WATER RIGHT LICENSE

License of Water Right No. 65-12126 Priority May 12, 1978 Amount 20.0 cfs

THIS IS TO CERTIFY, that State of Idaho, Dept. of Fish and Game
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 65-12126 issued pursuant to Application for Permit dated May 12, 1978,
and has submitted proof to the Department of Water Resources on May 8, 1980,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 22.11 cfs of water from Big Payette Lake,
tributary to Payette River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Fish	from <u>January 1</u> to <u>December 31</u>	at <u>20.0</u> cfs and	<u>n/a</u>
Propagation	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 20.0 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
n/a acre feet per year, said waters to be diverted within the Government Lot 4 (SE 1/4 SW 1/4),
Section 8, Twp. 18N, Rge. 3E in the County of Valley

Description and location of place of use:

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
18N	3E	8												GL 4 X					

Total number of acres irrigated _____

Facility Volume = 1.4 acre feet.

Use of water under this license is subject to control by the watermaster of
State Water District No. 65, Payette River.

Return water shall be treated to insure that the effluent meets Idaho Water
Quality Standards.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, and is subject to all prior water rights, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 4th day of

April, 19 83.

Director

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF REMOVAL OF THE MEASURING
DEVICE REQUIREMENT ON PERMIT NO. 65-12126
IN THE NAME OF IDAHO DEPT. OF FISH AND GAME

ORDER

WHEREAS, on May 12, 1978, the Idaho Department of Fish and Game applied to the Department of Water Resources for a permit to appropriate 20.00 cubic feet per second of water from Big Payette Lake to be diverted within Government Lot 4, Sec. 8, Twp. 18N, Rge. 3E B.M., Valley County, to be used for fish propagation; and,

WHEREAS, on June 26, 1978, the Department approved the permit with the condition that "measuring devices of a type approved by this Department shall (be) permanently installed and maintained at both the inlet and outlet works"; and,

WHEREAS, on August 21, 1980, the Department received a request for the removal of the measuring device requirement for the outlet works; and,

WHEREAS, it has been determined that although measurement at both the inlet and outlet works is not required at this time, there may be a need for both measuring devices in the future;

IT IS, THEREFORE, HEREBY ORDERED that the request for removal of the measuring device requirement for the outlet works be and is APPROVED, subject to the condition that the Director may require the installation of the device if a water distribution problem becomes evident in the future.

Dated this 9th day of September, 1980.

proof of beneficial use on a water right permit

MAY 24 1979

Department of Water Resources

Idaho Department of Fish and Game of P. O. Box 25 Boise
(Name) (Address)

State of Idaho, deposes and says:

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Waters of the State of Idaho No. 65-12126.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before July 1, 19 79.

That he has heretofore performed the following work described under said permit: Construction and installation of pipeline and diverting works from point of diversion to the place of use.

Costing \$ _____

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: The construction of the diverting works and construction of a fish hatchery (the place of use) is under contract and is not due to be completed until the fall of 1979. The diverting works will probably not be put into use until sometime later.

Wherefore, he asks that the Department of Water Resources extend the time for the completion of obligations under said permit to May 1, 19 80.

IDAHO DEPARTMENT OF FISH AND GAME

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 65-12126, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 19 79.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Measuring devices of a type approved by this Department shall permanently installed and maintained at both the inlet and outlet works.

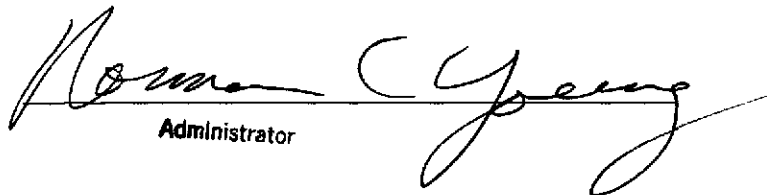

Use of water under this permit is subject to control by the watermaster of State Water District No. 65, Payette River.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Return water shall be treated to insure that the effluent meets intrastate stream water quality standards.

