WATER RIGHT LICENSE

License of Water Right No. 65-12113 Priority April 19, 1978 Amount .90 cfs

THIS IS TO CERTIFY, that GOODWIN FARMS, INC.
of Sweet, Idaho, has complied with the terms and conditions of Permit
No. 65-12113 issued pursuant to Application for Permit dated April 19, 1978,
and has submitted proof to the Department of Water Resources on June 14, 1979,
that he has applied water to a beneficial use, an examination by the Department indicates that the works have a
capacity for the diversion of .90 cfs of water from Squaw Creek,
tributary to Payette River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows.

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>October 1</u> at <u>.90</u> cfs and <u>171.5</u> acre feet		
	from <u></u> to <u></u> at <u></u> cfs and <u></u>		
	from <u></u> to <u></u> at <u></u> cfs and <u></u>		

(both dates inclusive)

Subject, however, to the condition that no more than .90 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
171.5 acre feet per year, said waters to be diverted within the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 9,
Twp. 7N, Rge. 1E, B.M. in the County of Gem

Description and location of place of use:

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
7N	1E	9											3	24				22	49

Total number of acres irrigated 49

A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.

Use of water under this license is subject to control by the watermaster of State Water District No. 65, Payette River, or No. 65-A, Squaw Creek.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 30 day of
January, 19 81.

RE: Water Right No. 65-12113

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

Dear Sirs,

RE: License No. 65-12113

Enclosed is a copy of the Water Right License issued on the above referenced Permit.

Please be advised that one of the conditions of your permit was that a measuring device be installed as part of your diversion works. That requirement has been waived with issuance of the enclosed license. However, in the event that water supply shortages become a problem installation of measuring devices may be required.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

Dear Sirs,

A representative of this Department has made an examination of the works covered by your Permit No. 65-12113, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: .90 cfs Source: Squaw Creek

The maximum quantity diverted shall not exceed 171.5 acre feet per year.

Point(s) of diversion: SW $\frac{1}{4}$ SE $\frac{1}{4}$; SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 9, Twp. 7N, Rge. 1E, B.M.

Beneficial use: Irrigation of 49 acres within the S $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 9, Twp. 7N, Rge. 1E.

Priority date established: April 19, 1978

Conditions (if any): (1) A measuring device of a type approved by this Department shall be maintained as a part of the diverting works. (2) Use of water under this license is subject to control by the water-master of State Water District No. 65, Payette River.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JAN GROVER
JIM JOHNSON
Water Rights Supervisor

Attn: Mr. David R. Tutthill

Dear Mr. Tutthill:

In reference to Water Permit
No. 65-12113 for Goodwin Farms
Inc., Box 15 Sweet, Idaho 83670,
this is to inform you I have
decided to use a velocity
pressure meter to measure the
water diverted from Squaw
Creek.

Sincerely,

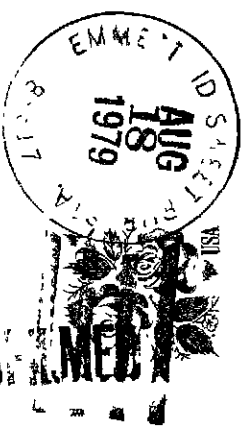

Kenneth W. Goodwin

Dear Mr. Goodwin:

We are in receipt of your statement of beneficial use for Permit No. 65-12113, with the attached request for waiver of the measuring device requirements.

After reviewing the matter thoroughly we have determined that the requirement for a measuring device cannot be rescinded since your diversion is within an active water district. I am aware that your diversion occurs at the lower end of Squaw Creek; however, to insure that sufficient 4-19-1978 priority water is provided to your system the watermaster must be able to measure your rate of diversion.

Since your system utilizes two points of diversion, and in-line propeller meters would be expensive, you may want to devise a system whereby the water is initially diverted from Squaw Creek by means of a gravity diversion that could be measured by a weir. The water may then collect in a sump pond which would be pumped through your sprinkler system. This is only one of several innovative schemes that could prevent the need for high cost meters. For your information a description of acceptable devices has been enclosed.

For purposes of perfecting your permit we have tentatively accepted your statement of beneficial use, although the conditions of the permit have not yet been met. To protect the permit from lapsing procedures, please inform this office no later than August 21, 1979 as to what type of measuring device has been installed. If you have any questions on this matter, please contact me.

Sincerely,

David R. Tuthill, Jr., P.E.
Supervisor, Water Allocation Section

Department of Water Resources

Gentlemen:

I request that the requirement of installing a permanent measuring device for permit no. 65-12113 be removed due to the small amount of water being diverted and also the points of diversion are at two different locations.

Sincerely,

Kenneth W. Goodwin

Gentlemen:

One of the conditions of approval of your water Permit No. 65-12112 was that evidence of the extent of development must be submitted to this office on or before July 1, 1979. (See last page of your approved permit). Enclosed is a post card which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.

Sincerely,

Rita Fleck

Re: Permit No. 65-12113

Goodwin Farms, Inc.

Box 15

Sweet, ID 83670

Gentlemen:

Enclosed is a copy of your approved Application for Permit No. 65-12113. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Please be advised that there is insufficient natural flow available in the Payette River and tributaries to provide water for a new appropriation throughout the entire irrigation season.

During the spring run-off each year, there may be a period of time in which the prior rights to the use of the natural flow and storage are filled leaving water available for your later-in-time permit. As the natural flow diminishes, however, there would be no water available for your right and unless you had arranged for an additional source of water to supplement the flow right, you may find that you have to cease irrigating in the middle of the season.

This information is provided so that you will not be misled into thinking that this permit will provide sufficient water thru the entire irrigation season. If you have any questions regarding this matter, please feel free to contact this office.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

Re: Permit No. 65-12113

Goodwin Farms, Inc.
Box 15
Sweet, ID 83670

Gentlemen:

Your approved copy of Application for Permit No. 65-12113 is enclosed and we direct your attention to the conditions of approval on the fourth page.

Please note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. Enclosed is a letter describing the different types of measuring devices accepted by this Department.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit.

RECEIVED
JUL 1 1978

However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau
