System Description (continued)

3. **Narrative:** Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc)

BURIED 8" CASING FOR 62' DEEP WELL SUPPLIES WATER THROUGH A 4" PIPE TO PROVIDE IRRIGATION FOR ATHLETIC FIELDS AT SCHOOL. 2 1/2 HP MOTOR & PUMP ARE APPROX. 6' FROM BURIED CASING. 4" DISCHARGE PIPE BRANCHES UNDERGROUND TO TWO 4" PIPES. THESE BURIED LINES RUN TO 5 RISERS, 2 ON ONE LINE & 3 ON THE OTHER. FROM RISERS 2 1/2" IRRIGATION PIPES CAN BE RUN TO FIELDS. RAINBIRD MODEL 20 AND NELSON MODEL F33 HEADS PROVIDE COVERAGE ON FIELDS. ALTHOUGH ALL 5 LINES CAN BE RUN SIMULTANEOUSLY, MR. DAVIS USUALLY RUNS A COMBINATION THAT EMPLOYS 35 HEADS OPERATING TOGETHER.

1. Measured Method. 1) $\bar{P} \text{ PSI} = \frac{62+56+58+60+58}{5} = 58.8$ 3) $5.39 \times 35 = 188.65 \text{ gpm}$
 2) RAINBIRD CHART 55 psi = 5.22 gpm 60 psi = 5.44 gpm
 TIPIC, 58.8 psi = 5.3872 gpm 4) $\frac{188.65}{448.8} = .42 \text{ cfs}$

1. Volume Calculations for Irrigation

$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 17 \times 4.5 = 76.5$
 $V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .34 \times 213 \times 1.9835 = 143.645 = 143.6$

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

MICROFILMED

OCT 13 1987

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Re: Permit No. 65-12106

FRUITLAND SCHOOL DISTRICT NO. 373
Box 387
Fruitland, ID 83619

Gentlemen:

Your approved copy of Application for Permit No. 65-12106 is enclosed and we direct your attention to the conditions of approval on the fourth page.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit.

Re: Application for Permit

Fruitland School District #373

Fruitland, ID 83619

Dear Sirs:

We are returning the application for permit that you recently submitted to us. For the amount of water that you propose to divert, there is a \$25.00 filing fee.

I have taken the liberty of filling out a new application for you. Since we are limited by statute to allowing a rate of diversion of 0.02 cfs per acre, the new application is for a rate of diversion of 0.34 cfs.

To complete the filing, just have the superintendent sign it and return it to us along with the \$25.00 filing fee.

Sincerely,

BILL MACALLISTER
Water Resource Agent