The delivery and/or availability of water under this right may be affected by the agreement between Idaho Fish and Game and Lake Reservoir Company, dated 5/19/78

Witness my hand this 26th day of June, 1978.

RE: Permit No. 65-12226

State of Idaho, Dept. of Fish and Game
P.O. Box 25
Loise, ID 83707

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 65-12126, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 20.0 cfs Source: Payette Lake

The maximum quantity diverted shall not exceed 14,479.6 acre feet per year.

Point(s) of diversion: Gov. Lot 4(SE $\frac{1}{4}$ SW $\frac{1}{4}$), Sec. 8, Twp. 18N, Rge. 3E, Valley County

Beneficial use: Fish propagation use within the Gov. Lot 4(SE $\frac{1}{4}$ SW $\frac{1}{4}$), Sec. 8, Twp. 18N, Rge. 3E

Priority date established: May 12, 1970

Conditions (if any): 1) Use of water under this license is subject to control by the watermaster of State Water District No. 65, Payette River. 2) A measuring device of a type approved by this Department shall be maintained as a part of the diverting works. 3) see below

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

3) Return water shall be treated to insure that the effluent meets Idaho Water Quality Standards. 4) Facility volume = 1.43 AF.

August 18, 1980

RECEIVED

AUG 21 1980

Department of Water Resources

Mr. C. Stephen Allred, Director
Department of Water Resources
Statehouse Mail

Dear Steve:

With reference to Application for Permit No. 65-12126 to Appropriate the Public Waters of the State of Idaho, one of the conditions applied by the Department of Water Resources was to install water measuring devices at both the inlet and outlet works.

A water measuring device has been installed at the inlet works. Inasmuch as water flowing through the McCall Hatchery is a non-consumptive use, the installation of a water measuring device at the outlet works appears to be a duplication of measurement and an unnecessary expense.

It is, therefore, requested that the requirement of the installation of a water measuring device at the outlet works be waived.

Your favorable consideration of this matter will be greatly appreciated.

Sincerely,

DEPARTMENT OF FISH AND GAME

Gentlemen:

One of the conditions of approval of your water Permit No. 65-12126 was that evidence of the extent of development must be submitted to this office on or before July 1, 1980. (See last page of your approved permit). Enclosed is a post card which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.

Sincerely,

RITA FLECK

Statehouse Mail

Dear Steve:

We are in receipt of a letter dated May 1, 1979, regarding the pending approval of Permit No. 65-12126. This permit is for the appropriation of 20 c.f.s. of water to be utilized by the McCall Fish Hatchery, which is now under construction.

Proof of completion of works is due in your office by July 1, 1979. The construction project is under contract, and is not due to be completed until the fall of 1979. We do not expect that use of the diverting works will occur until sometime later. We, therefore, request an extension of time for completion of works, including the water measuring device, until May 1, 1980.

Thank you for your consideration.

RE: Application No. 65-12126 - Idaho Department of Fish & Game

L. Gorrone
Attorney at Law
P. O. Box 637
Emmett, ID 83617

Dear Mr. Gorrone:

This letter is in response to your letter of June 15, 1978. The Department of Water Resources has received a copy of the agreement between the Idaho Department of Fish & Game and Lakes Reservoir Company. That agreement has been included in the permanent file of the above numbered application.

The recommended conditions of approval for the above numbered application are that a measuring device must be installed and if a Payette River watermaster is ever appointed the diversion of water under this permit will be subject to the control of that watermaster. Additionally the permit states it does not grant right-of-way across the property of anyone else and that the availability and/or delivery of water under this permit may be affected by the agreement between the Idaho Department of Fish & Game and Lakes Reservoir Company.

I believe it is important to point out the permit granted by this Department will be for the appropriation of natural flow water when it is available and not for the appropriation of stored water owned by Lakes Reservoir Company. Further, the Department has no authority to enforce the agreement between the Idaho Department of Fish & Game and Lakes Reservoir Company except as it pertains to the appropriation of natural flow water from the Payette River.

If you have additional questions in this matter, please feel free to contact me.

Yours truly,

David B. Shaw
Western Regional Supervisor

June 15, 1978

Mr. David D. Shaw
Department of Water Resources
Western Region
92 South Cole Road
Boise, Idaho 83705

Dear Mr. Shaw:

In confirmation of our telephone conversation, your records reflect my letter of June 5, 1978, written in behalf of Lakes Reservoir Company in connection with water and storage rights in the Big Payette Lake and other lakes in said area.

After our conversation, it is my understanding, you have called the Idaho Fish and Game and they are sending you a copy of the agreement with Lakes Reservoir. We wish to coordinate this matter, in every detail, with your department, so there is no question about the interpretation of the agreement made between the Idaho Fish and Game and Lakes Reservoir. We further request that any permits issued to the Idaho Department of Fish and Game be made subject to and conditional upon compliance with the agreement made between the State of Idaho, Department of Fish and Game and Lakes Reservoir relating to storage and water rights in the Big Payette and related lakes area.

Thank you for your attention to this matter.

Very truly yours,

L. Gorrone

Re: Permit No. 65-12126

State of Idaho, Dept. of Fish and Game
P. O. Box 25
Boise, ID 83707

Gentlemen:

Enclosed is a copy of your approved Application for Permit No. 65-12126. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Please be advised that there is insufficient natural flow available in the Payette River and tributaries to provide water for a new appropriation throughout the entire irrigation season.

During the spring run-off each year, there may be a period of time in which the prior rights to the use of the natural flow and storage are filled leaving water available for your later-in-time permit. As the natural flow diminishes, however, there would be no water available for your right and unless you had arranged for an additional source of water to supplement the flow right, you may find that you have to cease irrigating in the middle of the season.

This information is provided so that you will not be mislead into thinking that this permit will provide sufficient water thru the entire irrigation season. If you have any questions regarding this matter, please feel free to contact this office.

Sincerely,

L. GLEN SAXTON

Re: Permit No. 65-12126

State of Idaho, Dept. of Fish and Game
P. O. Box 25
Boise, ID 83707

Gentlemen:

Your approved copy of Application for Permit No. 65-12126 is enclosed and we direct your attention to the conditions of approval on the fourth page.

Please note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. Enclosed is a letter describing the different types of measuring devices accepted by this Department.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit.

MICROFILMED

However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

4. The Department shall be liable for any structural damage or subsequent deterioration of the dam or other Company property which may directly result from the construction, operation and maintenance of said pipeline, surface inlet and mixing box.

5. The Department shall construct a six (6) foot chain link fence around said surface inlet and mixing box structure to deter unauthorized entrance to the facility. An entrance gate with lock will be installed in the fence, and keys will be issued to the Company's representatives and/or watermaster as requested by the Company. The Department shall be responsible for maintaining the security fences on both ends of the dam.

6. In the event that accumulated evidence indicates that water runoff will not be of sufficient quantity to fill Big Payette Lake, and therefore, fail to meet the irrigation storage requirements of the Company shareholders and also provide for the continual passage of twenty (20) cubic feet per second of water through the fish hatchery, the Company may at their discretion, upon two weeks written notification to the Department, require the Department to shut off all or a portion of the water to the hatchery after the first day of April of each year. In the event the Department fails to comply with said notification, the Company may, at its discretion, shut off all or a portion of the water to the hatchery free from any suits, claims or damages on the part of the Department.

7. When it is determined by the Company that sufficient water will be available to fill Big Payette Lake, the Company will allow the Department to resume diversion of a twenty (20) cubic feet per second flow of water through the hatchery.

8. The Company agrees to attempt to manage storage within Big Payette Lake in a manner that will allow the twenty (20) cubic feet per second of flow through the hatchery to be maintained from the end of the irrigation season until the first day of December of each year provided that such management will not result in a water shortage to the Company shareholders. However, the Company may release any remaining storage from the lake prior to December if necessary to prevent the stop logs from freezing in place.

