The well and shop are operating under a new owner. The owner doesn't own any stock in the orchards, so the other water users asked for in the permit have been abandoned.

Enclosed is my Proof of Beneficial Use form for my project in Emmett. You will note that it is for a reduced acreage and uses. I did not develop as many acres as I originally expected, and I did not develop the greenhouse project.

If there is anything incomplete about this filing, please consider this as a request for an extension of time. I will return January 5, when I can be in contact with you.

Dear Mr. Walker:

PROOF DUE NOTICE

RE: PERMIT NO. 65-12422

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time provided the delay is for reasonable cause as described in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

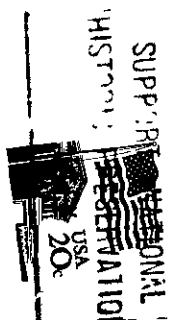

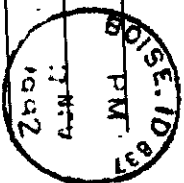

Sincerely,

RITA I. FLECK

RE:

I received a call from Mr. Walker on Sept. 30, 1986 concerning the status of his extension.

I asked Mr. Walker the extent of uses. The Permit is for irrigation; which is the only use addressed in the extension form; heating, commercial and domestic.

The domestic use has been completed, however, he has abandoned the idea of developing heating and commercial uses.

Based on this information and the information on the extension form I recommend the Dept. grant approval of the extension for 3 yrs.
