Gentlemen:

Re: Permit No. 65-12247

Enclosed is copy of the proof of beneficial use form submitted to this office on May 30, 1985 along with a copy of the water right permit. Note the discrepancy in the extent of use. The permit indicates that water from springs will be used for stockwatering of 300 head of beef cattle and the proof indicates that water from springs will be used for irrigation of 8 acres.

If the intent of the permit has changed from stockwater to irrigation, the Idaho Code provides for a way to change the nature of use by submitting an application for amendment. This amendment can be completed by our field examiner at the time of the field exam, however, I do need to know if this permit falls under this situation.

Please advise me of the status of this permit either by writing to the department or by a telephone call. If you have any questions, please feel free to contact this office.