9. The Company agrees to consider any reasonable alternatives to reductions in water flow, below twenty (20) cubic feet per second, through the hatchery provided that these alternatives do not jeopardize rights, privileges and interests of the Company.

10. Nothing in this Agreement shall be construed to prevent the Company from exercising their right to operate, construct, reconstruct and maintain their dam in such a manner as to store or release from storage water in Big Payette Lake, upper Payette Lake, Granite Lake and Box Lake at such times and for such duration as the Company determines to be in their best interest.

11. Upon notification by the Company, the Department agrees to pay the Company a pro-rata share of annual dam operation, reconstruction and maintenance costs. This pro-rata share shall be assessed on the basis of 20% of the total Company operation, reconstruction and maintenance costs for the Big Payette Lake, Box Lake, Granite Lake and Upper Payette Lake Reservoirs. Said share of costs to commence on the date water first flows through the hatchery. The operation, reconstruction and maintenance costs to the Department will be determined by the Company Board of Directors at the regularly scheduled budget meeting in October of each year. Payment shall become due and payable immediately following said budget meeting and shall become delinquent after January 1 of the succeeding year and be subject to an interest charge.

12. The Department agrees to reimburse the Company for any reasonable operation, construction, reconstruction and maintenance costs which may be accrued by the Company as a direct result of the twenty (20) cubic feet per second flow of water through the hatchery and/or the possible inconvenience of the new pipeline, surface inlet and mixing box structure. Said operation, reconstruction and maintenance costs shall be actual cost accrued in addition to those accrued under paragraph (11).

13. No variations in water flow through the hatchery shall be initiated by the Department without prior notification to and approval of the Company.

14. The Department agrees to indemnify, save harmless and defend the Company from any and all liability, claims, loss, costs, damage or expense arising by reason of any personal injury including death to any person or damage to any property of whatsoever ownership occurring in connection with the Department's use of the Company's water under the terms of this Agreement, and further, the Company does not assume any liability for injury or damage to persons or property incidental to or that may arise during and in consequence of the Department's activities provided for herein.

15. This agreement shall be binding upon the parties hereto, their successors and assigns and extend from the date first written above until terminated by mutual agreement.

16. This Agreement shall not be assigned by the Department without the written permission of the Company first had. Said written permission of the Company will not be unreasonably withheld.

17. All engineering plans and designs for construction, reconstruction, or maintenance of the pipeline, surface inlet and mixing box located on or immediately adjacent to Lardo Dam shall be approved by the Company prior to initiation of construction thereon by the Department. Any changes to approved plans shall also require prior written approval by the Company.

IN WITNESSETH WHEREOF, the parties hereto have caused this agreement to be executed, the day and year first above written.

Dear Dave:

We have received a copy of the application by the State of Idaho Department of Fish and Game, in connection with 20 cfs, Big Payette Lake, for fish propagation.

As your department knows, we have entered into a very specific agreement with Idaho Fish & Game concerning the use of the water and want to be sure any permits issued are subject to the written agreement made between Idaho Fish and Game and Lake Reservoir Co. This agreement was made in May, 1978, and should be made a part of the record if it has not already been done.

Very truly yours,

L. Gorrone

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due after allowing all just credits and that no part of the same has been paid."

(Signature of Claimant)

Please send the affidavit of publication and publication billing to this office before June 12, 1978.

Sincerely,

RITA FLECK
Secretary

Re: Application for Permit

Grant Christensen
Dept. of Fish & Game
P. O. Box 25
Boise, ID 83707

Dear Mr. Christensen:

We are returning the application for permit that you recently sent to us. The application must include a map in item 11. I have taken the liberty of partially completing a new application for you that includes a map and corrects legal description errors. If you agree with the application as I have filled it out, just have the director sign it and return it to us.

I have also enclosed a few of our new application forms for your future use. If I can be of further assistance, please contact me.

Sincerely,

BILL MACALLISTER
Water Resource Agent
