Dear Mr. Blakeley:

I conducted a re-examination on the permits 65-12182 and 65-12183 which cover the City Airport.

In the re-examination, I found that the two wells which had been used to irrigate the golf course in the past were not in use any longer and the pump and motor taken out. The caretaker, George, informed us that the only irrigation being used was from a pump placed in the pond adjacent to the course.

Therefore, as in our previous recommendation, we propose to change both permits' point of diversion to the point from the pond and list 15 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 14 on permit No. 65-12182 and 15 acres in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 14 on permit No. 65-12183.

There had been in the past claims filed for the wells that did irrigate the golf course at one time. However, since the date of priority, January 1, 1965, was after the date allowed for filing claims on a groundwater source (March, 1963), the new applications had to be filed. Since the wells are not now being used for irrigation and the pond is, the license will reflect the water right as being solely out of the pond and the wells will no longer have a water right connected to them. The small domestic well for the clubhouse, hanger and trailer has been examined and a license will be issued.

If you have any questions or disagree with our findings, please contact me. If I do not hear from you in 10 days, I will submit the recommendations for licensing.

Sincerely,

JAN GROVER

Re: Permit No.'s 65-12182, 65-12183, & 65-12184

City of Emmett

Gentlemen:

Copies of your approved Applications for Permit are enclosed and we direct your attention to the conditions of approval on the fourth pages.

The exercise of these permits may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permits may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permits may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit. However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau
