Dear Mr. Perry:

One of the conditions of approval of your water Permit No. 65-7827 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Shaff,

I believe I am filing two applications for water rights for the same water. When I filed the application Feb. 14, 1977 it was for putting a well close enough to Clear Creek that it would be supplied with water that would seep through the gravel. The well head would be located back of and above high water so it would not be affected by spring run off.

I am enclosing a copy of my application No. 65-7827 which has a map with the location of the water system on it. This is the only water I wish to file on, so I don't think this new application will be necessary.

The construction of this system

is nearly complete. I had planned when I come home in Feb. 1978 to contact your Office to establish proof of construction and application. The application calls for May 1, 1978 so I thought that would be plenty of time.

If I am wrong in my understanding of this, I wish you would please advise me of anything further that I should do to be assured of this water right
