Re: Permit No. 65-7937

Enclosed is the Statement of Beneficial Use postcard submitted on the above-referenced permit.

Enclosed also is a copy of the permit. Please note the permit is for one domestic use. The postcard shows irrigation. Please help me clear up this discrepancy by providing me with more information.

If water is being diverted from the Payette River, then complete the postcard and return it to this office. Be sure to show the number of domestic uses, for instance, or the number of acres being irrigated. If there is no diversion from the Payette River, write on the postcard "project abandoned", sign and return it. This allows the department to clear its records of undeveloped water rights.

I will followup on this permit on October 15, 1982. Please take the appropriate action by that time.

If you have any questions concerning this matter, please feel free to contact me. Phone (208) 334-4290.

Dear Mr. Danzer:

Enclosed is a copy of your approved Application for Permit No. 65-7937. We direct your attention to the conditions of approval as listed on the fourth page.

Please be advised that there is insufficient natural flow available in the Payette River to provide water for a new appropriation throughout the entire irrigation season.

During the spring run-off each year, there may be a period of time in which the prior rights to the use of the natural flow and storage are filled leaving water available for you later-in-time permit. As the natural flow diminishes, however, there would be no water available for your right and unless you had arranged for an additional source of water to supplement the flow right, you may find that you have to cease irrigating in the middle of the season.

This information is provided so that you will not be mislead into thinking that this permit will provide sufficient water thru the entire irrigation season.

If you have any questions regarding this matter, please feel free to contact this office.

Sincerely,
