information, please feel free to contact this office.

Yours truly,

David B. Shaw

Delbert L. &/or Velma M. Coulter
Garden Valley,
Idaho 83622

Dear Mr. and Mrs. Coulter:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

The exercise of this permit may also be affected by the Supreme Court's review of the case of Idaho Power Company vs. State of Idaho, et al., Ada County Civil No. 62237, currently being appealed to the Supreme Court of Idaho. Since the use of water under your permit may affect the flows in the Snake River between Milner Dam and Hells Canyon the final decision in this case may determine to what extent the exercise of your permit is subject to water rights of Idaho Power. While the Supreme Court is reviewing this case, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or subsequent license.

We have enclosed a form entitled "Making Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
