Dear Mr. & Mrs. Carter,

A representative of this Department has made an examination of the works covered by your Permit No. 65-12186, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: .02 cfs Source: Middle Fork Payette River

The maximum quantity diverted shall not exceed 1.2 acre feet per year.

Point(s) of diversion: SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, Twp. 10N, Rge. 4E, B.M.

Beneficial use: Domestic use of 1 unit within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, Twp. 10N, Rge. 4E.

Priority date established: November 15, 1978

Conditions (if any): Use of water under this license is subject to control by the watermaster of State Water District No. 65, Payette River.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

Dear Mr. and Mrs. Carter:

Your approved copy of your Application for Permit is enclosed and we direct your attention to the conditions of approval on the fourth page.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Dear Mr. and Mrs. Carter:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval as listed on the fourth page.

Please be advised that there is insufficient natural flow available in the Payette River and tributaries to provide water for a new appropriation throughout the entire season of use.

During the spring run-off each year, there may be a period of time in which the prior rights to the use of the natural flow and storage are filled leaving water available for your later-in-time permit. As the natural flow diminishes, however, there would be no water available for your right unless you had arranged for an additional source of water as a supplemental supply.

This information is provided so that you will not be mislead into thinking that this permit will provide sufficient water through the entire season of use. If you have any questions regarding this matter, please feel free to contact this office.

Sincerely,

L. GLEN SAXTON
