RE: Lake Reservoir Company

Dear Lou:

As we discussed by phone on January 20, I am sending you the most recent letters dealing with the Lake Reservoir protests of water right filings on Big Payette Lake.

The agreement which I believe everyone concurs with is outlined in my letter of November 4, 1980 to you and modified by my letter of November 13, 1980 to Bob Henggeler. If this procedure is acceptable to you, all that is necessary to implement is to withdraw your protests against the outstanding applications to divert water from Big Payette Lake on file with this department. If you do not concur with the agreement as outlined, please contact me so a suitable agreement can be prepared.

If the agreement is acceptable and you concur with withdrawing the protests against application for permit numbers 65-7973, 65-12088, 65-12089, 65-12091, 65-12294, 65-12338, 65-12339, 65-12342, 65-12348, 65-12354 and 65-12363, then please sign the lower portion of this letter and return to this office. There is an additional copy of the letter enclosed for your records.

If you have any questions, please contact me so we can get this matter resolved.

Yours truly,

DAVID B. SHAW

Lake Reservoir Company

Payette, Idaho

Dear Sirs:

I request that you reconsider the protest against the application I made for a water right in Mo Call.

The reasons are as follows:

1. Since the spring is at least $\frac{1}{2}$ mile from the Payette Lake and there is no overland water flow, I do not believe the lake would be affected.
2. The spring does have sufficient water supply for the purposes intended. The water is NOT to be used for a commercial development, but merely for 2 families homes.
3. It is my sincere feeling that granting this permit will in NO WAY conflict with local public interest.

I do thank you for your consideration and I implore you to withdraw your protest. Please, please.

Sincerely,

Dear Sir:

I have been instructed to submit a protest against the granting of the permit to appropriate .04 Cu. Ft. per sec. of water from Payette Lake, pursuant to the notice of application.

It is realized the application is "subject to all prior water rights" but lake Reservoir is concerned about question of priority use and complication that might possibly arise from numerous pumps and pipes in Payette, Lake.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter, return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Examination Fee Notice

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is available from the department upon request. A listing of certified water right examiners is also available.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The license examination fee schedule, on the back of the enclosed information sheet, shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be returned to this office. If you have questions or concerns please feel free to call at (208) 334-2190, or to visit the office at our new location near the airport, at 2735 Airport Way.

Dear Mr. Helmick,

RE: Permit No. 65-12363

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Please be advised that there is insufficient natural flow available in the springs and tributaries to provide water for a new appropriation throughout the entire season of use. During the spring run-off each year, there may be a period of time in which the prior rights to the use of the natural flow and storage are filled leaving water available for your permit. As the natural flow diminishes, however, there may be no water available for your right unless you arrange for an additional source of water as a supplemental supply.

We have enclosed a form entitled "Making Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.
