Department of Water Resources

Dear Sir,

Department of Water Resources
Western Regional Office

This letter is to protest the granting of permit 65-12307 as advertised in the Messenger-Index, March 26, 1980. I called the office regarding this permit and they told me to file a written protest with you. I have purchased the Charles Rebon property between Sunset Dr. and the Payette River which has four permits or licenses for irrigation purposes. One license is Han Creek dated 1890. I understand this is the original water right on Han-Creek. Mr. Rebon informs me that the water fluctuates widely from day to day making it difficult to irrigate. Many tracts of land along Han-Creek are being divided up opening up the possibility of more portable pumps being operated, thus increasing our problems irrigating a large tract of ground. We feel the rights of the original water right holders should be upheld until such time as it can be proven that sufficient water exists before issuing new permits.

MICROFILMED

Until further information is provided
to us concerning this permit we
are opposed to its issuance.

Thank you for your consideration.

Yours truly

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and then the fee is needed for the department to conduct the field examination, but you may change to another certified examiner.

JUL 08 1987

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

RE: PERMIT NO. 65-12307

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

PLEASE BE ADVISED THAT THERE IS INSUFFICIENT NATURAL FLOW AVAILABLE IN THE WASTE WATER AND TRIBUTARIES TO PROVIDE WATER FOR A NEW APPROPRIATION THROUGHOUT THE ENTIRE SEASON OF USE. DURING THE SPRING RUN-OFF EACH YEAR, THERE MAY BE A PERIOD OF TIME IN WHICH THE PRIOR RIGHTS TO THE USE OF THE NATURAL FLOW AND STORAGE ARE FILLED LEAVING WATER AVAILABLE FOR YOUR PERMIT. AS THE NATURAL FLOW DIMINISHES, HOWEVER, THERE MAY BE NO WATER AVAILABLE FOR YOUR RIGHT UNLESS YOU ARRANGE FOR AN ADDITIONAL SOURCE OF WATER AS A SUPPLEMENTAL SUPPLY.

THE EXERCISE OF THIS PERMIT MAY ALSO BE AFFECTED BY THE COURT'S DETERMINATION OF WATER RIGHTS IN THE CASE OF IDAHO POWER COMPANY V. STATE OF IDAHO, ET AL., CIVIC NO. 62237, CURRENTLY PENDING BEFORE THE DISTRICT COURT OF ADA COUNTY. SINCE THE USE OF WATER UNDER YOUR PERMIT MAY AFFECT THE FLOWS IN THE SNAKE RIVER BETWEEN MILNER DAM AND HELLS CANYON, THE FINAL DECISION IN THIS CASE MAY DETERMINE TO WHAT EXTENT THE EXERCISE OF YOUR PERMIT IS SUBJECT TO WATER RIGHTS OF IDAHO POWER. WHILE THE ADA COUNTY COURT IS EXAMINING THIS QUESTION, IDAHO POWER COMPANY HAS NOT FILED A SPECIFIC PROTEST TO YOUR PERMIT. HOWEVER, THE DEPARTMENT OF WATER RESOURCES HAS BEEN ADVISED THAT THE POWER COMPANY IS NOT WAIVING ANY OF ITS RIGHTS TO CONTEST OR LIMIT THE EXERCISE OF YOUR PERMIT OR SUBSEQUENT LICENSE.

IN THE MATTER OF PROTEST AGAINST APPROVAL)
)
OF THE APPLICATION FOR PERMIT NO. 65-12307)
)
IN THE NAME OF MURTON &/OR MARY PERKEL)
)

On February 2, 1980, Murton &/or Mary Perkel filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On April 3, 1980, the Department received a protest against approval of said application from John H. Kienitz.

The Department has set the matter of protest for conference and/or hearing for Thursday, August 7, 1980, at 9:00 a.m., in the Gem County Courthouse, Emmett, Idaho. Any hearing will be held in accordance with provisions of Chapter 2, Title 42, and Chapter 52, Title 67, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

In accordance with Idaho Code, Section 42-2-3, the following issues are involved in the consideration of the application and protest:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicatn sufficient finanacial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes at the expense of the requesting party. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

RECEIVED

If the hearing is conducted by a hearing officer appointed by the Director, rather than the Director himself, a proposed decision will be submitted to the parties and the parties will be afforded an opportunity to file exceptions to the proposed decision and present briefs and oral arguments to the Director prior to the issuance of a final decision by the Director. This procedure is required by Idaho Code, Section 67-5211.

By written stipulation, the parties may waive compliance with Idaho Code, Section 67-5211. If the hearing is conducted by a hearing officer, the hearing officer will ask the parties at the close of the hearing whether they would like to make such a stipulation.

Failure to waive compliance with Idaho Code, Section 67-5211 will not prejudice the Director's review of a party's evidence and arguments. However, such a waiver will shorten the decision-making process and may expedite substantially the issuance of a final decision. Whether compliance with Section 67-5211 is waived will not affect a party's right to petition for a rehearing of the final decision pursuant to Rule 11 of the Department's Rules of Practice and Procedure or affect a party's right to appeal the final decision to the District Court.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department to dismiss without prejudice the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 28 day of July, 1980.

RE: Application for Permit No. 65-12307
In the name of Murton &/or Mary Perkel

Dear Mr. Kienitz:

Mr. & Mrs. Perkel and her father were in my office to discuss their application for wastewater tributary to Haw Creek, which you have protested.

The application is for an existing system that was originally installed by Mr. Wayne Hackett in the period of 1943 to 1948. I do not know why Mr. Hackett did not file an adjudication claim for this water use as a part of the Payette Adjudication.

I have inspected the system in the field and have found the existing system to be substantially as it is described in the application. The use is an existing use and would not further reduce the amount of water available in Haw Creek. Also, as we discussed before, the use is above the ponds owned by David Little. As I recall, Haw Creek is dry during most of the summer months below the ponds.

If this information will allow you to withdraw your protest, please advise me in writing. If you do not wish to withdraw your protest, I will plan to schedule a conference and/or hearing this summer.

If you have any questions or would like to discuss the application, please feel free to contact this office.

Yours truly,

DAVID B. SHAW
Western Region Supervisor

Mr. & Mrs. Perkel and her father were in the office and explained this filing is for an existing use of overflow from artesian wells. The wells are on the Radant property and are covered by 65-1999.

This property, previously owned by Wayne Hackett, has other filings but none on the artesian overflow (wastewater)

According to Mrs Perkel's father the system to use the wastewater has been in for many years and the attempt now is to have it recorded. They realize the filing will have a 2/25/80 priority date.

Field inspected on 6/5/80
