ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 65-12290, and said application is hereby approved.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 86.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: The issuance of this permit in no way grants any right-of-way or easement across the land of another. (2) Use of water under this permit is subject to control by the watermaster of State Water District # 65, Payette River. (3) Water used under this permit if discharged into a natural channel shall meet Idaho Water Quality Standards.

Witness my hand this 7th day of May, 19 81.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

CURRENTLY WATER IS GOTTEN BY USING EXISTING GREENHOUSE DIVERSION, BUT PERMIT IS WORDED SO COULD GO DIRECTLY TO SPRING AND GET WATER IF HAD EASEMENTS TO DO SO

AS DIAGRAM SHOWS THERE ARE 6 NEIGHBORS ON THE SYSTEM ALL WITH SEPERATE PERMITS.

THE MAXIMUM THE SYSTEM CAN HANDLE IS .03 cfs FOR RECOMMENDED AMT. LICENSING IS .03 cfs FOR EACH BUT BOTH ADDED UP NOT TO EXCEED .03 cfs.

I. RECOMMENDATIONS

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

RECEIVED

JUL 08 1987

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Re: Protested Applications for Permit Nos. 65-12289,
65-12290, 65-12291, 65-12292, and 65-12293

Dear Mr. Shaw:

This is to confirm our telephone conversation of April 13, 1981, at which time we indicated that, based upon the assumption that the parties have reached an agreement in principal for the settlement of the Boise County case of Ward v. Garden Valley Investors, wherein our clients had challenged the water rights of Mr. Ward from which the applicants seek to derive their discharge water, our clients do not intend to proceed with their protests of the above-referenced applications, and said protests are hereby withdrawn. In the event that the Ward v. Garden Valley Investors litigation is not in fact settled, then we would reserve the right to pursue the challenge to Mr. Ward's water rights.

This will also confirm that you have cancelled the hearings set for April 14, 1981, at 1:30 p.m., and that no appearance will be necessary by either the applicants or the protestants.

Thank you very much for your cooperation.

Very truly yours,

IN THE MATTER OF PROTEST AGAINST APPROVAL)	
OF THE APPLICATION FOR PERMIT NO. 65-12290)	NOTICE OF CONFERENCE
IN THE NAME OF JOHN J. OR ANNA LOU WILDER)	AND/OR HEARING
_____)	

On November 23, 1979, John J. and Anna Lou Wilder filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On December 20, 1979, the Department received a protest against approval of said application from James R. Gillespie, on behalf of Terraco and Garden Valley Associates.

The Department has set the matter of protest for conference and/or hearing for Tuesday, April 14, 1981, at 1:30 p.m., in the Water Resources Conference Room, Second Floor, Towers Building, 450 W. State Street, Boise, Idaho. This hearing will be held concurrently with hearings for protested application Numbers 65-12289, 65-12291, 65-12292 and 65-12293. Any hearing will be held in accordance with provisions of Chapter 17, Title 42, and Chapter 52, Title 67, of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

In accordance with Idaho Code, Section 42-203, the following issues are involved in the consideration of the application and protest:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes at the expense of the requesting party. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

MICROFILMED

JUL 08 1981

If the hearing is conducted by a hearing officer appointed by the Director, rather than the Director himself, a proposed decision will be submitted to the parties and the parties will be afforded an opportunity to file exceptions to the proposed decision and present briefs and oral arguments to the Director prior to the issuance of a final decision by the Director. This procedure is required by Idaho Code, Section 67-5211.

By written stipulation, the parties may waive compliance with Idaho Code, Section 67-5211. If the hearing is conducted by a hearing officer, the hearing officer will ask the parties at the close of the hearing whether they would like to make such a stipulation.

Failure to waive compliance with Idaho Code, Section 67-5211 will not prejudice the Director's review of a party's evidence and arguments. However, such a waiver will shorten the decision-making process and may expedite substantially the issuance of a final decision. Whether compliance with Section 67-5211 is waived will not affect a party's right to petition for a rehearing of the final decision pursuant to Rule 11 of the Department's Rules of Practice and Procedure or affect a party's right to appeal the final decision to the District Court.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department to dismiss without prejudice the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 24th day of March, 1981.

Dear Mr. Gillespie:

It has been some time since the Department received any information about the progress of the litigation between Mr. Ward and Tereco and Garden Valley Associates. You had indicated earlier that the litigation could affect the outcome of the protests of the above numbered applications.

Would you please advise me at your earliest convenience of the status of that litigation as it affects the above numbered application for water rights.

Forrest and I talked with Mr. Kliess Brown on 4/8/80 regarding the above filings. Mr. Brown is the ramrod, so to speak, of a project to utilize the hot water overflows of the greenhouses operated by Earl Ward.

Mr. Brown's plan (see drawing of system) is to pipe the overflow of hot water (108° F) to the cabins of the above applicants and also his own. He already has an approved permit to utilize this water (65-12123). Mr. Brown believes there is enough water to adequately heat several cabins.

Mr. Ward is receptive to the plan and is willing to allow an easement on to his property for an annual fee. Brown and his neighbors would share the cost of installing the pipelines and maintaining the system.

We discussed briefly the problems that could arise if Mr. Ward was to modify his greenhouse operation by using less water or increasing the water use to benefit their system.

RE: Application for Permit No. 65-12290

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to your Application No. 65-12290. The Department suggests you contact the protestant(s) directly in an effort to determine the nature of the protest(s) and to attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Yours truly,

DAVID B. SHAW
Western Regional Supervisor

RE: Application for Permit Nos. 65-12289, 65-12290, 65-12291, 65-12292 & 65-12293

Dear Mr. Gillespie:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference and/or hearing. At such a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Yours truly,

Re: Application for Water Right No. 65-12290
PROTEST

Dear Sir:

Please be advised that this law firm represents Terraco, an Idaho partnership, and Garden Valley Associates, an Idaho partnership.

In that capacity, we hereby file our Notice of Protest, on behalf of Terraco and Garden Valley Associates, to the above-referenced Application for Water Right No. 65-12290, filed by John J. and/or Anna Lou Wilder, for the reason that the water which they are seeking to appropriate has been previously appropriated; therefore, they are not legally entitled to this water.

We hereby request that copies of all further notices and/or date of hearing on all objections be forwarded to the undersigned.

Yours very truly,

James R. Gillespie
